

OLBOETER'S ESCAPE

SCHWERPUNKT SCENARIO SP109

SITUATION: COUDEHARD, France, 20 August 1944: The Falaise Pocket was closing and rapidly becoming a death trap for German units. Elements of the German Seventh Army streamed toward the very small bottleneck that remained open near the crossroads village of Coudehard. Here, SS Sturmbannführer Erich Olboeter led a mixed force of Panther and Tiger tanks, SS panzergrenadiers, and flak panzers, in an attack to break the encirclement. Olboeter's mission was to seize Coudehard in an effort to hold open the Coudehard-Boisjos road, enabling other German units to escape. Joined by elements of Fallschirmjäger Division 3, the Germans made progress until they reached a wooded area on the edge of a pasture, southwest of the village, and the surrounding high ground held by determined elements of the Polish 1st Armoured Division. Sturmbannführer Olboeter, standing in the commander's hatch of his Panther, signaled Unterscharführer Leo Freund to follow. Olboeter's Panther moved out but did not get far before being immobilized, forcing Olboeter to bailout. Unterscharführer Freund was about to advance when Polish fire struck the warhead of a panzerfaust lying on the edge of the ditch in which his squad was taking cover. The resulting explosion blew apart one of his comrades, spattering Freund and the surviving squad members with the soldier's blood and chunks of flesh. Enraged, Freund and his men surged forward into the enemy, past burning vehicles and through the Polish infantry positions. Fighting raged until 1500 hours when the SS finally cleared the Village. The Hitlerjugend had lost one Panther and in the process, destroyed eight Sherman tanks. The German success was short-lived. The gap was later closed again, forcing many Germans to abandon their equipment and infiltrate through the trap on foot. Olboeter escaped this time, but was badly burned in a partisan ambush eleven days later. He died on the operating table in Charleville on September 1, while having his legs amputated.

MISSION: The Germans win immediately upon accumulating ≥ 95 VP. The Germans receive Exit VP for units exited off the area on/ between 50P8-42P4 and CVP [EXC: prisoners are worth 0 VP]. Additionally, the Germans receive VP for building control. Each building Controlled on board 42 is worth 3 VP.

THE CHERNICHIVO SHUFFLE

SCHWERPUNKT SCENARIO SP110

SITUATION: CHERNICHIVO, Russia, 17 February 1943: During the second battle of Lake Ladoga, the Russian 42nd Army comprised the western pincer of the Soviet effort to crush the 250th Azul Division at Krasny Bor. After several days of bitter fighting, Krasny Bor fell. Covering the right flank of the 250th was the 4th SS-Polizei Division. Its mission was to defend the area of Chernichivo, but it was in no way prepared to defend against massed Russian armored assaults of KV-1 tanks. Therefore, the Eighteenth Army headquarters dispatched the Tiger tanks of Schwere Panzer Abteilung 502 to bolster the 4th SS Polizei Division's position. Once in the area, the Tigers acted as a fire brigade, responding to emergency calls wherever Russian armor threatened to break through. One such desperate call came from a forward command post that was surrounded by a platoon of KV-1 tanks. Leutnant Meyer and Oberfeldwebel Bölter responded with the only two available Tiger tanks in the sector. Meyer's situation was less than ideal. His Tiger was experiencing engine trouble and Oberfeldwebel Bölter's main gun was damaged and unable to fire. Nevertheless, Bölter accompanied Meyer to support him with machine gun fire and to protect Meyer from Russian anti-tank teams. Meyer approached through a defile and observed a KV-1 partially visible through some brush. From a hull-down position, Meyer coolly gave the fire command that sent an 88mm shell boring through the Russian's armor just below the turret. A column of flame shot up from the stricken enemy. Just then, three more KV-1s appeared and tried to escape, but Meyer's crew worked an intricate ballet of rapid loading and precision gunnery that left all three Russian tanks mere smoking hulks of death. About that time an artillery officer and a group of stragglers joined Meyer and charged the on-rushing Ivans, killing them in hand-to-hand combat. Crossing the road, Meyer ordered "panzer halt, traverse right." As his gunner's sight moved, its reticle filled with the image of a KV-1 also traversing to fire. Meyer was quicker on the draw. His round struck the Russian's hull and caused an explosion that blew the KV's turret high into the air and crashing down near Meyer's tank. Meyer went on to knock out three more Russian tanks, for a total of ten kills. Chernichivo was secure for the time being.

MISSION: Russians win if there are no Good Order German (non-vehicular crew) MMCs in pillboxes/trenches and/or in buildings 49L7, 49J7, 49H7 and 49F8 at game end.

COORDINATING INSTRUCTIONS:

1. Weather is Ground Snow (E3.72) with no wind at start.
2. Place overlay: Wd2 on 48DD1-EE1.
3. All gullies are treated as wadis (F5).
4. Boresighting is NA.
5. One of the PzVIEs must be secretly recorded as having a malfunctioned MA. Repair is NA for that weapon. The PzVIE with the functioning MA is considered to have a ROF of 2 while its crew is in Good Order.
6. The German player may elect to disregard one and only one non-intensive fire To Hit DR by a PzVIE (that would result in that gun's malfunction) and instead, treat that as a normal shot.
7. Both sides have Winter Camouflage (E3.712).
8. Substitute a KV-1E for the extra KV-1 M41 that is needed.

WHY AT ERP

SCHWERPUNKT SCENARIO SP111

SITUATION: North of ERP, Holland, 23 September 1944: Oberstleutnant von der Heydte's 6th Fallschirmjäger Regiment had been advancing north to Veghel to cut the Eindhoven-Arnhem road. On the 23rd, the American 506th Parachute Infantry stopped the German advance and reopened the highway by striking the fallschirmjäger right flank, forcing Oberstleutnant von der Heydte to withdraw south to Erp. General McAuliffe then directed the 327th Glider Infantry Regiment to move southeast to clear the remaining Germans from the village of Erp and to secure a bridge until relieved by the British. Elements 2nd Battalion, 327th Glider Infantry moved into Erp from the north and east. The dispirited fallschirmjägers offered only light resistance. By 0600 on the 24th, Erp was secure.

FORESHADOWING SILVERTOP

SCHWERPUNKT SCENARIO SP112

SITUATION: Near ST. ANTHONIS, Holland, 25 September 1944: The 11th Armoured Division was advancing northeast along the Gemert road toward St. Anthonis. At this point of the campaign in the Overloon and Maas Salient, the exact location of the forward edge of the battle area was somewhat uncertain. The confusion was such that, at times, both British and German units travelled on the same roads within minutes of each other. Such was the case when reconnaissance vehicles from the "Black Bull" ran into Kampfgruppe Walter's rear guard, covering the 107th Panzer Brigade's withdrawal toward the east. In a brief encounter, the British reconnaissance vehicles engaged in a fierce fire-fight that left three German halftracks in flames. The remaining two halftracks fled down the Gemert road toward St. Anthonis. Unfortunately for the British, 29th Armoured Brigade commander Brigadier General Harvey was holding a meeting with 3rd RTR commander Lieutenant Colonel David Silvertop and Monmouth's commander, Lieutenant Colonel Orr, at the crossroads outside St. Anthonis. So used to hearing gun fire were these officers, they did not sense the danger until it was too late. Suddenly, with machine guns blazing, the two German halftracks overran Harvey's command group. Silvertop was killed in the initial burst of fire. Orr was mortally wounded, while Brigade-Major Thomson was shot in the lung. Harvey was slightly wounded. The halftracks drove through St. Anthonis, narrowly avoiding troops from the Monmouthshire Regiment. The rear guard's luck ran out though when their halftracks were finally destroyed just east of St. Anthonis. They did not know the damage they had inflicted on the "Black Bull's" leadership.

MISSION: The Germans win immediately upon exiting two halftracks off the area of 17GG8-46GG5.

THE TIGERS WRECKED'EM

SCHWERPUNKT SCENARIO SP113

SITUATION: GIBERVILLE, France, 11 July 1944: British and Canadian forces had seized Caen and were continuing their assault on German forces to the southeast. The Canadian 3rd Infantry Division smashed into the 16th Luftwaffe Field Division north of Giberville, forcing it to withdraw to Cuverville. This left a large gap in the German lines that had to be closed. At 0500, a desperate call for assistance went to the 3rd Company, Schwere Panzer Abteilung 503. Leutnant von Rosen briefed his tank commanders and by 0530 his company of Tiger tanks rolled on toward Giberville. Upon reaching the village, Leutnant Rosen observed a large number of Sherman tanks near a farm northeast of Giberville. He gave the command "panzers marsch" and the battle was on. Just north of Giberville, his Tigers came under heavy fire from British tanks and Canadian anti-tank gun fire. The Tigers put a heavy volume of fire on the Canadians who withdrew under cover of a smoke screen. The Tigers advanced and as the smoke cleared, they engaged a squadron of Sherman tanks. The Tigers gave the Shermans a savage mauling. Within a few minutes, eleven Shermans were ablaze. The British were so unnerved by the attack that they abandoned two fully operational Shermans. Four 6-Pounder anti-tank guns were destroyed and by late afternoon, infantry from the 16th Luftwaffe Field Division filtered back into the defensive positions they were forced to evacuate in the morning.

SEIZING GYULAMAJOR

SCHWERPUNKT SCENARIO SP114

SITUATION: GYULAMAJOR, Hungary, 31 January 1945: Russian forces and had broken through the I Kavallerie-Korps' defenses, southwest of Budapest, in several places. One such penetration was at Gyulamajor. The 4th Kavallerie Brigade was tasked with an immediate counterattack to retake the village. A kampgruppe consisting of Schwere Kavallerie Battalion 4 and King Tigers from the 503rd Schwere Panzer Abteilung attacked toward the village and were met with a heavy volume of Russian artillery, anti-tank gun, and tank main gun fire from the village. Russian fire was so intense the kampgruppe diverted around Hill 214 to flank the village. As the King Tigers approached the village, they were met by JS-2m tanks. A sharp fight ensued. Several Russian tanks were destroyed, while one Tiger was knocked out by a turret hit. Lieutenant Koppe reached Gyulamajor with three Tigers. The victory was short-lived though. With few infantrymen remaining, the Germans could not hold the village. As evening approached, the Germans withdrew, leaving the Russians in possession of the village. The battle for Gyulamajor would resume in the morning.

MISSION: The Germans win at game end if they control the level two hexes of Hill 522 and Hill 534.

MAP ORIENTATION:

THE FIVE POUND PRIZE

SCHWERPUNKT SCENARIO SP115

SITUATION: FONTENAY LE PESNEL, France, 25 June 1944: In the opening phase of OPERATION MARTLET, Company D of the Hallamshire Battalion was to occupy positions on Phase Line *Queen*, otherwise known as the River Bordel, on the western most section of Fontenay. The company advanced through heavy mist and established positions near the river. The battalion's 6-Pounder anti-tank guns had not been in position long before the inevitable German counterattack started. The commanding general had offered a £5 prize for the first Panther tank knocked out. Using newly issued armor piercing discarding sabot (APDS) rounds, Sergeant Williams knocked out the lead German tank. That panzer's wingman knocked out the gun and wounded Williams. The intrepid sergeant would not be defeated. He directed another 6-Pounder that eventually knocked out the second enemy tank. Two additional panzers approached from the south. LTC Hart Dyke called upon the 24th Lancers for assistance. Lieutenant Bob Hart arrived with a troop from A Squadron. His Sherman tanks knocked out one enemy tank, forcing the other to withdraw. The anti-tank gunners were awarded their £5 prize despite that fact that the German tanks they destroyed were actually Pz IVs, not Panthers. Fighting raged on until midnight before Fontenay was finally secure.

MISSION: The Germans win at game end if they control 8 buildings that are ≤ 3 hexes from the stream.

MAP ORIENTATION:

LOONIES AND LEICESTERS

SCHWERPUNKT SCENARIO SP116

SITUATION: MENDICITÉ, Belgium, 29 September 1944: The Canadian 6th Infantry Brigade, 2nd Infantry Division passed through the British 49th Division bridgehead across the Antwerp-Turnhout Canal. Its objective was to seize the Depot de Mendicité located between Ryckevorsel and Merxplas. The position consisted of a barracks combined with a prison, a workhouse, and a lunatic asylum sited on farmland ringed by deep ditches and a rather large moat. Here, the German 719th Infantry Division made its stand. Canadian forces were unable to crack the position, so the mission was given to the men of the 49th Infantry Division, the Polar Bears. On 28 September, the 147th Brigade's 7 Dukes and Glosters along with the Hallams infantry thrust from the south, while the Leicesters struck from the west. In savage fighting, the Leicesters killed nearly eighty Germans, but it was all to no avail. The Leicesters' lead company was nearly annihilated in the process and by dark both sides withdrew. Another attempt began at dawn on the 29th. Major Peter Upcher led D Company across the moat and into the heart of the German position. Adding to the confusion of battle were dozens of mental patients who wandered the battlefield and among the combatants. Curiously staring and walking the field, the mental patients "were killed left, right, and center" in the heavy fighting around the mental hospital. By evening, the depot was in Polar Bear paws, but at a cost of seventy Leicesters. The Leicesters exhibited many acts of heroism. For their parts in the action, Sgt. Irwin, Sgt. Johnson, Sgt. Saunders, Pvt. Woods were awarded the Military Medal while Major Upcher was awarded the Distinguished Service Order.

MAP ORIENTATION:

(Only hexrows A-P are playable)

OPTIONS:

- ⊙ Delete a German 4-4-7.
- ⊕ Delete a British 4-5-7.

MISSION: The British win at game end if they have more VP than the Germans. CVP are awarded for personnel/inherent crews only (Prisoners are worth 0 VP). Each building location of buildings D8 and G7 is worth 1 VP. Each side must deduct 1 VP for each patient unit (see Coordinating Instruction #3) that it eliminates.

COORDINATING INSTRUCTIONS:

- EC are moderate with no wind at start.
- All buildings are ground level only.
- Place (1)-0-6 half squad counters in D8, D9, E8, F8, F9, and G9. These represent escaped mental hospital patients. They may not attack nor may they be taken prisoner. All fire traced through a patient occupied location receives a +1 Hindrance DRM. Each side must deduct 1 VP for each patient unit it eliminates. Patients are subject to pin results. They do not activate snipers. They are valid targets for all fire into their location.
- The ATTACKER may move half of the patient counters (FRU) in the Aph; otherwise, the patients may not move.

STRANDED CATS

SCHWERPUNKT SCENARIO SP117

SITUATION: SITTANG, Burma, 22 February 1942: The Japanese thrust into Burma was picking up steam. After bursting through at Moulmein, the Japanese sped to seize bridges across the Sittang River. Confusion seemed to reign among the Allied forces, causing serious loss of morale among the troops. The British commanders were struggling to evacuate their bridgehead in the face of an unrelenting enemy. On 22 February, the previously lightly engaged 415th Regiment's 1st Battalion approached the town of Sittang and its important, but narrow bridge. The Japanese commander decided to attack immediately before the bulk of the regiment moved up. As the first company struck west along the outskirts of town, one of its platoons, with attached engineers whose job it was to prevent the bridge from being destroyed, ran into British armored cars and carriers. Dodging MG fire, they also stumbled onto an aid station and captured a number of doctors. Using infiltration and grenades, they approached the bridge, but were driven back when a battalion of Gurkhas was sent across to hold the hills overlooking the bridge. The Japanese attacked again during the day, but did not take the bridge. To prevent its capture the bridge was destroyed early the next morning, leaving nearly all of 17th Indian Division stranded on the other side.

Scenario Design: Brian Williams 090404.10

MAP ORIENTATION:

(Only hexrows R-GG are playable)

OPTIONS:

- ⊙ Exchange the British 6+1 leader for a 9-1.
- Exchange the Japanese MMG for an HMG.

MISSION: The Japanese win immediately by exiting 13 CVP [Prisoners NA] from hexes R1-R2. Assault Engineers have their CVP increased by 1 for squads and ½ for half-squads.

COORDINATING INSTRUCTIONS:

1. EC are normal with no wind at start. All buildings are wooden and printed stairwells do not exist. Treat rowhouses as normal buildings. PTO terrain is in effect [EXC: all roads and bridges exist] including Light Jungle.
2. Place Overlays: **B2** on 20R4-S4; **X26** on 20U2-V2.
3. Japanese OB 4-4-8/2-3-8 MMC are Assault Engineers (H1.22).
4. Boresighting is NA.

SEIZING THE SITTANG BRIDGE

SCHWERPUNKT SCENARIO SP118

SITUATION: EAST OF TOUNGOO, Burma, 29 March 1942: Having forced the Sittang River near the Bay of Bengal, the Japanese stormed into an abandoned Rangoon. For the Allied forces, the loss of Rangoon was a disaster. Without the port, supplies had to be trucked over hundreds of miles of jungle-clad mountains. Still, help was on the way in the form of three Chinese armies, each analogous to a European division. With these new troops, it was hoped that the Burma Road could be kept open. However, the Japanese had different plans and a different timetable. With the opening of Rangoon, two new Japanese divisions arrived, the 18th and 56th Divisions. The 56th Division's recon regiment arrived in Rangoon on the 26th of March, and left a day later as the Chinese battled the 55th Division for the important town of Toungoo. Crossing the Sittang below Toungoo, the lead units of the recon regiment approached the bridge from the east. Their attack, coming from an unexpected quarter and with armored cars, surprised the Chinese guarding the bridge. The Japanese scattered the defending troops before they could destroy the bridge, despite the fact that the British had wired it for demolition. The next day the recon regiment recrossed the Sittang, attacking Toungoo from the east, helping to force the Chinese to withdraw. A key piece of the Toungoo victory, the suspension bridge over the Sittang allowed the 56th Division to stab into the Shan states, and force the Chinese back beyond Mandalay; the Burma Road would soon be closed.

MISSION: The Japanese win at game end by controlling, with infantry, hexes 40AA3 and 40AA4.

COORDINATING INSTRUCTIONS:

1. EC are Dry with no wind at start. PTO Terrain is in effect, including Light Jungle [EXC: Brush remains brush and all roads/bridges exist]. Kindling is NA. The river is deep with a moderate current flowing south.
2. A stone bridge exists in hexes 40AA3 and 40AA4.
3. The Chinese are Lax.
4. Japanese OB 4-4-8/2-3-8 MMC are Assault Engineers (H1.22).
5. Boresighting is NA.
6. Crews may not abandon (D5.4) their vehicles.

CAPTAIN LAMBERT'S FACTORY

SCHWERPUNKT SCENARIO SP119

SITUATION: BERGEN-OP-ZOOM, Holland, 29 October 1944: The effort to open the port of Antwerp was in full swing. Although the port had been taken, the approaches to Antwerp had to be cleared for it to be of use. To help in the clearing of the approaches, the 4th Canadian Armoured Division was ordered to take Bergen-op-Zoom, as this would seal off the isthmus between the East and West Scheldt. On the 27th of October, C and D Company of the Lincoln and Welland Regiment, with tank support, entered Bergen-op-Zoom and made it to the center of town. After a short rest, they were ordered to make a night, diversionary attack across a canal and into some factories. With A Company leading, the regiment encountered stiff opposition from the seasoned men of Fallschirmjäger Regiment 6. Although the rest of the Lincoln and Welland Regiment were temporarily stopped, Captain Lambert and thirteen men of A Company managed to make it into one of the factories and were cut off for the night. The next morning, the remainder of the regiment, led by D Company, renewed the attack. This time, they were able to reach the factories and relieve Captain Lambert and his men while beating off numerous German counterattacks. For his part in capturing and holding one of the factories, Captain Lambert was awarded the Military Cross.

MAP ORIENTATION:

OPTIONS:

✚ Exchange the 4-4-7s for 5-4-8s.

✚ A Company is Fanatic (A10.8).

(Only hexrows A-P on board 21 and R-GG on board 22 are playable)

MISSION: The British win if there are no Good Order German (non-vehicular crew) MMCs in buildings 21G7, 21E5, and/or 21J3 at game end.

COORDINATING INSTRUCTIONS:

1. EC are moderate with no wind at start.
2. Buildings 21G7, 21E5, and 21J3 are factories (B23.74).
3. Canadians are elite C8.2.
