

TELEGRAM PRINTING AND FOLDING

Print on light blue or green paper, if possible. Printing on newsprint paper is also good, if it doesn't jam your printer.

Type address, message, etc.

Option 1: use built-in Acrobat form fields on telegram.
Option 2: delete default entries in Acrobat form and print telegram "blank." Then put blank prop into an actual typewriter, or use your choice of word-processor / page layout software with alternative fonts. Using a real rubberstamp for the date adds authenticity. NOTE: sometimes telegrams were handwritten by the clerk, so you can also write the message in longhand if desired.

After address, message, etc. are entered, fold telegram according to the diagrams at right. There are small arrows on the telegram itself to guide you. When you are finished, the telegram will be folded into a small packet with the address showing on the front and the message hidden inside.

Seal the flaps on the back of the folded packet by gluing on the zeppelin seal below, or use a gold seal type sticker or a postage stamp. You can download one of the HPLHS Postage stamps for this purpose.

Put on your European telegram delivery boy outfit and deliver your message!
