SECTION ONE: INTRODUCTION...

This sourcebook details the characters and world created by Bruce Timm in the DC Comics-based shows **BATMAN: THE ANIMATED SERIES**, **THE ADVENTURES OF BATMAN & ROBIN**, **THE NEW BATMAN ADVENTURES**, **JUSTICE LEAGUE**, and **SUPERMAN: THE ANIMATED SERIES**, for use with Green Ronin's *MUTANTS AND MASTERMINDS* (henceforth to be referred to as **M&M**) Role-Playing Game.

WHAT YOU'LL NEED TO PLAY...

The *M&M Core Rulebook* is a must. Green Ronin's *Freedom City Sourcebook* and *Crooks!* are good reference sources for NPCs' and campaign ideas.

CAMPAIGNS IN THE DCAU...

The DC Animated Universe (henceforth to be referred to as The DCAU) is a vibrant and rich setting for playing a superhero RPG campaign. Role-playing in the DCAU is not very different than role-playing in any other superhero RPG. Many cartoons based on comic books tend to "dumb down" and make child-like the subject matter; the Timm versions are more like the comics than many of the comics themselves. The GM and the Players must decide what role the players will portray in this highly populated setting.

THE PLAYERS AS ESTABLISHED DCAU CHARACTERS

The players can take on the role of **BATMAN**, **SUPERMAN**, or any of the other heroes presented herein. Most of them are higher Power Levels than the standard starting PL10 of most M&M campaigns, so the GM and Players will have to determine which characters best fit their game concept.

Of course, the players can also play the role of villains in the DCAU, if within the scope of the campaign. This is not recommended, but could be interesting if done right!

THE PLAYERS ARE NEW/ORIGINAL HEROES

The players create new heroes in the DCAU at the Power Level established by the GM. They can be a new team of heroes based in GOTHAM CITY or METROPOLIS, a back-up or second-shift team for the Justice League or some other creative concept that suits the campaign.

CREATING CHARACTERS IN THE DCAU...

Follow the guidelines established in the M&M Core Rulebook for creating characters for a campaign set in the DCAU. As mentioned previously, there is no real difference playing in a "standard" superhero RPG and one set in the DCAU; it's all a matter of perspective.

Establishing an appropriate Power Level for characters based in each show can be a challenge. The standard PL10 can be

used for a campaign set in any of them, but might be under-powered or over-powered depending on the flavor of the setting you are going for. Use the following guidelines as a rule of thumb:

GAMES SET IN THE *BATMAN ANIMATED SHOWS*

The threats and foes that face the Dark Knight are certainly deadly, but are generally of a lower Power Level. Establish Power Levels from 8 to 12, depending on what kind of game you are playing or running. Lower than 10 should be reserved for sidekicks and heroes that are extremely new to the role set by the GM.

GAMES SET IN *SUPERMAN: THE ANIMATED SERIES*

The Man of Steel constantly faces threats of an almost epic scale (**BRAINIAC**, **DARKSIED**), but frequently face foes of a rather "ordinary" nature (**LEX LUTHOR**, **TOYMAN**). It would not be inappropriate to establish a Power Level for such a campaign at PL14, but should not be below PL10.

GAMES SET IN THE *JUSTICE LEAGUE SHOW*

The **LEAGUE**, being composed of heroes at a variety of Power Levels, nonetheless faces threats on a cosmic scale. While this is not always the case, it more often than not is the case. Power Levels appropriate for this type of campaign can be as high as PL16, but not lower than PL10.

The most important guideline here is to set the Power Levels of your campaign so that everyone involved can enjoy themselves. As guidelines they are flexible to fit the style of game-play the GM and Players have established.

A NOTE ON THE DCAU CHARACTER DESIGNS...

Every attempt was made to model these characters after how they were portrayed on their respective shows. Some liberties were taken to make them playable or to fill gaps in their concept, but unfortunately some elements might have been missed. The idea here was to get the general feel of the characters more than to include every possible power, feat, skill, weakness, what have you the characters possess. And, of course, as some of the shows are still on the air (and some shows that are no longer on the air occasionally have direct-to-video movies made), the characters will no doubt change. Please feel free to update/correct any of the characters to better suit your campaign, as needed.

Bonuses from stats, feats, powers and others are always shown after the item they modify. For example, the Defense of a character will detail what the Dex Bonus, bonuses from feats such as Dodge and bonuses from any powers that are permanent. The exception to this is Skills. Skills only show the final score and don't indicate the Stat Bonus. Also, feats such as Skill Focus and Talented are not added in. This is because sometimes they cause the skill to go over the limits of the character's Power Level, so the GM will have to apply them as necessary.

The Power Levels of the characters presented here were modeled so a character starting at the standard PL10 might have a chance of surviving on a mission with, say, the Justice League. Some characters are less powerful than they might be perceived on the shows. If you disagree with these set PLs; feel free to change them. Think of them as a framework on which you can build the type of campaign that the GM and Players can enjoy. The important thing is that these character write-ups are useful to your campaign!

Barbara Gordon is the daughter of police commissioner **JAMES GORDON**. She is a few years older than when we last saw her (about twenty-one) and has just graduated college with honors in the field of computer science. By day she works for the police department updating their crime files; by night, she battles the underworld as **BATGIRL**.

Early on **BATMAN** deduced the masked red-head who fought so hard to clear Commissioner Gordon could only be Gordon's daughter, Barbara. When Dick Grayson left **GOTHAM**, **BATMAN** found himself calling on **BATGIRL** to work with him on special cases. Eventually **BATMAN** told **BATGIRL** the secret of his dual identity and granted her free access to the Batcave and all its technology.

Barbara lives in a private townhouse near **GOTHAM'S** trendy Park Ridge. A service lift in Barbara's bedroom closet runs down to the secret basement where Barbara stores her **BATGIRL** crimefighting gear. In addition to costumes and weapons, the basement also serves as garage for **BATGIRL'S** highly-advanced Batcycle, a gift from **BATMAN**.

Her double life as **BATGIRL** sometimes puts Barbara at an emotional crossroads. As the daughter of the Police Commissioner, Barbara was raised with respect for law and order, but her actions as **BATGIRL** technically label her a vigilante. If **BATGIRL** was ever caught and unmasked, the scandal would certainly destroy Commissioner Gordon's career. Still, **GOTHAM** is a city that breeds an extreme kind of criminal and extreme crimefighters are needed to handle situations regular cops can't. Barbara believes the good she does as **BATGIRL** is worth the potential risk to herself and her father.

DESIGN NOTES:

- **BATMAN'S** Skills were bought using the Errata Option "Reduced Skill Costs" at 1:3.
- The design of this character is heavily influenced by the methods used to design the *Freedom City* Character **RAVEN**.

Two terrible moments forever changed the life of Bruce Wayne. The first came at age six, when he roamed the far grounds of GOTHAM CITY'S Wayne Manor and fell into a deep cavern swarming with bats. Though his father soon rescued him, Bruce never again felt completely secure in his world.

The second came two years later, in an alleyway behind the movie theater in which the Waynes had just seen "The

Mark of Zorro." There, before Bruce's very eyes, a mugger shot Thomas and Martha Wayne in cold blood before fleeing into the night.

Though the police eventually arrived, they were far too late to help the Waynes; but physician and social worker Leslie Thompkins arrived in time to bring loving comfort to Bruce before his young heart was forever hardened by his trauma. Together with Philip Wayne, Bruce's uncle and legal guardian, and Alfred Pennyworth, the Wayne family butler, Thompkins gave guidance to Bruce as he passed through his teens. But none of them could erase from Bruce the burning passion to punish all criminals, an oath he avowed at his parents' grave site. To that end, Bruce grew up training himself to the peak of physical and intellectual perfection and, at age eighteen, began using his vast fortune to travel the world in search of those who could teach him to fight crime effectively.

Years later, Bruce returned to GOTHAM CITY and began his war on crime. Before long, he came to realize that his skills were not enough, that he would need an edge over his opponents -- a guise that would strike terror into their hearts. Inspired by the bats that had so horrified him as a boy, Bruce donned a blue-and-gray costume complete with cape and cowl and renewed his mission. The results were immediate: soon, the criminals of GOTHAM began speaking in fearful whispers about the creature known only as the **BATMAN**.

Though **BATMAN'S** fight against corruption was a lonely one, he soon found others who shared his passion for justice, chief among them police lieutenant James Gordon, one of GOTHAM'S few honest cops. Their friendship deepened over the years, and today, in his role as Police Commissioner, Gordon frequently uses the Bat-Signal to summon the Dark Knight whenever his policemen are confronted with threats too great for them to overcome.

The **BATMAN'S** life was changed once more, when he adopted Dick Grayson, a young acrobat whose parents, like Bruce's, had been killed by criminals. Under Bruce's tutelage, Dick adopted the guise of **ROBIN** and became **BATMAN'S** partner, staying with his mentor until reaching adulthood. Eventually, the **ROBIN** mantle was passed along to Tim Drake, the current **ROBIN**.

BATMAN is unique among those crimefighters who hide their true identity behind a mask and costume in that his Batman guise is the "real" one - his daytime role of bored socialite and philanthropist is actually the disguise. This persona is carefully crafted to divert any suspicion that Bruce Wayne, principal stockholder in *WAYNE ENTERPRISES*, an extensive world-wide empire of successful businesses, is by night, **BATMAN**.

Not one, not two, but three different women make up the persona of **BATWOMAN**. One was the brains (Rocky), one was the motive (Kathy) and one had the will to make it happen (Sonia). The three of them met through Sonia—Kathy met Sonia in an art class and Sonia was roommates with Rocky in freshmen year at State University.

SONIA—When Sonia's family's business was burned to the ground by one of Rupert Thorne's business dealings, she and her family lost everything. Thorne was never linked to that night, and in effect, was never trialed for his crime. Fueled by that night, she became a cop and swore she'd take down Rupert Thorne.

ROCKY—Her fiancé, David, was thrown in jail for being framed for a crime the **PENGUIN** committed - but was never charged for. Her 'computer geek' persona was the perfect cover for her not being a candidate for being **BATWOMAN** - something that even fooled Batman till the very end.

KATHY—Daughter of Carlton Duquesne, her mother was killed by a hit that was supposed to go to her father. Her motive was simple - her mother died because of simply being associated with him, and he kept her under tight guard wherever she went. She hated him, in a sense, for what he did as a 'business', and wanted to put an end to it.

When the three got together, the idea of **BATWOMAN** formed, mapped out their plans and how to go about it and set everything in motion. After they went on their final run to take down the three men they swore they would, they almost lost each other in the process.

Sonia was fired from the GCPD for her alternate persona as **BATWOMAN**, David, Rocky's fiancé, was freed from jail, and Carlton Duquesne was sentenced to jail—where father and daughter now talk regularly.

DESIGN NOTES:

- Jack Ryder is based on the Report on P. 155 of the Core Rulebook.

Once he was simply Jack Ryder, the no-nonsense co-anchor of Summer Gleeson's "*GOTHAM INSIDER*." But the staid newsman's life was changed forever after an encounter with the Joker and his lethal laughing toxin. When Jack did an expose on the history of the "Clown Prince of Crime", The **JOKER** showed up and threw Ryder into the same vat of chemicals that transformed him. The vat of chemicals, mixed with the **JOKER'S** laughing gas, mutated him into a bizarre super-human creature, the living embodiment of the wild personality he had kept buried inside him for so long. Dubbed the **CREEPER** by a terrified onlooker, the insane creature went on a wacky rampage which resulted in him actually helping **BATMAN** to capture the **JOKER**.

Though the wild imbalance of chemicals had caused a permanent change in Ryder's body, **BATMAN** devised a specially treated skin patch that, when worn, keeps the **CREEPER** subdued. But when there's extreme danger, Ryder can remove the patch and let the zany, always unpredictable **CREEPER** out to join the fight.

Centuries ago, during the age of Camelot, a nobleman named Jason Blood fell in love with **MORGAINE LE FAY**, a powerful sorceress and half-sister of the legendary King Arthur. In an attempt to curry her favor, he betrayed his king and assisted the witch in her conquest of Arthur's throne—an act that led to his murder by her hand. However, the wizard Merlin learned of his deeds and, as punishment for his treachery, mystically bound his spirit to **ETRIGAN**, a powerful demon from the underworld. Thus, Jason Blood was cursed, and would remain so until the day that he is able to atone for his deeds.

Today, the now-immortal Blood is known to the world as a leading authority of the paranormal, but, should the need arise, he can transform into the **DEMON** in order to protect humanity from mystical threats. Though they are separate identities, both share the same goal: the downfall of **MORGAINE LE FAY**.

EQUIPMENT: Helmet of Nabu [Sorcery +12 (Spells: Astral Projection, Dimensional Travel, Energy Blast, Flight, Force Field, Healing, Illusion, Telekinesis, Telepathy); Flaw: Device; Source: Mystical; Cost: 8pp]

Kent Nelson was born to Celestine Babcock Nelson, a spiritualist, and Sven Nelson, an archaeologist. Kent's mother died sometime after his birth under unknown circumstances. At the age of 12, Kent was taken on a dig to the Valley of Ur in Mesopotamia by his father, Sven. There, the elder Nelson discovered the **TEMPLE OF NABU** and, unswayed by the tales of the natives, Sven and Kent ventured into the temple, a decision that would forever change their lives.

Wandering about the temple, Kent stumbled upon an ancient sarcophagus containing the giant body of Nabu the Wise, an ancient Egyptian sorcerer. Compelled by some mysterious force, Kent pulled the lever that had kept Nabu in suspended animation, releasing a poisonous gas that killed Sven Nelson but left Kent unharmed. As gratitude for his release, Nabu offered to teach the boy unlimited power. Kent wanted only to have his father back; with a wave of his hand, Nabu removed all knowledge of Sven's death from the boy.

Within a week, Nabu had transformed Kent into a full grown man and taught him the ways of mysticism. Nabu's last wish was for Kent to release all his power on his master; Kent, however, could not kill his master as he had grown attached to the ancient wizard. With a gesture, Nabu allowed Kent to remember that the gas that freed Nabu had killed his father. In an angry rage, Kent summoned all his power to destroy his father's killer. Nabu's true origin was finally revealed to Kent: Nabu was an energy being, a **LORD OF ORDER**. As a final gift, Nabu gave Kent a golden helmet and an amulet that would allow him to fight the never ending battle of Order over Chaos, as **DR. FATE**. Kent now lives in Salem, Massachusetts with his wife, the powerful sorceress **INZA**.

A former U.S. Marine, John Stewart was chosen by the **GUARDIANS OF THE UNIVERSE** to join The **GREEN LANTERN CORPS**, an intergalactic peacekeeping organization dedicated to protecting life throughout the universe. Awarded an emerald ring whose energies could be manipulated by force of will, Stewart left EARTH to train under the watchful

eye of veteran **GREEN LANTERN** Katma Tui, where he proved himself time and again to be an exceptional champion in countless missions across the cosmos. Later, following the death of **GREEN LANTERN** Abin Sur, John Stewart was chosen to become the new **GREEN LANTERN** of Sector 2814, a quadrant of space that included his former home.

Returning to EARTH after ten years in deep space, Stewart reeled from the culture shock of trying to reintegrate into a society that, for all intents and purposes, was as alien to him as any of the countless civilizations he had encountered during his training. This, however, did not affect his ability to serve them as the **GREEN LANTERN** of EARTH, as he protects his homeworld with the same dedication that earned him the respect of his fellow Corps members. Today, either by himself or as a member of the **JUSTICE LEAGUE**, John Stewart is a force to be reckoned with; an emerald beacon shining in darkest night.

Izaya the Inheritor was a warrior of NEW GENESIS, husband of Avia, and father of the boy who would become Scott Free. He and his wife were ambushed by **STEPPENWOLF**, his nephew **DARKSEID**, and the warriors of APOKOLIPS, during which attack, Avia was slain. Izaya led an attack on APOKOLIPS, during which he slew **STEPPENWOLF** (though **STEPPENWOLF** would later return). Revenge, however, brought no solace to Izaya, and he soon after went on a sojourn into the wilderness of NEW GENESIS, seeking enlightenment.

It was at this time that Izaya first encountered the Source, and, taking the name **HIGHFATHER**, he returned to the gods of SUPERTOWN to bring them the Source's wisdom. **HIGHFATHER** engineered the Pact with **DARKSEID**, by which Izaya's child was sent to the orphanages of **GRANNY GOODNESS** on APOKOLIPS, while **DARKSEID**'s son **ORION** was sent to live on NEW GENESIS as **HIGHFATHER**'s adopted son. (It was later revealed that **HIGHFATHER**'s true motive in this agreement was to simultaneously redeem **ORION**, while refining Scott's spirit through his testing on APOKOLIPS.)

To this day, **HIGHFATHER** continues to lead the gods of NEW GENESIS, and hopes to one day pass down leadership to his son. Relationships between father and son are strained, however, due both to the results of the Pact, and Scott Free's general rejection of the ways of the gods in favor of that of the humans of EARTH.

WEAKNESS: Disturbing, Susceptible: Fire

It was over a thousand years ago, when the people of MARS (or Ma'aleca'andra) were at the pinnacle of their culture's achievements, that J'onn J'onzz last knew peace. Married and the father of two children, J'onn was known as a Manhunter - a peacekeeping officer that sought out those who would try to bring about its downfall. This contentment was not to last, however, as his planet was invaded by the forces of The IMPERIUM, who sought first to conquer and then to feed off of the Martian's psychic energies.

Utilizing his Manhunter skills to help his people fight a guerrilla war against the invaders, J'onn was forced to watch as, over the centuries, they systematically destroyed his culture and slaughtered his people. Finally, in a desperate last stand backed by other survivors, J'onn succeeded in stopping the IMPERIUM'S forces by infiltrating their underground citadel and releasing a powerful nerve gas that trapped the invaders in a state of suspended animation. However, in the aftermath, J'onn discovered that his comrades had, meaning that he was the last of his kind.

Tired of fighting and unwilling to kill anymore, J'onn pumped their fortress full of the gas and sealed the doors

behind him. Seeking some sort of purpose, he vowed to keep watch over them, should they somehow break free. Thus, J'onn maintained his post for five hundred years, until the day that astronauts from EARTH unwittingly released the invaders from their slumber and presented them with their next target. Coming to warn of the coming invasion, J'onn telepathically reached out and assembled six of EARTH'S heroes into what the world would soon know as the **JUSTICE LEAGUE** and, following the defeat of the armada, decided to remain on EARTH as one of its champions.

Fascinated by the complexity of the human race - and weary of being alone - J'onn walks amongst us, either in disguise or in the caped, amalgamated human/Martian form that he currently favors. Though he still mourns the loss of his family and people, he also realizes that he now has a surrogate family in the form of the **JUSTICE LEAGUE**, and uses his inherent shape-shifting and telepathic abilities in their service. The last of his people, the Manhunter from Mars is always ready to resume the role that he served long ago, on another world, should any try to threaten the safety of his new home.

WEAKNESS: Disturbing

Businessman Simon Stagg developed a new mutagen that promised to turn normal humans into superbeings. When confronted about the substance by employee Rex Mason, he arranged for Rex to "accidentally" be infected with the mutagen, transforming his future son-in-law into a monster.

Believing John Stewart (**GREEN LANTERN**) responsible for his accident, **METAMORPHO** fought him and the **JUSTICE LEAGUE** to a stand still. Stagg videotaped the fight, planning to use the footage to help him sell his **METAMORPHO** mutagen.

Discovering that it was Stagg and not **GREEN LANTERN** who betrayed him, Rex confronted Stagg. During the battle, part of Stagg's brain was transferred to the mutagen, transforming it into a huge slime creature.

It was up to the **JUSTICE LEAGUE** and **METAMORPHO** to stop Stagg. Discovering a neutralizing agent, **METAMORPHO** transformed into the compound, destroying Stagg once and for all. Rex appeared to die in the process, but managed to piece himself together to both the **JUSTICE LEAGUE** and Sapphire's delight.

Bound together by the tragedy they share, Bruce Wayne and Dick Grayson's lives are distinctly similar. As part of the traveling circus's high wire act "The Flying Graysons," Dick Grayson witnessed his parents' death while they performed at the *HALEY CIRCUS*. A two bit extortionist, Tony Zucco, cut the wire to gain kickbacks from the circus owner. Bruce Wayne, who was in the audience, felt an instant connection to the boy and took him in.

Shortly thereafter, Grayson became the ward of Bruce Wayne. Wayne provided him with a home, solid financial support and taught him new skills, adding to his tremendous gym-

nastic abilities. Eventually, Bruce Wayne allowed Dick access to his most private world as his partner, **ROBIN**.

After college, Dick Grayson left GOTHAM to travel the world on his own, much like Wayne had done in the years before he became **BATMAN**. While living abroad, Dick studied many different crime fighting techniques and reexamined his feelings about taking up the role of **ROBIN** again when he returned to GOTHAM. He eventually realized he had outgrown the role of **BATMAN'S** trusted sidekick, and set about developing a new heroic identity all his own.

When Dick returned to GOTHAM, he moved out of Wayne manor and into a downtown loft above an abandoned warehouse. Money from a generous trust fund set up years before by *HALEY'S CIRCUS* enabled Dick to buy the building and turn its top two floors into his own high-tech urban headquarters. True, Dick's fortune is small compared to the Wayne billions, but he's got enough cash to keep his crime fighting alter-ego in state of the art weaponry for years.

NIGHTWING is quickly establishing himself in GOTHAM CITY as a young, powerful and mysterious force for good. **NIGHTWING** uses his sleek motorcycle to patrol the streets of GOTHAM. Barbara also likes the change in **BATMAN'S** former sidekick and is looking at **NIGHTWING** as a romantic possibility, something she never could see in the old **ROBIN**.

to be raised in the orphanages of **GRANNY GOODNESS**.

ORION wields the Astro Force, a diluted version of his father's Omega Force, by which he is able to produce a variety of effects. Usually, however, **ORION** channels this energy through his Astro-Glider, which he uses in combat both to fly and to generate focused energy blasts. He also possesses a Mother Box which he is able to utilize to summon boom tubes and to sooth his savage rage.

DESIGN NOTES:

- **ROBIN** is 3pp over PL8.
- The design of this character is heavily influenced by the methods used to design the *Freedom City* Character **RAVEN**.

ROBIN is now Tim Drake, a thirteen year-old street kid adopted by Bruce Wayne. Tim's real father was a small-time hood (Stephen "Shifty" Drake) who stole money from **TWO-FACE** and then skipped town to escape the villain's wrath. Abandoned by his callous parent, Tim was forced to live on his own. A great admirer of **BATMAN** and **ROBIN**, Tim tried to act as brave and tough as his heroes, and successfully eluded **TWO-FACE's** year-long efforts to capture him and force him to reveal his father's whereabouts. Eventually **TWO-FACE** did catch Tim, only to later receive word through the underworld that Drake Sr. had fatally run afoul of gangsters in CENTRAL CITY. Furious, **TWO-FACE** ordered his men to kill Tim, but **BATMAN** caught up with the villain and rescued the boy. Admiring Tim's courage and fighting skills, **BATMAN** took him under his wing and a new **ROBIN** was born.

Owing to his years of parental neglect, Tim has grown up very "street" with a tough exterior and a chip on his shoulder. His new life as Bruce Wayne's ward has softened him a little, but he's still all sass and attitude when he goes into action as **ROBIN**. Much greener than Dick Grayson was at his age, Tim sometimes bites off more than he can chew when he rushes into danger. To a degree, Tim feels he has to "earn his place" at **BATMAN's** side and he wants to prove

he's all the hero the old **ROBIN** was... and then some.

John Henry Irons was an inventor and researcher for **LEXCORP**. He developed the ultra modern police suit, code named the "Prototype". It was a supersuit which allowed members of the METROPOLIS PD to have the same

abilities and powers as **SUPERMAN**. When the suit took control of the subject's mind and caused the officer to lose control, **SUPERMAN** and Irons decided it was not ready for use, and must be destroyed. **SUPERMAN** told Irons that if he could go back and improve the suit, he could use the help. Irons quit **LEXCORP** and went to work on improving the suit.

When Irons witnessed the return of **METALLO**, who was on the verge of destroying **SUPERMAN** with his Kryptonite powered exoskeleton, he knew he had to act. He donned the new suit he had been developing, and grabbed the battle hammer he made to go with it, and **STEEL** was born. He saved **SUPERMAN'S** life and the Man of Steel had a friend and comrade in the fight against evil in **METROPOLIS**.

WEAKNESS: Susceptible (Kryptonite), Vulnerable (Magic)

When **KRYPTON** exploded, its smaller neighbor, **ARGOS**, was thrown out of its rotation and sent flying into space. Fortunately **ARGOS'S** top scientist convinced the people of **ARGOS** that Krypton's destruction was at hand, and together they managed to construct a force field that maintained the gravity and atmosphere of their planet. For sixteen years the residents of **ARGOS** survived. In time **ARGOS'S** force field began to fail, and, sensing the end of their world, the scientist placed her family in cryotubes to preserve them until help could arrive. Kara, however, was the only one to survive.

SUPERMAN introduced Kara to his adoptive parents who took her in and are now helping her adjust to life on **EARTH**. In order to blend in, Kara has taken the last name Kent, and Jonathan and Martha explain that she is a niece on Jonathan's side of the family.

Inspired by her "cousin" Clark, Kara has made a costume similar to Superman's and occasionally joins on missions as **SUPERGIRL**. Kara frequently visits Clark in **METROPOLIS** and, as **SUPERGIRL**, she has full access to **SUPERMAN'S** Fortress of Solitude.

Argosians and Kryptonians sprang from a common humanoid ancestor. As a result, **SUPERGIRL** has powers that are similar to **SUPERMAN'S** (flight, strength, heat vision, super-hearing), but is more resistant to Kryptonite (exposure to the radioactive element would kill **SUPERMAN** in about twenty minutes; **SUPERGIRL** could hold out for several hours). Also, because **SUPERGIRL** is nearly half **SUPERMAN'S** age (16), her powers are not quite as strong as his. She more than makes up for this in attitude, which is cocky, hip and very independent. With **SUPERGIRL**, **SUPERMAN** has a living link to his alien heritage, and someone he can talk to about his dual lives as **SUPERMAN** and Clark Kent. She is a frequent friendly ally who can be trusted with **SUPERMAN'S** secret.

DESIGN NOTES:

- **SUPERMAN** is 1pp over PL16
- **SUPERMAN'S** Skills were purchased using the Errata Option "Reduced Skill Cost" at 1:3.

SUPERMAN is Kal-El, son of Jor-El and Lara of the planet **KRYPTON**. He was rocketed to **EARTH** as a baby when **KRYPTON** was obliterated in a cataclysmic explosion that Jor-El had predicted. Kal-El landed on **EARTH** to be found and adopted by Jonathan and Martha Kent, who named him Clark and, fortunately for us, raised him to be a good citizen and a heck of a nice guy.

SUPERMAN realizes he is out of place in this world, but he

also realizes he can help it. Rather than use his powers to impose his will on others, he has chosen to be EARTH's gentle guardian, pledging never to kill anyone, or interfere in the free will of nations. Sometimes it's difficult for him to remain detached, especially when he sees the effects that bad policies have on the planet. Even as **SUPERMAN** there's not much he can do about that, though as reporter Clark Kent he can champion the fight of the little guy through his writing for the *DAILY PLANET*. In some ways the good Clark does in print is just as meaningful as any of **SUPERMAN's** heroic feats. **SUPERMAN's** not out to make a name for himself; he's there to help people.

He rarely stays around for a "thank you"; he simply does his job and leaves. Naturally, some people treat **SUPERMAN** with suspicion, believing that a man this selfless and good must have an awful lot to hide. Some people even fear him, dreading the day that **SUPERMAN** will decide that humans are not fit to govern themselves. Of course, it would never be in **SUPERMAN's** nature to do that, but, being a rather elusive hero, some paranoid souls are inclined to think the worst.

DESIGN NOTES:

- **WONDER WOMAN** is 1pp over PL16.

When **HIPPOLYTA** was murdered for the first time - in her initial life as a prehistoric cavewoman existing over 32,000 years ago - the killer responsible for that act claimed not one life that day, but two, as the future Queen of **THEMYSCIRA** was heavy with child. As a result of her premature

death, the child's soul (along with that of her mother) was collected by Gaea, goddess of EARTH, and placed in the Well of Souls, a fount that held the spirits of murdered women from throughout the ages.

It wasn't until millennia later, after the **AMAZONS** had settled the island of **THEMYSCIRA**, that the soul of **HIPPOLYTA's** unborn child would achieve its destiny. Still saddened by the absence of the child she had been denied in her previous life, the Queen sought the guidance of the oracle Menalippe, who instructed her to fashion an infant out of clay. Doing as she was instructed on the beaches of **THEMYSCIRA**, the clay was changed by her patron gods (Demeter, Aphrodite, Athena, Artemis, Hestia, and Hermes) into a human infant. As the clay turned to flesh and took in its first breath, the gods blessed the child with an array of special abilities. Overjoyed with the boon granted to her by her patrons, **HIPPOLYTA** named the child Diana and raised her in the ways of the **AMAZONS**.

As she grew to adulthood, Diana was tutored in the arts of rhetoric, combat, religion, philosophy, and in all other forms of knowledge that the **AMAZONS** held in high regard, eventually coming to master each field that she studied.

However, while her mother and fellow sisters were content to remain on **THEMYSCIRA** for the rest of their days, the young princess grew curious about Patriarch's World - the **AMAZON'S** name for the outside world of man. However, simple curiosity turned to alarm as the world was attacked by the **IMPERIUM** and she began to hear the distant telepathic call of J'onn J'onzz, a Martian freedom fighter who sought to organize a resistance against the invasion. Unable to stand by as the innocent suffered, Diana took a costume and weapons from the temple of Athena and left under cover of night to join the resistance, a team of heroes assembled by J'onzz who were powerful enough to be their own pantheon of gods. After the incursion was thwarted and its armies defeated, Diana elected to remain in Patriarch's World as the costumed hero that would eventually become known as **WONDER WOMAN**.

One of the most formidable members of the **JUSTICE LEAGUE**, **WONDER WOMAN** was blessed by the gods with the powers of flight, superior strength, and speed, while her Amazonian heritage provided her with an education in weaponry and a vast array of fighting disciplines. In addition, she possesses her bracelets—enchanted gauntlets that symbolize a time when the Amazons were enslaved by men—which she can use to deflect bullets with her great speed, and an indestructible golden lasso, which was forged by Hephaestus from the golden Girdle of Gaea.

Recently banished from **THEMYSCIRA** for the crime of bringing men onto the island, **WONDER WOMAN** is now a permanent fixture in the world of men, acting as a sort of unofficial ambassador for her people. Now surrounded by men, Diana often finds her Amazonian prejudices confirmed in the thoughts and actions of those she protects. However, she has also discovered that not all men act in the manner that her mentors have taught. In particular, Diana has developed a strong connection to **BATMAN**, as she identifies with his warrior spirit and deeply respects his fierce determination and battle prowess.

ARESIA grew up in an Eastern European country in the middle of a civil war. As a young girl, **ARESIA** and her family escaped the raging war on a transport ship to a new home. In route, the ship was captured and boarded by pirates. As they left, the pirates shot a cannon at the transport, causing it to sink. **ARESIA** was separated from her family and ended up on a piece of wreckage.

She woke up on **THEMYSCIRA**, the mystical home of the **AMAZONS**. Raised as one of them, she was granted speed and strength through magical means and trained to **AMAZON** perfection. Unknown to her new family, **ARESIA** grew to hate the world of men, blaming all men for the death of her parents and her former countrymen. She secretly gained knowledge of sciences that would enable her to get revenge on the world of men.

Developing a biological agent that would kill only men, she gathered together a team of villains to aid her in creating the toxin and spreading it throughout the **EARTH'S** surface. The **JUSTICE LEAGUE**, with the aid of her adopted mother **HIPPOYLTA**, revealed that **ARESIA** was saved by a man when she escaped the sinking transport ship, which ultimately had no effect on her plans. The **LEAGUE** was able to stop her and she apparently died in her attempt.

WEAKNESS: Disturbing, Susceptible (Kryptonite), Vulnerable (Magic)

Using a stolen strand of **SUPERMAN'S** DNA, **LUTHOR** developed his own "**SUPERMAN**", a prototype for a line of super-guardians available to the general public. By dialing 555-LEXX, a person in trouble could have one of **LUTHOR'S** guardians rescue fly to their aid anytime of the day or night - for a price. Unfortunately for **LEX**, it didn't work.

The cloning process was unstable and the **SUPERMAN** clone mutated in form and mind into a grotesque parody of the Man of Steel dubbed a "**BIZZARO**" by a horrified Metropolis. Possessing bits of the original **SUPERMAN'S** memory, **BIZZARO** set about imitating **SUPERMAN'S** heroic actions with disastrous results. Trying to save an old woman from being struck by a bus, **BIZZARO** did not quickly fly the woman to safety as **SUPERMAN** would have done, but punched the bus, sending it and its thirty-odd passengers crashing into the river!

Several more fiascos of this sort led **BIZZARO** into a showdown with the real **SUPERMAN**. **SUPERMAN** won the battle and placated **BIZZARO** by giving him complete jurisdiction of the moon. Now **BIZZARO** patrols the moon much the way Superman patrols METROPOLIS. Still, **BIZZARO** operates on his own warped logic, and he could return at any time to again make life hard on **SUPERMAN**. The fact that he has a crush on Lois Lane doesn't help any, either.

WEAKNESS: Disturbing

Matt Hagen was a well-known movie actor. Badly disfigured in an automobile accident, he was rushed to the GOTHAM burn clinic. At the clinic, Hagen was approached by Roland Daggett, a crooked businessman looking for test subjects for his "miracle product" RenuYou. Daggett promised the product could restore Hagen's features within minutes as compared to the years of plastic surgery he would have to endure. The only problem was that this drug was not FDA approved and highly addictive. In exchange for the product, Daggett forced Hagen to commit crimes. When Hagen finally refused to do any more of Daggett's dirty work, the supply of RenuYou was cut off. Crazy for the drug, Hagen broke into the RenuYou plant, where he was soon captured. Daggett's henchmen poured gallons of the untested toxic chemical down Hagen's throat.

Instead of dying from an overdose, the chemical soaked every cell in Hagen's body, transforming him into a hideous man of clay. An enraged Hagen vowed to destroy Roland Daggett. What Hagen did not realize was that his new cellular structure allowed him to change his shape and appearance. He could form anything he wanted just by thinking it. As a living shapeshifter, he became the evil **CLAYFACE**.

As one of **BATMAN'S** most bizarre and difficult criminals to handle, it takes great measures to apprehend **CLAYFACE**. When initially caught, he was deemed insane and a special suit was designed to hold him in Arkham Asylum.

WEAKNESS: Quirk: Obsessive/Compulsive Behavior about time and scheduling.

Temple Fugate was a mild mannered legal clerk who worked in GOTHAM's District Court office. He served as the right hand man of then Supreme Court Judge Hamilton Hill. Fugate was an odd, lonely man who was obsessed with time and with being punctual. His every waking moment was pre-planned, on a "to do" list broken down into nano-seconds. When urged by his boss Judge Hill to take a coffee break, Fugate initially refused, as he did not want to ruin his schedule. After insistence by Hill, Fugate took the coffee break. Upon returning, Fugate was reprimanded by Hill as he could not find important documents, and Hill abruptly fired him. Fugate's already anal retentive personality swore revenge on Hill, and he became the **CLOCK KING**.

WEAKNESS: Disturbing, Quirk: Obsessed with solving the "Anti-Life Equation"

DARKSEID is the powerful and unquestioned ruler of the planet APOKOLIPS. He is obsessed with finding the solution to the Anti-Life Equation and will stop at nothing to gain it. His attention eventually fell on EARTH (presumably on a search for the solution), where he made contact with criminals Morgan Edge and later **BRUNO MANHIEM** of **INTERGANG**, to do his bidding. This ultimately led him into conflict with **SUPERMAN** on two occasions when he attempted to invade EARTH.

Later, his forces were devastated during an unsuccessful operation against NEW GENESIS. The Kryptonian menace **BRAINIAC** took advantage of the situation to assimilate APOKOLIPS. **DARKSEID** called upon the **JUSTICE LEAGUE** for help, which they provided, but during the conflict the evil despot was left behind on **BRAINIAC'S** ship when it exploded. His final fate is unknown, but it seems unlikely he was killed.

- **JOKER** is PL14 primarily because of his equipment. You can lower his PL by deleted some of them; if needed.

The **JOKER'S** continuing agenda is to humiliate and destroy **BATMAN** and his allies. A former hired hand for the mob, he was viciously funny, cruel and sardonic. The **JOKER** first encountered **BATMAN** during a botched robbery at the Monarch Playing Card Factory. While he escaped by leaping into a drainage vat of chemical waste, the **JOKER** later discovered that the toxins had bleached his skin chalk white, dyed his hair fluorescent green, and stretched his lips into a hideous, permanent grin.

The **JOKER** is rarely alone. He is generally joined by his main squeeze, **HARLEY QUINN**, and his hired muscle Mo, Lar and Cur.

LEXCORP BATTLESUIT [Armor +10; Extra: Energy Blast, Flight; Source: Super-Science; Cost: 3pp]

DESIGN NOTES:

- **LUTHOR'S** Skills were bought using the Errata Option "Reduced Skill Cost" at 1:2.

LEX LUTHOR is the undisputed master of METROPOLIS and lord of all he surveys. Yes, there is a mayor, a governor and a President of the UNITED STATES, but **LUTHOR** is a law unto himself. In his mind there is no good or bad, except what's good and bad for **LEX LUTHOR**. If he wants something, he'll have it, either buying it outright, bribing someone to get it for him or systematically removing all obstacles between him and his goal. In a world where the corporate web weaves through everything in ever-spreading strands, **LEX LUTHOR** is emperor.

Although he started life as a poor kid in poverty-stricken SUICIDE SLUM, young **LUTHOR'S** dangerously brilliant mind was already working to find a way out. When, at age fourteen, his parents were killed in a mysterious auto accident, their sizable insurance policy (which conveniently named **LEX** as sole beneficiary) brought **LEX** his first quarter-million and the chance to be the youngest student to ever enter MIT. The aggressive young inventor amazed all his teachers and graduated three years later with a master's degree in science. The money he soon made from patenting his inventions made him a billionaire by age twenty. Through his late twenties and thirties **LUTHOR'S** pace continued unabated. Anyone who got in his way was crushed and swept away. To keep up a benevolent front, **LUTHOR** donated millions to Metropolis, buying the city hospitals, parks, opera houses and art museums, all named for him. He brought industry and prosperity to METROPOLIS, eventually employing two-thirds of the city's work force among his many companies.

Now in his late forties, **LEX LUTHOR** is generally regarded as a hero. Thanks to his battery of lawyers and "pet" city officials, it would be nearly impossible to connect him to any crime. He's careful to keep his hands clean, delegating the dirty work to subordinates. And yet, there's one thing he craves above all else: the death of Superman. Because he cannot control or own Superman, **LUTHOR** is obsessed with destroying him. To **LEX**, **SUPERMAN** represents free will. Inspired by Superman's selflessness and nobility, the people of METROPOLIS could begin to think for themselves and turn against a self-styled demigod like **LUTHOR**. And above all, what really galls **LUTHOR** is that he had to buy the city's

love and loyalty, and **SUPERMAN** got it for free.

LUTHOR'S fortune changed drastically when the **JUSTICE LEAGUE** was able to prove his criminal connections. Sent to prison, he escaped with the aid of the criminal scientist the **ULTRA-HUMANITE** and organized the first **INJUSTICE LEAGUE**. **LEX** discovered he was dying of cancer from the radiation of a piece of Kryptonite he wore as a ring. **LEX** is now a world-class villain and is obsessed with finding a cure to his cancer; stopping at nothing to that end.

When Arkham Asylum was in dire need of a new Head of Security, Bruce Wayne felt Lyle Bolton, a security expert at *WAYNE ENTERPRISES*, was the perfect man for the job. What Bruce and the doctors at Arkham did not know was that Bolton pushed the boundaries of the law and used unnecessary means to keep his prisoners in line. After an inquiry was ordered to address Bolton's behavior, his he broke out in a violent rage and was subsequently fired. Dr. Victor Fries was one of **GOTHCORP**'s most brilliant scientists and cryogenic researchers; however, he was unable to cure his wife Nora of the disease that was slowly robbing her of her life. His research in cryogenics was eventually cut off by the bureaucrats at **GOTHCORP**, his experiments to create a cryogenic freezing chamber to house his wife until interrupted by **GOTHCORP**'s CEO, Ferris Boyle. A fight ensued, accompanied by an explosion. In the explosion, Dr. Fries was smashed into his cryogenic freezing tanks. The accident soaked Dr. Fries' entire body with the freezing solution and rendered him unable to survive outside of a sub-zero environment. Creating a vacuum tight suit which maintained his body temperature at 50 degrees below zero, he vowed revenge on those who had wronged him. The suit's cybernetic processor also tripled his strength. After building a laser-powered cold gun, **MR. FREEZE** was born.

In this new form Corbin could battle the Man of Steel to a standstill, then finish him off with a blast from his Kryptonite "heart". But once inside the

Driven by hatred over the destruction of his life and madened by his condition, he pursued a life of crime and vengeance by destroying Ferris Boyle and crippling GOTH-CORP. His plans were eventually stopped by **BATMAN**. He is a quiet, but dangerous adversary, who is sentenced to ARKHAM ASYLUM whenever apprehended. A special cell is designed to maintain his need for a frozen environment. He is alone and his only motivation is revenge for wrongs done him. TNBA Bio: **MR. FREEZE** (Dr. Victor Fries) is back, colder and grimmer than ever. His appearance has undergone some drastic changes, due to a mysterious physical condition. Resigned that he will never again be united with his beloved Nora, a new layer of ice has frozen over **FREEZE'S** heart. He's lost that which is most precious to him, and in retaliation he's going to stamp out warmth wherever it glows. A newer, more powerful and chillingly sardonic Mr. Freeze will lose his obsession over his lost wife and instead concentrate on bringing misery to the people of GOTHAM and the man he believes is responsible for his icy condition - **BATMAN**. This time around, **FREEZE** is not alone. He has acquired some chilly female "moles" as his henchmen.

SPECIAL: **MXYZPTLK** can use his Cosmic Power to travel to and from the 5th Dimension at will, except when he says his name backwards in the EARTH Dimension (see Weakness).

WEAKNESS: Miscellaneous: If he speaks his name backwards, he is immediately transported back to the 5th Dimension and can not leave for 6 months.

A mischievous being from another dimension, **MR. MXYZPTLK** possesses powers so advanced they can only be described as magic. He's a prankster, a troublemaker and a genuine threat. He knows **SUPERMAN'S** double identity but would never tell, fearing it would lessen the control he'd have over the Man of Steel. Besides, threatening to reveal **SUPERMAN'S** secret is much more fun than actually doing it. If he wanted to, **MXYZPTLK** could kill **SUPERMAN** outright by simply rearranging the Man of Steel's molecules, but again, where is the fun in that?

In some weird way **MR. MXYZPTLK** considers himself **SUPERMAN'S** "pal", always showing up when least expected to throw a surprise into "the big boy scout's" life. **MXY** thinks **SUPERMAN** actually looks forward to their running duel of wits as much as he does. Boy, is he wrong. When **MXY'S** not out trying to destroy **SUPERMAN**, he goes home to the 5th dimension where he enjoys long walks in the park, rock climbing and snuggling with his main squeeze Gsptlsnz.

Petty thief and get-rich-quick opportunist Rudy Jones was working a janitorial job at S.T.A.R. LABS when he decided to steal some experimental biochemicals and sell them to a S.T.A.R. competitor. Surprised by **SUPERMAN**, Jones fled the robbery scene, accidentally contaminating himself with the chemicals in the process. The chemicals permanently transformed Jones into an energy parasite, one who must regularly drain the life force from another living being in order to survive.

One touch of the **PARASITE's** hands will leave a victim weakened, and prolonged contact can kill them. When he drains his prey, Parasite not only takes on that person's energy, but their knowledge, memories, and any skills or powers they might have. Naturally this makes **PARASITE** a deadly foe for **SUPERMAN**, for he not only weakens the Man of Steel, but can then turn around and fight him with his own stolen powers. In this state the Parasite also becomes temporarily aware that Clark Kent and **SUPERMAN** are one in the same, and so poses a deadly threat to Lois, Jimmy or anyone else close to Clark.

Born with a short, wobbly body and a bird like nose, Oswald Cobblepot's appearance made him an outcast in his rich, debutante family. Their rejection drove him to become a violent

criminal. In keeping with his family's tradition of excess, the **PENGUIN** lived a life of crime and evil, yet executed it with his own self proclaimed high society class and style. He committed crimes with the theme of the various birds he loved. Unlike most of the "Rogues Gallery," the **PENGUIN** was in control of his own actions and perfectly sane, creating a unique relationship with his archenemy, **BATMAN**. The **PENGUIN**'s trademarks were the various deadly umbrellas he used to execute his evil plans.

He later became a "reformed" master criminal, finding the public acceptance he'd always craved after opening a posh nightclub called "The Iceberg Lounge", the hottest new place in town according to GOTHAM'S jaded in-crowd. He has three new beauties running his club for him in his frequent absences: Jay, Raven and Lark. The preening **PENGUIN** enjoys the good life, but he hasn't entirely abandoned his criminal ways. Using the club as a front, the Penguin secretly continues to control GOTHAM CITY'S underworld by bartering in illegal information and stolen goods. **BATMAN** may even find himself in the uncomfortable position of having to go to the **PENGUIN** to bargain for information on a criminal's whereabouts. Who says living well isn't the best revenge?

One of the most tragic figures in **BATMAN**'s life has to be that of Andrea Beaumont. Andrea Beaumont was Bruce's first true love. After a chance meeting, their relationship began to bloom, so much so that Bruce started to doubt himself and "The Plan" he had for his life. Bruce never counted on being happy, and Andrea Beaumont was doing just that, therefore throwing a wrench into Bruce's plan. After consideration, he changed the plan and proposed to her.

Andrea Beaumont was the only daughter of a rich Gothamite business man, Carl Beaumont, who had ties to the mob. When a deal with his mob connections went sour, he was forced to go on the lam, with his daughter in tow. She was forced to break the engagement between her and

Bruce in order to avoid a brutal death. This threw Bruce into despair, and drove him to follow his plan even more, and become the Dark Knight.

Years later, she would return to GOTHAM to "clean up loose ends", but little did **BATMAN** know she returned in the form of the ruthless killing machine, the **PHANTASM**. Her main drive for vengeance was the death of her father and the destruction of her relationship with Bruce. Her quest for vengeance would end in a bloody showdown between herself and the **JOKER**, the man responsible for the death of her father. She was presumed dead, but left GOTHAM to start over, but she can never forget her old life, or her love... Bruce Wayne.

Pamela Lillian Isley was a well-known and highly successful botanist, in the employ of a cosmetics company developing new fragrances. After learning she had a hyperactive immune system that caused her body to reject any infection, poison, or outside contamination, she donned the guise of "**POISON IVY**" and began a career of crime. When she sees then DA Harvey Dent destroy an endangered plant during the ground-breaking ceremony for *STONE GATE PRISON*, he becomes the first object of her evil affections. After almost killing Dent with her poisonous lipstick, she is apprehended by **BATMAN**. This incident with Dent causes a great rift between **IVY** and **TWO FACE**, who has a great animosity toward her. She is known to have an occasional partnership/friendship with **HARLEY QUINN**. She is not liked by the various members of the rogues gallery, but is greatly respected.

Those who spurn or commit acts that harm plant life or the environment become the object of the evil affections of **POISON IVY**. She can be incredibly seductive, her crimes often targeted toward wealthy men. She is known to use poison perfumes and lipstick as well as plant creatures of her own design.

POWERS: Super-Constitution +5 [Extra: Super-Intelligence; Source: Training; Cost: 5pp]

DESIGN NOTES:

- **RA'S AL GHUL'S** Skills were bought using the Errata Option "Reduced Skill Costs" at 1:3.
- **RA'S AL GHUL** must use the Lazarus Pit routinely to maintain his advanced age, but since he has ready access to it (and apparently can reproduce it fairly quickly) it is not truly a weakness.

RA'S AL GHUL is the single most mysterious and cunning of **BATMAN'S** foes. He does not associate with the criminally insane group of the rogues gallery. **RA'S AL GHUL** is a criminal like no other. No one knows exactly when he was born, but he claims to have been alive for over 600 years. His name translated means "The Demon's Head."

Ra's heads a worldwide criminal organization, whose mission is to purify a polluted planet, and restore nature to the dominion abridged by the human race, ultimately creating a better world where he would rule. One of the major organizations he leads is "The Society of Shadows", lead by Count Vertigo. He will use whatever means and force necessary to achieve his twisted vision of a new utopian society. Ra's is always accompanied by his faithful bodyguard, **UBU**. His madness originates in the unique power source which maintains his body's appearance, The Lazarus Pit. It is a substance of unknown elements which replenishes the body, like a fountain of youth. The side affects however are spells of sheer madness. Being addicted to this substance for so long has dried any bit of morals and values for **RA'S AL GHUL**. He views himself as above any preset laws which are governed by mankind. He has many followers, and heads a cult like organization filled with men who will do his bidding. He is extremely dangerous and cunning.

His interest in **BATMAN** arose when he felt the Lazarus Pits affect was dwindling. Ra's feels he needs a male to be his successor. Since his only offspring is his daughter **TALIA**,

he has to choose a male to marry her that is worthy of becoming ruler of his vast empire. Ra's proves his resourcefulness to **BATMAN** by meeting the "Detective" as he calls him, in his own Batcave confirming that he knows his secret. Upon implementing many tests to prove whether **BATMAN** was worthy of becoming his successor, Ra's knew immediately he had found the one. But **BATMAN** refused numerous times, and thus Ra's believes that since he will not be with him, they must be against each other, as enemies. He is highly sophisticated and can be quite hypnotic. Ra's has returned many times after **BATMAN** thinks his foe had perished.

Edward Nygma was a computer and electronics genius who had been fascinated with puzzles and riddles since childhood. Extremely intelligent and a bit odd, Nygma's obsessions and love for committing crimes led him to don the guise of the **RIDDLER**. Edward's transformation allows him to lose all sense of reality. He needs to be the **RIDDLER** to truly express the real Edward Nygma, in turn completely separating himself from any normalcy he once had. The **RIDDLER** uses a vast array of computer and electronic gizmos in his arsenal, but is best known for the lethal use of his "Question Mark" cane. It is his trademark. When his plans are ultimately foiled by **BATMAN**, the **RIDDLER'S** hatred turns to an obsession to outwit and ultimately destroy **BATMAN**. His hatred is fueled by the surprising intellect **BATMAN** possesses, which leads to his solving of Edward's riddles. His twisted mind is only concerned with creating the ultimate riddle-related crime, which **BATMAN** can never solve.

DESIGN NOTES:

- **SCARECROW** is 5 points over PL10.

Jonathan Crane became interested in the study of human fears and phobias from childhood. Nicknamed the "**SCARECROW**" as a teenager, Crane was bullied and chastised for his scrawny appearance. The boys would call him Ichabod Crane, for his resemblance to the fictional character. Crane loved the character, except when he came upon the part where Ichabod is disgraced by his nemesis. He was outraged by the fear that overwhelmed Ichabod and swore to never expose his fears to a bully.

Crane was a Professor of Psychology at Gotham State University until his experiments in fear became too dangerous. He lost his job due to his obsession with inspiring terror in his patients and students. Crane turned to a life of evil and used various drugs, chemicals, devices, and his expertise in psychology to terrify whoever crossed his path. He took the name "**SCARECROW**" which the bullies gave him as a boy, and would use it to become one of the most feared criminals in GOTHAM.

The Scarecrow has been known to pollute GOTHAM's water supply with his fear toxins, infect professional athletes with his chemicals, then bet against their teams for the money to fund his evil experiments. He even had one of his henchmen spray **BATMAN** with his toxin, in the hope of driving him mad with fear. A sick and twisted man, his ultimate goal of crippling Gotham State University was foiled by **BATMAN**. He was sentenced to Arkham Asylum where he became even more dangerous by gaining criminal contacts with the likes of the **MAD HATTER**, who shares a sick interest in various types of mind control. These contacts would aid him in his quest to bring GOTHAM to it's knees with fear.

WEAKNESS: Disturbing

SOLOMON GRUNDY was once Cyrus Gold, a one time hood who was betrayed by his partners and murdered. They dumped his body in a swamp rumored to have mystical properties; decades later, for reasons unknown, Gold was raised again as a zombie. Still retaining some of his former life's virtues, he had a great desire for money. As such, he was recruited into both **ARESIA'S** and **LEX LUTHOR'S** Injustice Gangs. He would later team up with **AQUAMAN** and **DOCTOR FATE** to battle the demonic creature Ichthultu, on the promise that **FATE** could restore his soul. During the ensuing battle, however, he was killed by the creature, effectively dying a hero. Being a zombie, though, we may not have seen the last of him.

Daughter of **RA'S AL GHUL**, it can be truly said that **TALIA** is as mysterious as her father. **TALIA** has devoted her life to aiding her father's crusade to purify the planet. She finds herself completely in love with **BATMAN**, and unlike **BATMAN'S** other admirers, she cares for both him and Bruce Wayne. This poses a great dilemma to **TALIA**, as Batman defies everything **RA'S AL GHUL** stands for, and has sworn to fight his global terrorism. Part of **TALIA'S** lack of loyalty toward her father can be attributed to the fact that he admittedly does not treat her with the same respect that he would if he had a son. To **RA'S AL GHUL** only a son is worthy of succeeding him and leading his organization. With all that aside **TALIA** still finds herself drawn to her father, and many times has betrayed her beloved **BATMAN** in order to aid her father.

Hiding behind an unchanging doll's mask, Winslow Schott, a.k.a. the **TOYMAN**, is one of the deadliest assassins in the world. Charging a million dollars a hit, **TOYMAN** employs an arsenal of innocent-looking but deadly toys to take out his victims. Acid-squirting water guns, radio-controlled grenade cars and Derringer-toting Jack-in-the Boxes have all been used by this sicko at one time or another to eliminate his prey.

Originally the son of a gentle old toymaker, young Winslow led a happy life in his father's old-fashioned toy shop. But the shop was funded by Bruno "Ugly" Mannheim, who used it, against the old toymaker's protests, as a front for his numbers ring. When the shop was busted, Mannheim skipped out, leaving old Mr. Schott to take the rap. Sentenced to prison, the old man died in jail as young Winslow was bounced from foster home to foster home, "the little broken toy nobody loved." This turned Winslow cold and hateful. Adopting the identity of **TOYMAN**, the villain now seeks justice for his unhappy childhood by bringing misery to innocent people with his deadly toys.

WEAKNESS: Disturbing; Quirk (Split Personality): Although the TWO-FACE personae is in control, the HARVEY DENT personae will occasionally try to re-assert itself.

Once GOTHAM CITY'S distinguished District Attorney, Harvey Dent was known as a true guardian of law and order. On the cusp of apprehending mob boss Rupert Thorne, Thorne learned of Dent's other side and knew if it was exploited it could ruin Dent's career. When a fight ensued between Dent and Thorne's men, a freak explosion destroyed the left side of Dent's body. The trauma was powerful enough to force his alternate personality to dominate, and left Harvey in a state where right and wrong no longer held any meaning. He became **TWO FACE**.

Dent feels as though this is the way he was meant to be, living in a world of chaos, without the order and justice he once upheld and believed in. His world revolves around chance; more importantly, the flip of his coin. It is no ordinary coin as it is double sided, clean on one side, and covered by scars on the other. Every decision **TWO FACE** makes falls on the flip of his coin. It is judge, jury and executioner. When the "Good Head" turns up, Harvey is in control. When it's "Bad Head" surfaces, however, **TWO FACE** shines and becomes more dominant than Harvey can ever be. Yet there always seems to be a piece of Harvey which is strong enough to linger within the mind of **TWO FACE** when he is committing his ungodly acts.

KRYPTONIANS

Once a beautiful, peaceful and advanced world that orbited a red sun, KRYPTON was destined to be destroyed when its orbit was changed. The scientist **JOR-EL** foresaw this event and sent his infant son to EARTH. Of course that son would grow to become the Man of Steel, **SUPERMAN**. A number of Kryptonian criminals were sent to a parallel dimension called the **PHANTOM ZONE** as punishment for their crimes. Some have escaped and caused **SUPERMAN** much grief.

**NEW GENESIS**

Long ago the old gods met their end during a war that resulted in the destruction of their world. From this event was created two planets: **Apokolips** and **NEW GENESIS**. **NEW GENESIS** developed into a beautiful and peaceful world ruled by the wise **HIGHFATHER**. When **DARKSIED** attempted to invade the planet, his forces left behind a form of "Micro-Life" that would develop into the **BUGS**.

Bullock is a long time detective on the GOTHAM Police Force. Fat, unshaven, poorly dressed, and always chewing on an old toothpick, Bullock is hardly the poster boy for a good cop. He's always thought to be on the take because of his questionable methods, yet Bullock is one of GOTHAM's finest. He enforces the law his own way, often being pulled off cases or suspended for his actions. Bullock has his own methods and style, but he stands by and believes in the law. Often accusing **BATMAN** of working on the wrong side of the law, Bullock has been against the idea of **BATMAN** since he first appeared in GOTHAM. Strangely enough, there have been occasions when Bullock and **BATMAN** have worked together, and even times when Bullock has called upon **BATMAN** personally for assistance. Bullock is certainly one of the most interesting characters in GOTHAM CITY.

Glamorous Angela Chen is star gossip columnist for the *DAILY PLANET*. If something exciting, shocking or scandalous is happening among METROPOLIS elite, you can be sure Angela will have all the dirt in the morning edition. In addition to her duties at the Planet, Angela also serves as on-camera hostess of *METROPOLIS TODAY*, a somewhat sensationalistic infotainment TV show produced by *PLANET NEWS BROADCASTING*. Angela is Chinese-American, stunningly beautiful (in a Hollywood kind of way) and will certainly use her looks and charm when pursuing a story. This doesn't exactly endear Angela to **LOIS LANE**, who always relies on sweat to get a tough job done. (Needless to say, the two have a healthy rivalry going.) Of all Perry's reporters, Angela is the one he has to watch the most, for Angela is much more likely to "stretch" the truth in order to come up with a sensational story. Whether it is true or not is beside the point, at least in Angela's mind.

BATMAN confides in and trusts James Gordon. The GOTHAM PD is crawling with crooked men with badges. He is an honored police officer and father of Barbara Gordon. Gordon, by remaining an honest cop among mass police corruption, rose through the ranks to Lieutenant and ultimately to Commissioner. **BATMAN** and James Gordon share a special friendship, even though Gordon does not know who the man is under the mask. Their secret meeting places to discuss strategies and criminals, have become a mainstay in their relationship. Although today the **BATMAN** is embraced by GOTHAM CITY, Gordon is still chastised for relying on the Dark Knight too much over those who have the legal authority in GOTHAM. Jim Gordon wouldn't have it any other way.

A tough young woman with a checkered past, **MERCY GRAVES** serves as **LEX LUTHOR'S** personal body guard and chauffeur. Originally the leader of a gang of girl thieves, Mercy once daringly swiped **LUTHOR'S** briefcase from under the billionaire's nose. Naturally she didn't get far before **LUTHOR'S** men hunted her down, but rather than take revenge, **LUTHOR** offered Mercy a job. He was impressed with her mixture of ruthlessness and street savvy so he took her in, cleaned her up, and made her his right-hand girl.

Though she usually relies on her cool and sardonic wit as her first form of defense, Mercy can be very physical and is an absolute demon in a fight. She uses a rough, street-form of kickboxing as her preferred form of attack, and can take anyone this side of Superman in one-on-one combat. She's also an expert with most forms of handheld weapons and has no problem with using them when she has to.

Mercy is loyal and respectful to **LUTHOR**, but never servile. She's not particularly attracted to him and neither is he to her. They recognize each other as similar animals who complement each other and work together as a highly effective team. Also, Mercy is the only one in **LUTHOR'S** entire company who can get away with calling him "Lex".

The brilliant Professor Hamilton is general director of *S.T.A.R. LABS*. A Nobel prize winner many times over, Hamilton has developed much of the ultra-technology that makes METROPOLIS a true city of the future. He's a close friend of **SUPERMAN'S** and has created the special supersuits the Man Of Steel uses on missions in outer space or under the sea. Hamilton has virtually no life outside of his lab. He lives and breathes science and his dialogue is peppered with techno-jargon. In fact, when explaining how a new invention works, Hamilton will use so many obscure technical terms that people often wind up asking him for an English translation. Truth be told, Hamilton's much more comfortable around computers and machines than he is around people.

FEATS: Attractive, Connected, Dodge

LOIS LANE is the *DAILY PLANET'S* star reporter. She's a savvy, stubborn, sly newswoman who doesn't suffer fools gladly. She's also a knockout, but you'd do well to resist telling her that. Lois wants to be appreciated solely for her brains and hard work. As a reporter, she's a complete pro, never biasing her stories or slinging mud. Though she takes big (some might even say outrageous) risks while getting a story, they're always calculated. She does not blunder stupidly into dangerous situations; she's well aware of the hazards before she goes in. Owing to his super powers, Clark will often spot danger that no one else can see and caution her to watch herself. She takes his warnings as an attempt to sabotage her and get the story for himself. She has a like/hate relationship with Clark, always referring to him as "Kent", unless she wants something out of him, and only then does she call him "Clark". Deep inside she does have a bit of affection for him, but their rivalry has her keeping him at arm's length. And, even if they weren't rivals, she'd still find him a stiff, by-the-book kinda guy. Lois has sources all over **METROPOLIS**, from high society industrialists to the lovable **HOBB'S BAY** fisherman Bibbo.

Opinionated and quick with a quip among the mostly male members of the *PLANET* reporting staff, Lois can talk rings around most men, her boss **PERRY WHITE** included. There's only one man who leaves her at a loss for words: **SUPERMAN**, and she could kick herself for it. A million available men in **METROPOLIS** and she falls for an alien.

But then, Lois has always had an attraction for danger. She always takes the toughest assignment and would gladly infiltrate an arch-villain's lair if it meant getting a scoop. Her affinity for danger extends into her personal life as well. Lois has always liked edgy, mysterious men who played by their own rules. She even dated **LEX LUTHOR** for a while. But as soon as she learned **LEX** wanted her to write some pro-*LEX CORP* pieces for the *PLANET*, she dropped him faster than **SUPERMAN** would drop a hunk of Kryptonite.

Being a reporter, Lois can't but help but be a little suspicious of **SUPERMAN**. Is he for real? Where did he come from? Is he really as good as he seems? What does he really want here on **EARTH**? There are a thousand questions she wants to ask him and if she ever got that interview, her Pulitzer prize would be assured. Although Lois will initially take a skeptical, even cynical attitude toward **SUPER-**

MAN, the more she'll see him risking his life to help others, the more she'll be convinced that he is "for real". She can't help but feel attracted to him. She's always believed that no one ever gives anything away for free, but **SUPERMAN'S** selflessness is gradually changing her mind.

A free-spirited young woman from SMALLVILLE, **LANA LANG** was young Clark Kent's first love. They were boyfriend and girlfriend through high school, but when Clark's superpowers emerged, he embarked on a self-imposed world pilgrimage to learn more about the human race. He left behind a very hurt Lana who already knew that her Clark was vastly different from all the other boys on the planet. In fact, when the first reports of **SUPERMAN** started coming in, Lana knew immediately that Clark and the Man of Steel were one in the same. These days, Lana is a world-renowned fashion designer who leads a jet-setting lifestyle. She has an apartment in METROPOLIS, but also maintains homes in GOTHAM, LONDON and ROME. She seems to be the woman who has it all, but deep down she still misses Clark and the special times they shared before he became **SUPERMAN**. And yet Lana knows the world needs **SUPERMAN**, and has promised to keep his secret. Her playful and flashy exterior masks her unrequited love for Clark.

Originally made up of scattered elements from various METROPOLIS street gangs, INTERGANG was forged into a corporation by GALAXY COMMUNICATIONS CEO Morgan Edge. Working with one-time racketeer **BRUNO "UGLY" MANNHEIM**, they pulled the gangs together and outfitted the best soldiers with high-tech weaponry the likes of which had not been seen on this planet. A poor kid from SUICIDE SLUMS, **JIMMY OLSEN** quickly learned the rules of the street in order to survive. He grew up fast on his feet, smart with his tongue and if need be, hard with his fists. Working as a photographer for the DAILY PLANET has been Jimmy's dream, and even though he's just freelance now, he's after **PERRY WHITE** to hire him on full-time. Even so, that doesn't stop Jimmy from acting like he's already a core member of the staff. When Perry calls Clark and Lois into his office for a secret briefing, it's not uncommon for Jimmy to tag along, nodding his head intently with everything said until Perry notices Jimmy's there and tosses him out. It's not that Jimmy's a troublemaker; he's simply one of those confident, unflappable kids who has no idea that he frequently oversteps his boundaries. Jimmy's also a techno-geek and an expert with computers, modems, and of course, cameras. Once, when he found himself stalked by gunmen after sneaking onto a terrorist base, Jimmy figured out how to rewire a phone modem to broadcast a distress signal. **SUPERMAN** chewed Jimmy out for getting into trouble, but allowed him to modify his signal device into the wristwatch Jimmy currently wears. **SUPERMAN** will always come if Jimmy needs him, but has also warned Jimmy to use the signal only if it's an emergency.

When he's not hanging at the PLANET, Jimmy lives with his mother Sarah in a modest METROPOLIS apartment. He doesn't spend much time there, preferring to be out following up some news lead like his heroes, Clark Kent and **LOIS LANE**. Nothing stops Jimmy once he puts his mind to it; he's impetuous and sometimes foolhardy when it comes to getting that big photo scoop.

As always, **ALFRED PENNYWORTH** remains **BATMAN'S** trusted ally and confidant. **BATGIRL**, **ROBIN** and **NIGHTWING** rely on Alfred too, as both the friendly voice of reason and the man who keeps them supplied with costumes, high-tech gear and the occasional sandwich after a long night's work. Alfred also maintains the care and upkeep of both **WAYNE MANOR** and the **BATCAVE**, which includes the newly constructed trophy gallery. Here are displayed intriguing souvenirs from **BATMAN'S** toughest cases: a collection of the **PENGUIN'S** deadly umbrellas, a preserved **JOKER** laughing fish, one of **HARLEY QUINN'S** popguns, a bullet-riddled **SCARFACE** dummy, **BANE'S** mask and Venom tank, **BABY DOLL'S** gun-doll, **MAD HATTER'S** top hat, Maxie Zues's lightning weapon and many other mementoes.

As head of the S.C.U., Inspector Maggie Sawyer is one of the toughest cops on the Metropolis Police Force. Not content to simply shout orders from the sidelines, Maggie is often in the thick of the action, taking on all comers. Her team stands behind her 100%, and she has earned the friendship and loyalty of Superman many times over.

FEATS: Attack Focus (Firearms), Leadership

Turpin is as tough as they come, an old-style cop who believes in giving it to the bad guys as nasty as they dish it out. Turpin is also the S.C.U.'s resident weapons expert, equally at home with the latest electron blaster as he is with his trusty old .44.

Turpin likes and respects **SUPERMAN**, but is not one to rest on his rear while waiting for the guy in blue to save the day. Given a choice, Turpin would rather be in the thick of action, slugging it out himself.

Turpin gave his life defending METROPOLIS from **DARKSEID** and his minions. Turpin is now considered a legend and a hero among the people of METROPOLIS and around the world as well.

Still, he harbors much jealousy towards **BATMAN**.

FEATS: Connected, Iron Will

Though he now sits behind the *DAILY PLANET*'s editor's desk, **PERRY WHITE** was one of the *PLANET*'s all-time great reporters. Now, as managing editor, Perry is the heart and soul of the publication, which serves as the city's eyes, ears, voice and conscience. Like a number of media moguls, Perry is opinionated, explosive, and a bit nuts. His outbursts of temper are legendary, but they get the needed results. Perry's a no-nonsense, hard-hitting individual who not only scoops the competition, but does it in a way that earns the respect of everyone - except the criminal element.

Perry has made a career out of bringing down the biggest crooks in METROPOLIS, but he's no muckraker. He insists on having the hard, cold facts before he prints a story, a trait he demands of all his reporters. In his heart, Perry knows **LEX LUTHOR** is the mastermind responsible for thousands of crimes around town, but so far the *PLANET*'s been unable to come up with hard evidence. **LEX** has always kept his fingers clean of any overt wrongdoing and keeps his puppet tabloid (and the *PLANET*'s chief competition) the *METROPOLIS SUN* at the ready to play up **LEX'S** benevolent public image.

Despite his tough exterior, Perry is more a paternal figure to his staff than a boss. He has a special fondness for Clark and Lois and feels they'd be as good a team personally as they are professionally. He also likes **JIMMY OLSEN** more than he'll ever admit, even though he does get tired of the little punk calling him "Chief" all the time.

The landmark *DAILY PLANET* building also houses PLANET NEWS BROADCASTING, a round the clock news channel. The *PLANET* TV station and the *PLANET* newspaper frequently trade information and on-air talent.
