

An
Assassin's Amulet
Product Supplement:
A4 Maps

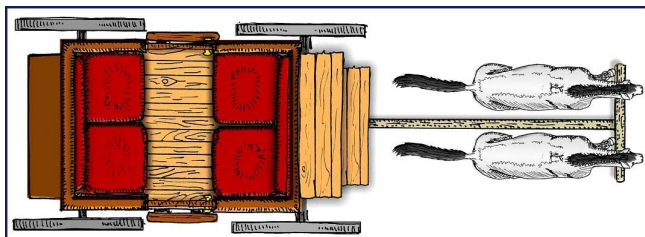

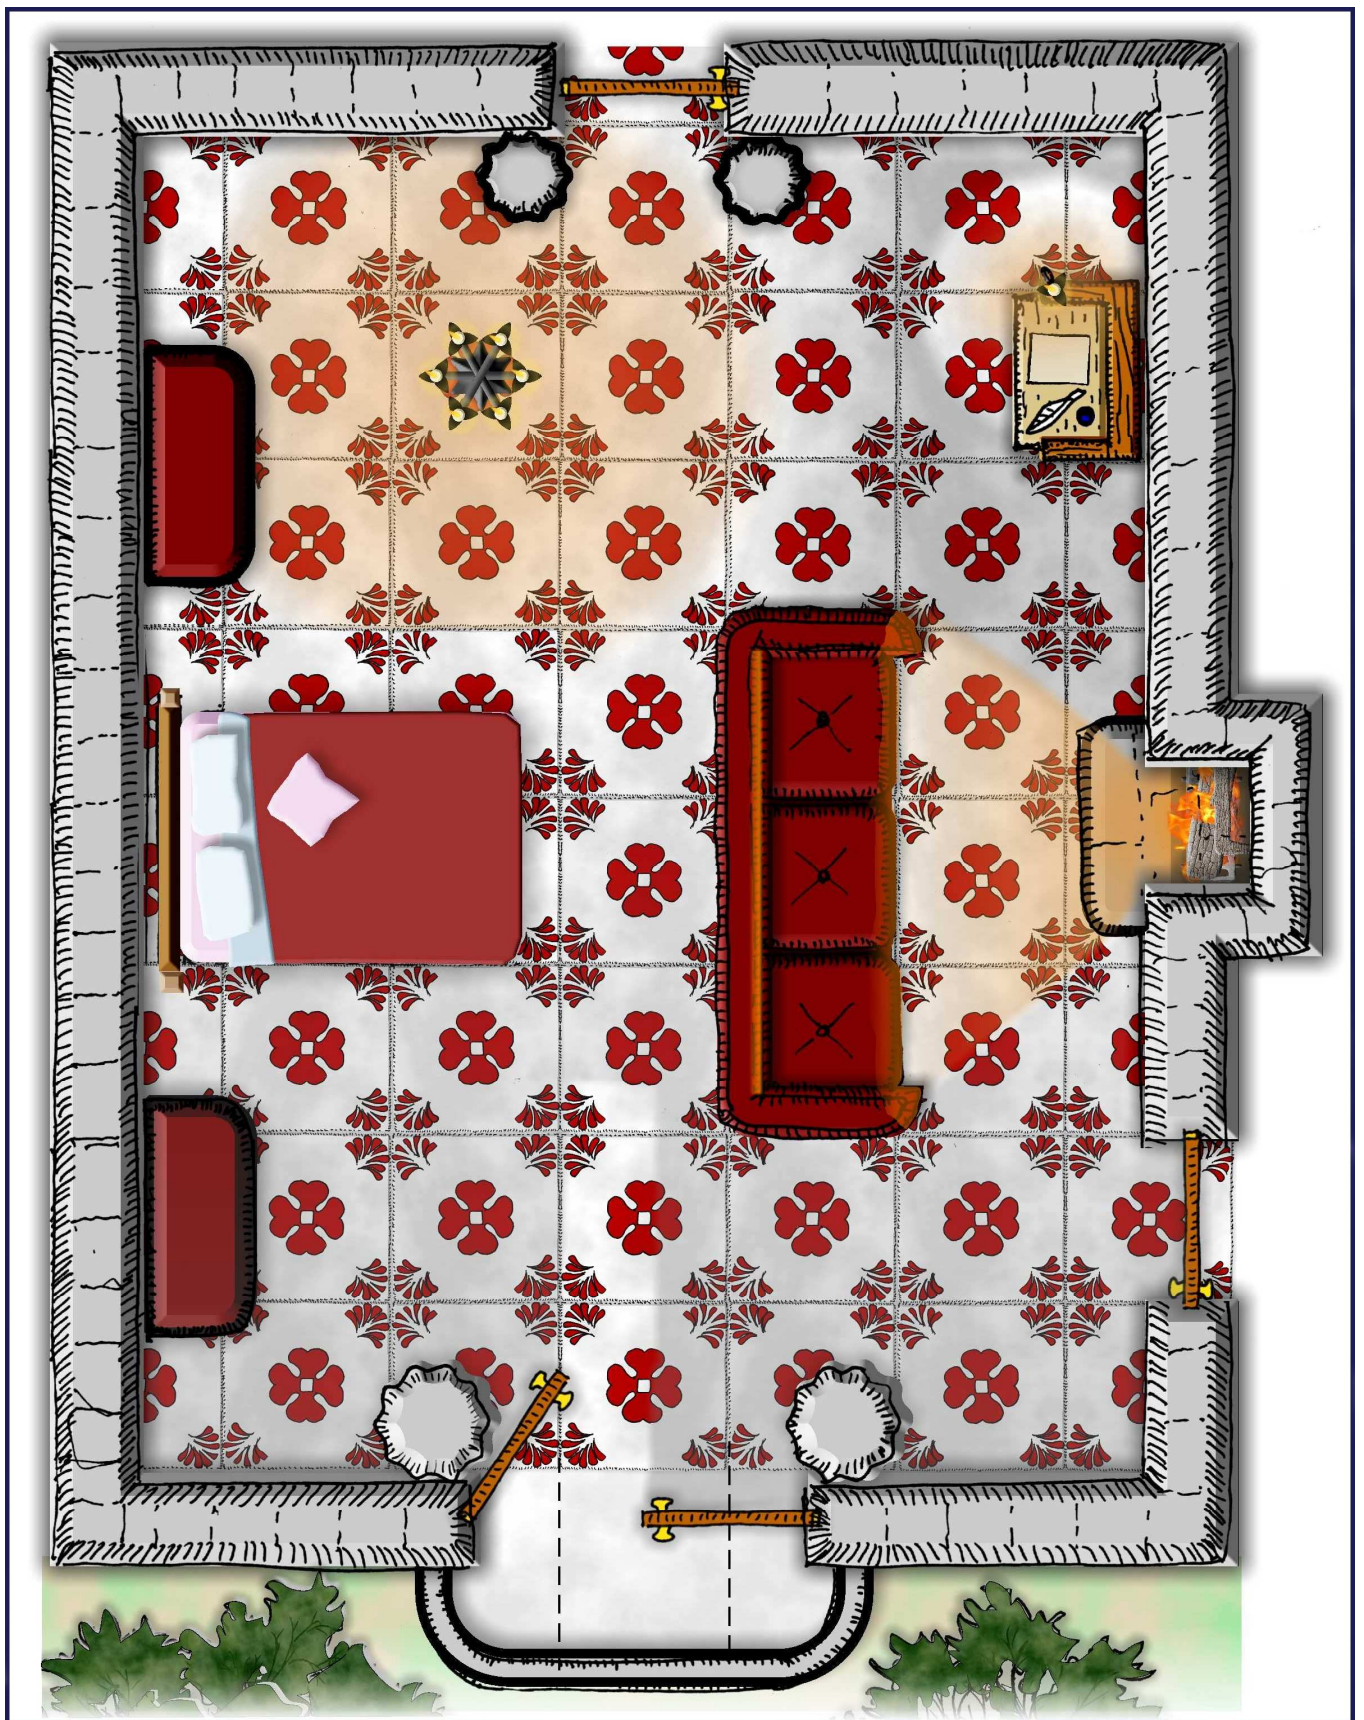

A Product Supplement for the Metric amongst us

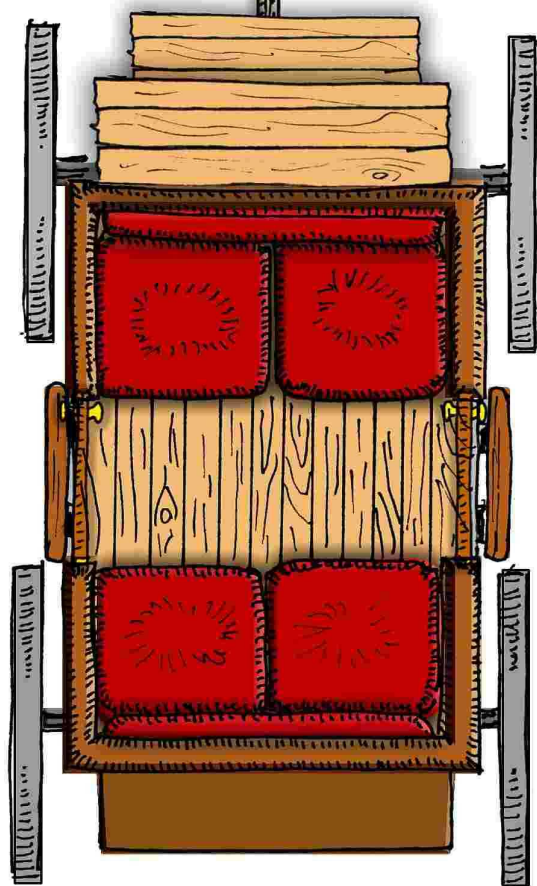

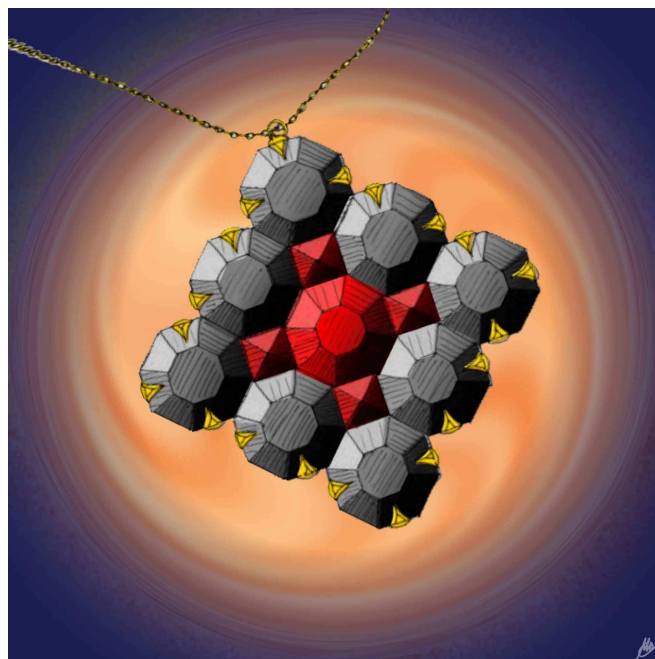

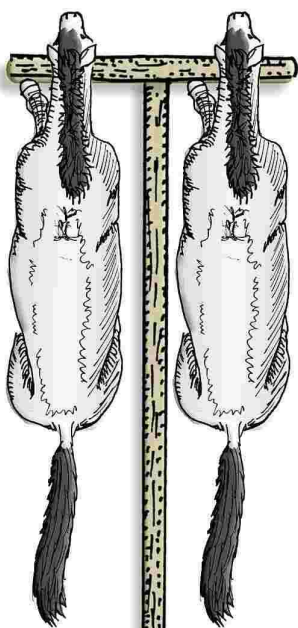

We recognize that many of our customers live in parts of the world where Metric page sizes are the norm. Most of the time, that makes no difference – our PDF software will automatically resize pages to fit the printable area of our printers. When it comes to maps, it's a different story – resize those and they will no longer be scaled correctly.

It doesn't seem fair to our customers that they buy a product that won't work properly, so for the benefit of those who print using A4, we have extracted the various maps from Assassin's Amulet and repackaged them to fit an 21x29.7 cm page. The resulting maps are provided on the following pages.

- Mike, Michael, and Johnn

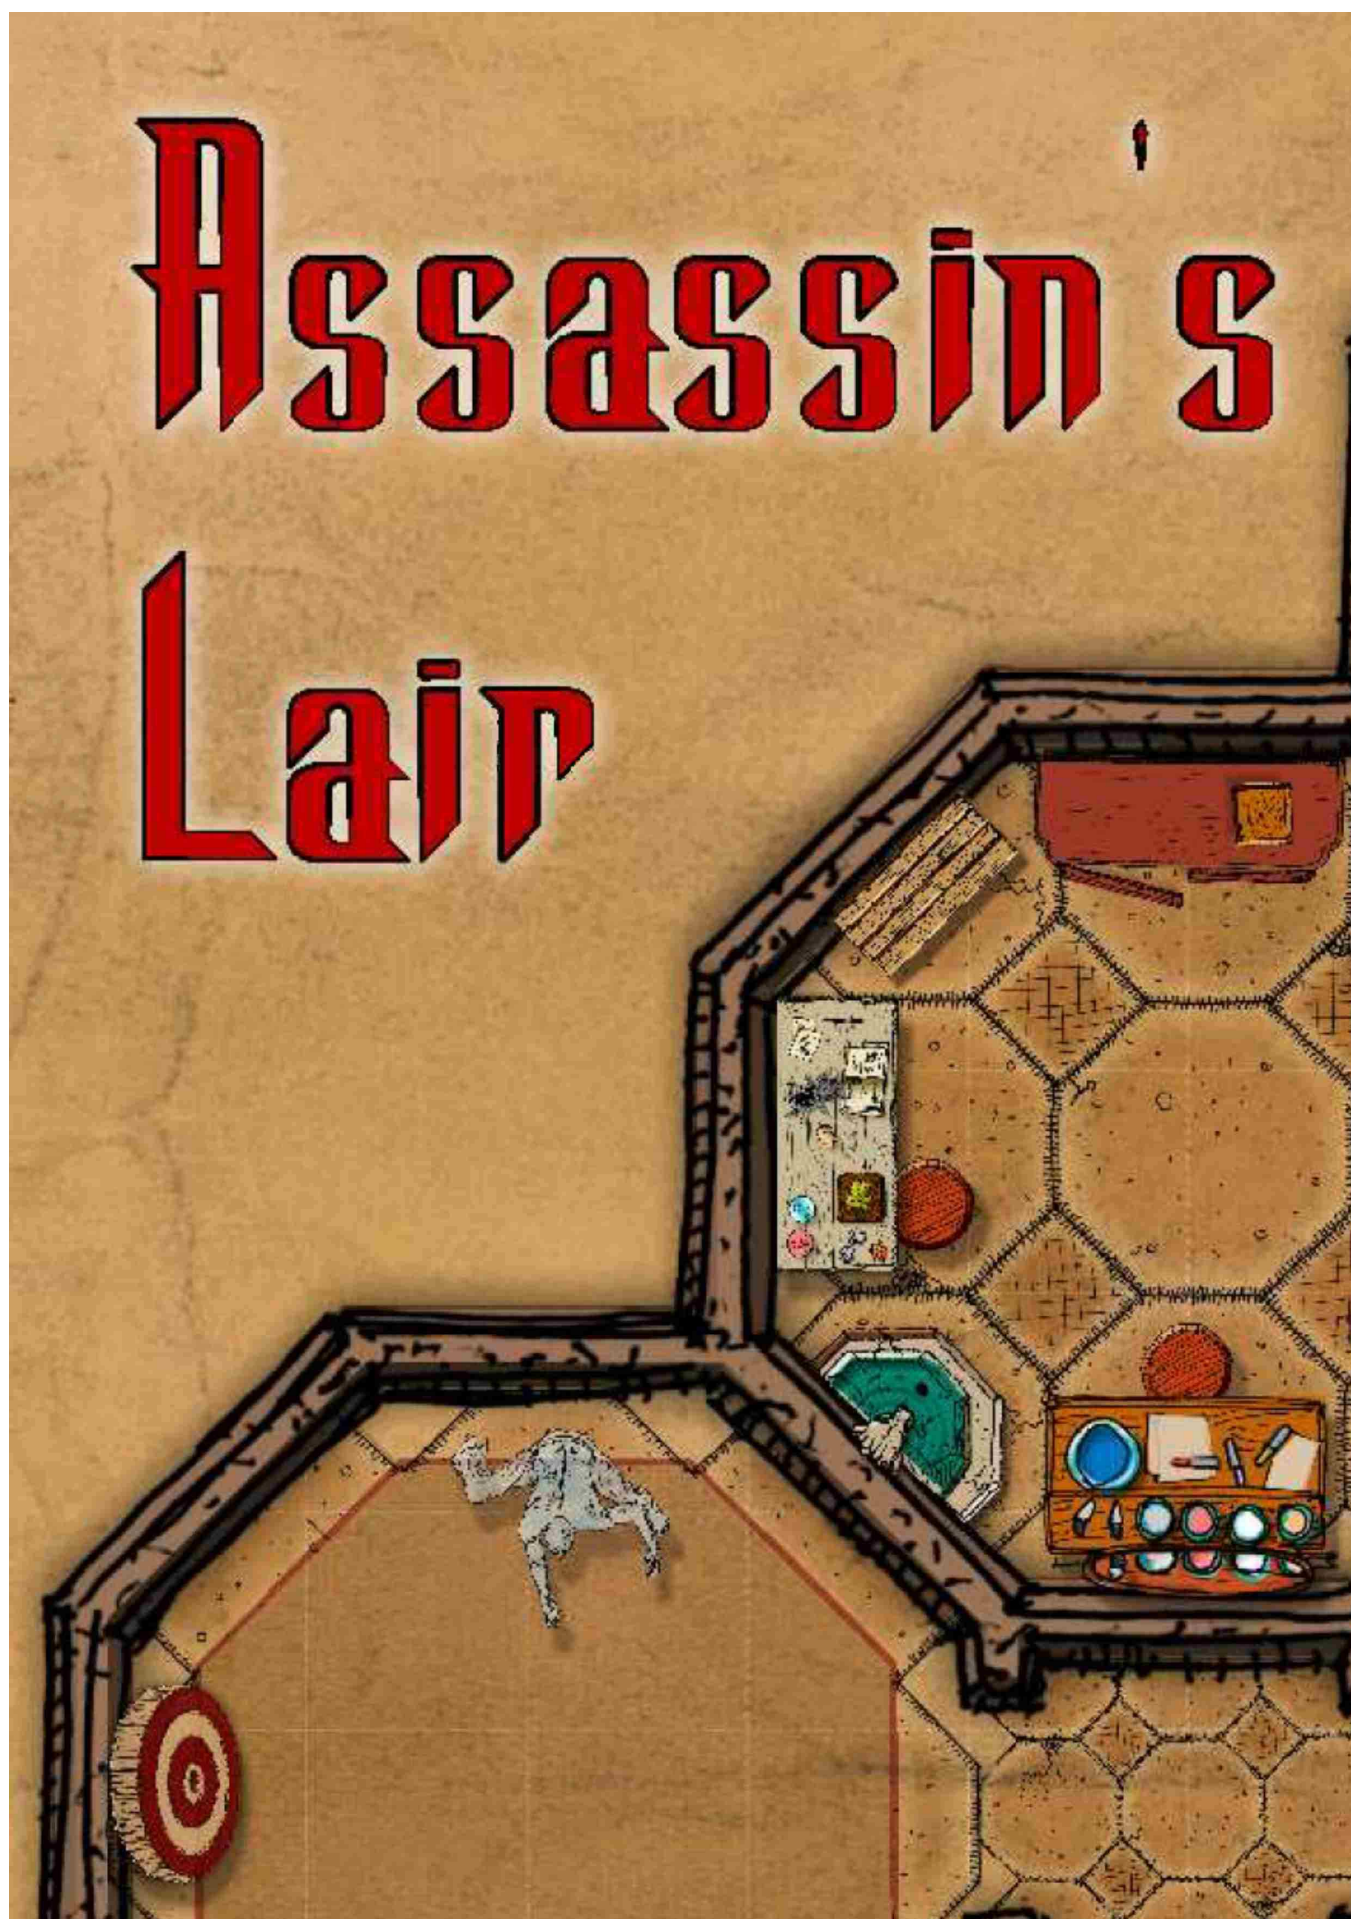

Assassin's

Lair
