

A Pledge of Support for the Good Folk of the Moonsea

It is with much deliberation that the Harpers of the Moonsea Region have decided to break convention. No longer are we willing to fight Evil from the shadows, hiding our allegiances or motives. Thay enslaves its populace, kills the innocent, and promotes magics better left to perish. Long have We Who Harp opposed Thay, but from the shadows, believing complete subtlety was the best path to peace and well-being for all peoples. Events of late, and the distrust of the common people we seek to defend, have shown us the need to forge a new path.

If our allies the Green Folk are willing to stand openly against Evil, even if we are the only ones counted alongside them, the Harpers will openly declare with them. Our attacks may come from the shadows, but our hearts and intentions will remain there no longer. We Harpers stand with the Enclave, as well as the common peoples of the Moonsea who yearn only to live free and well, and who face a fate most dire from the Red Wizards who Rule Thay.
