

Movement

Speed	yards per minute	feet per round
Semiconscious movement		half movement
Combat	twice movement	movement
Explore	4 times movement	twice movement
Dash	6 times movement	3 times movement
Walk	10 times movement	5 times movement
Jog	20 times movement	10 times movement
Run	30 times movement	15 times movement
Sprint	50 times movement	25 times movement

When attacking, a character may only use combat movement. When in combat, a character may only use combat movement or dash.

Chases are agility contests. The faster contestant is at +1 for every three points their movement is faster.

Walking speed is approximately one-third movement in miles per hour. Characters can walk twice their movement in miles per day under perfect circumstances.

time base	save attack
endurance rounds	-
endurance minutes	0
endurance times 10 minutes	0
endurance minutes	-1
endurance times 30 minutes	-3
endurance times 5 minutes	-8
endurance minutes	-13
endurance rounds	-23

A character can jump as high or as far as half their height. Jumping further requires an agility roll with strength as a major contributor and a penalty of the extra feet (for a long jump) or twice the extra feet (high jump). A character can make a running long jump as far as their height, and the penalty for jumping further is per yard. They must run for three times the distance they wish to jump.

Ability Modifiers Difficulties

Ability	Major	Minor	Incredibly Easy	
3	-3	-2	A Snap	+16
4-5	-2	-1	Very Easy	+8
6-8	-1	0	Easy	+4
9-11	0	0	Difficult	+2
12-14	+1	0	Very Difficult	0
15-16	+2	+1	Extremely Difficult	-2
17	+3	+2	Nearly Impossible	-4
18	+4	+2	Practically Impossible	-8
				-16

Careful attempts are at +1, and extra careful attempts at +2. Carefulness increases time spent from a round to a minute, to ten minutes, to an hour, to a day.

Group Effort

Group effort bonuses apply to ability rolls, attacks, defense, number of actions, and combat movement, and penalize decision times. If group members have varied scores, use the median score.

Survival potential is the median plus the bonus times the median. Survival loss is divided among all combatants. On a failed Evasion roll (defense is a bonus), the character takes up to the amount the Evasion was failed by as injuries instead.

Count:	2	4	8	16	32	64	128	256	512	1024
Bonus:	1	2	3	4	5	6	7	8	16	32

Item Saving Rolls

Material	Fire	Bludgeon	Acid	Bonus
Glass	+8	0	+16	quarter inch
Ice	0	0	+8	half inch
Metal	+6	+5	0	quarter inch
Paper	-2	+6	+8	half inch
Stone	+8	0	+10	inch
Wood	0	+3	+5	inch

Item saving rolls are a fortitude roll against four. If failed, the item is damaged as normal. Beyond the bonus thickness, they gain a bonus of one; for each doubling, another bonus is gained. Items have survival points equal to their weight in pounds.

November 16, 2008

Conflict

Attack rolls are against an 11 or less.

Surprise: Awareness grants a bonus of 4; sleeping is a penalty of 6. Surprise means a penalty of 2 to defense and 6 to attack in the first round, half that thereafter. A willpower or fortitude roll is required to become unsurprised.

Unconsciousness: Targets who gain injuries must make a Fortitude roll or fall unconscious at the end of the round. Injury point penalty applies.

Death: Targets who gain injuries that exceed current survival contest their injuries with their Endurance. Injury point penalty applies. Warriors gain a bonus of level. Unconscious characters gain a bonus of two. Death occurs after Endurance minus injuries minutes or (if unconscious) hours.

Called Shot: A character may take a -3 attack and focus the attack on a specific location. Effects will vary.

Cover: Warriors gain +1 defense for weak cover, +2 for strong, and +3 for full. Non-warriors gain +0, +1, and +2.

Covered: If the target is “covered”, the attacker gains a free attack at +4 attack and +1 damage. If the target attacks first, the attacker must make a perception roll for the attack to be free.

Defensive Action: A combatant may forego any attack and gain a +2 defense.

Firing into close combat: Two to four combatants count as strong cover. Five or more count as full cover. If the target is hit, any of the target’s adjacent attackers who the roll would also have hit must make an Evasion roll or take the same damage. If the attack misses, one random adjacent opponent must make an Evasion roll with defense as a bonus or be hit.

High Ground: +1 to either attack or defense.

Immobilized Target: Attacking an immobilized target is at +10 attack. Agility does not apply to defense.

Non-defending opponent: Attacking a non-defending or unaware opponent is at +4 attack.

Quickdraw: A character can attempt to draw and use an available weapon in the same round. An Evasion roll is required. If unsuccessful, the character acts as surprised, which must be thrown off as normal.

Smaller size: Smaller defenders who choose not to attack gain a +1 defense per size difference. If the smaller defender attacks, the bonus is halved.

Knockout: Called shot to the head against an unaware, surprised, or immobilized target required. Target allowed evasion roll, with a bonus according to

headgear. If successful, no damage. If unsuccessful, one point of the damage adds to the target’s injuries. Warriors may allot two combat points to do up to two injury points.

Immobilization: For a -2 defense, an attacker may try to immobilize a target. A called shot is required. An evasion roll is allowed at +2 for each size difference the target is larger than the attacker. Once partially held, the combatants are in a fortitude contest, with the larger of the two gaining a bonus of 4 for each size difference. If the target succeeds, the hold is broken; if the attacker succeeds, the target is immobilized and further fortitude rolls at -3 are required to break the hold. While partially held neither combatant may attack.

Unseen targets: Attacks against unseen targets, if the attacker is basically aware of the target’s location, are at a penalty of 3 in close combat, 6 in ranged combat.

Covered, immobile, & non-defending do not combine.

Obstacle Size

Size:	2	4	8	16	32	64	128	256	512	1024
	-1	-2	-3	-4	-5	-6	-7	-8	-9	-10
Distances will often be based on 10-foot sizes.										

Falling Damage

Height	Damage	Time	Evasion
up to 10 feet	1d6	1 second	Negates
11-30 feet	2d6	2 seconds	Halves
31-60 feet	3d6	3 seconds	No effect

If the target succeeds, the hold is broken; if the attacker succeeds, the target is immobilized and further fortitude rolls at -3 are required to break the hold. While partially held neither combatant may attack.

Unseen targets: Attacks against unseen targets, if the attacker is basically aware of the target’s location, are at a penalty of 3 in close combat, 6 in ranged combat.

Covered, immobile, & non-defending do not combine.

Upkeep & Maintenance

Poor: 1 monetary unit per week

Basic: 1 monetary unit per day

Extravagant: 10-100 monetary units per day

Weapons: 10% weapon cost per year

Armor: 5% armor cost per month

Riding animals: 10% per month

Other animals: 5% per month

Spending Mojo

1. Failed but useful archetypal rolls: bid as much mojo as you are willing to spend to succeed. Mojo will only be used as necessary to turn a failed roll into a success. Character gains 50 experience per mojo. If mojo used is enough to increase field (or gain skill, if appropriate), do so.
2. Return to semi-consciousness: 1 mojo
3. New field: 11 mojo for field at +1 and one skill.
4. New skill in an existing field: 5 mojo, or 7 mojo for restricted fields.
5. Field bonus: 4 mojo plus the field's current bonus.
6. Ability increase: twice current ability for archetypal ability; thrice for other abilities.

Mojo spent on fields and skills at the same time as the field is used grant the mojo spent as a bonus on the roll.

If mojo spent to make a roll successful is enough to have increased the field or gained the skill or field, do it.

Archetypal mojo must always be useful.

Practical mojo must always have a purpose.

Combat Bonus Pool

Up to twice level attack bonuses can be placed into the combat pool in any round.

One combat bonus point can be used to benefit either damage, defense, attempts to throw off surprise, quickdraw, or combat movement by 1.

Four points can be used to gain an extra action.

Unarmed Combat Increases

Increase	Damage
0	d2 or d3
+1	d4
+2	d6
+3	d8
+4	d10
+5	d12

Movement

Speed	yards per minute	feet per round

6. Ability increase: twice current ability for archetypal ability; thrice for other abilities.

Mojo spent on fields and skills at the same time as the field is used grant the mojo spent as a bonus on the roll.

If mojo spent to make a roll successful is enough to have increased the field or gained the skill or field, do it.

Archetypal mojo must always be useful.

Practical mojo must always have a purpose.

Sorcerors

Sorcerors may acquire new spells for three mojo per spell level. Commonly-known spells cost two mojo per spell level.

The sorcerer must have ten times the basic spell components for experiments. When using archetypal mojo, the player may retroactively spend the necessary money if reasonable.

Compatibility rolls apply when using practical mojo: Learning, at a bonus of 6, and a penalty of spell level. On a failure, the character may try again at a later level for two mojo and three times spell components on hand.

Mnemonic sorcerors must inscribe acquired spells into their spell book using the Inscription spell. When using archetypal mojo, the player may retroactively pay for the ink.

Movement

Speed	yards per minute	feet per round
Semiconscious	movement	half movement
Combat	twice movement	movement
Explore	4 times movement	twice movement
Dash	6 times movement	3 times movement
Walk	10 times movement	5 times movement
Jog	20 times movement	10 times movement
Run	30 times movement	15 times movement
Sprint	50 times movement	25 times movement

When attacking, a character may only use combat movement. When in combat, a character may only use combat movement or dash.

Chases are agility contests. The faster contestant is at +1 for every three points their movement is faster.

Walking speed is approximately one-third movement in miles per hour. Characters can walk twice their movement in miles per day under perfect circumstances.

time base	save attack
endurance rounds	-
endurance minutes	0 0
endurance times 10 minutes	0 4
endurance minutes	-1 4
endurance times 30 minutes	-3 7
endurance times 5 minutes	-8 8
endurance minutes	-13 9
endurance rounds	-23 10

A character can jump as high or as far as half their height. Jumping further requires an agility roll with strength as a major contributor and a penalty of the extra feet (for a long jump) or twice the extra feet (high jump). A character can make a running long jump as far as their height, and the penalty for jumping further is per yard. They must run for three times the distance they wish to jump.

Ability Modifiers Difficulties

Ability	Major	Minor	Incredibly Easy	+16
3	-3	-2	A Snap	+8
4-5	-2	-1	Very Easy	+4
6-8	-1	0	Easy	+2
9-11	0	0	Difficult	0
12-14	+1	0	Very Difficult	-2
15-16	+2	+1	Extremely Difficult	-4
17	+3	+2	Nearly Impossible	-8
18	+4	+2	Practically Impossible	-16

Careful attempts are at +1, and extra careful attempts at +2. Carefulness increases time spent from a round to a minute, to ten minutes, to an hour, to a day.

Failures cannot be re-rolled, even by another character. Each roll can be tried once individually and once by group effort.

Classical Sorcerors

It takes spell level plus effect level verve to cast a spell.

Gods & Monsters

Beyond here lie dragons

Sorcerer

Conflict

Attack rolls are against an 11 or less.

Surprise: Awareness grants a bonus of 4; sleeping is a penalty of 6. Surprise means a penalty of 2 to defense and 6 to attack in the first round, half that thereafter. A willpower or fortitude roll is required to become unsurprised.

Unconsciousness: Targets who gain injuries must make a Fortitude roll or fall unconscious at the end of the round. Injury point penalty applies.

Death: Targets who gain injuries that exceed current survival contest their injuries with their Endurance. Injury point penalty applies. Warriors gain a bonus of level. Unconscious characters gain a bonus of two. Death occurs after Endurance minus injuries minutes or (if unconscious) hours.

Called Shot: A character may take a -3 attack and focus the attack on a specific location. Effects will vary.

Cover: Warriors gain +1 defense for weak cover, +2 for strong, and +3 for full. Non-warriors gain +0, +1, and +2.

Covered: If the target is “covered”, the attacker gains a free attack at +4 attack and +1 damage. If the target attacks first, the attacker must make a perception roll for the attack to be free.

Defensive Action: A combatant may forego any attack and gain a +2 defense.

Firing into close combat: Two to four combatants count as strong cover. Five or more count as full cover. If the target is hit, any of the target’s adjacent attackers who the roll would also have hit must make an Evasion roll or take the same damage. If the attack misses, one random adjacent opponent must make an Evasion roll with defense as a bonus or be hit.

High Ground: +1 to either attack or defense.

Immobilized Target: Attacking an immobilized target is at +10 attack. Agility does not apply to defense.

Non-defending opponent: Attacking a non-defending or unaware opponent is at +4 attack.

Quickdraw: A character can attempt to draw and use an available weapon in the same round. An Evasion roll is required. If unsuccessful, the character acts as surprised, which must be thrown off as normal.

Smaller size: Smaller defenders who choose not to attack gain a +1 defense per size difference. If the smaller defender attacks, the bonus is halved.

Knockout: Called shot to the head against an unaware, surprised, or immobilized target required. Target allowed evasion roll, with a bonus according to

headgear. If successful, no damage. If unsuccessful, one point of the damage adds to the target’s injuries. Warriors may allot two combat points to do up to two injury points.

Immobilization: For a -2 defense, an attacker may try to immobilize a target. A called shot is required. An evasion roll is allowed at +2 for each size difference the target is larger than the attacker. Once partially held, the combatants are in a fortitude contest, with the larger of the two gaining a bonus of 4 for each size difference. If the target succeeds, the hold is broken; if the attacker succeeds, the target is immobilized and further fortitude rolls at -3 are required to break the hold. While partially held neither combatant may attack.

Unseen targets: Attacks against unseen targets, if the attacker is basically aware of the target’s location, are at a penalty of 3 in close combat, 6 in ranged combat.

Covered, immobile, & non-defending do not combine.

Upkeep & Maintenance

Poor: 1 monetary unit per week

Basic: 1 monetary unit per day

Extravagant: 10-100 monetary units per day

Weapons: 10% weapon cost per year

Armor: 5% armor cost per month

Riding animals: 10% per month

Other animals: 5% per month

Spending Mojo

1. Failed but useful archetypal rolls: bid as much mojo as you are willing to spend to succeed. Mojo will only be used as necessary to turn a failed roll into a success. Character gains 50 experience per mojo. If mojo used is enough to increase field (or gain skill, if appropriate), do so.
2. Return to semi-consciousness: 1 mojo
3. New field: 11 mojo for field at +1 and one skill.
4. New skill in an existing field: 5 mojo, or 7 mojo for restricted fields.
5. Field bonus: 4 mojo plus the field's current bonus.
6. Ability increase: twice current ability for archetypal ability; thrice for other abilities.

Mojo spent on fields and skills at the same time as the field is used grant the mojo spent as a bonus on the roll.

If mojo spent to make a roll successful is enough to have increased the field or gained the skill or field, do it.

Archetypal mojo must always be useful.

Practical mojo must always have a purpose.

Sorcerors

Sorcerors may acquire new spells for three mojo per spell level. Commonly-known spells cost two mojo per spell level.

The sorcerer must have ten times the basic spell components for experiments. When using archetypal mojo, the player may retroactively spend the necessary money if reasonable.

Compatibility rolls apply when using practical mojo: Learning, at a bonus of 6, and a penalty of spell level. On a failure, the character may try again at a later level for two mojo and three times spell components on hand.

If a classical sorcerer has the mnemonic formula for a spell, this counts as “commonly known”.

Movement

Speed	yards per minute	feet per round
Semiconscious	movement	half movement
Combat	twice movement	movement
Explore	4 times movement	twice movement
Dash	6 times movement	3 times movement
Walk	10 times movement	5 times movement
Jog	20 times movement	10 times movement
Run	30 times movement	15 times movement
Sprint	50 times movement	25 times movement

When attacking, a character may only use combat movement. When in combat, a character may only use combat movement or dash.
