How To Use This Document

This document is divided into two parts. The first part details every clarification that has been made in HeroClix for all game elements. These 44 pages are the minimal requirements for being up to date on all HeroClix rulings.

Part two is a reference guide for players and judges who often need to know the latest text of any given game element. Any modification listed in part two is also listed in part one; however, in part two the modifications will be shown as fully completed elements of game text.

Section 1 Rulebook

General

- Many figures have been published with rules detailing their abilities. The specifics of these abilities are overridden by the description of the ability in the *HeroClix Powers and Abilities Card*.
- Typographical errors (such as a missing period) that do not impact the way in which a game effect would be played are not listed in Part 1 as errata, though the corrected form of the game effect would appear in Part 2.
- Unless otherwise noted, game effects only occur once each time they would apply. For example, “At the beginning of your turn, you may heal Wolverine of 1 damage” is an instruction to do this once.

Battle Map Removal

- Characters that are removed from the battle map are not affected by Battlefield Conditions.
- Characters that are removed from the battle map are not affected by game effects that characters on the battle map use (unless it says otherwise).
- Characters that are removed from the battle map may not use their own powers, abilities, or feats except as stipulated by the effect removing them from the battlefield.

Combat Values

- When an attack roll is rerolled, the combat values used for the first roll will be used for the second roll.

Compatibility

- All **HeroClix** game lines are compatible with all other **HeroClix** game lines. **HeroClix** has two game systems. **HeroClix: Alpha** characters can be played in **HeroClix** by treating every colored power as a standard power (not the description on the character card) and by using the character card for the keywords.

Critical Hits

- A critical hit increases the damage dealt to any character hit by an attack that deals damage.

Damage Dealt

- Page 9, under No Damage begins: “An attack that deals no damage ignores modifiers to the damage value.”
- All damage from a single effect is dealt simultaneously, unless otherwise specified. For example if two characters are both hit by the same Energy Explosion or Throw a Grenade attack, all of the damage from that attack is dealt at the same time, so any damage transfer will be combined.

Damage Taken

- The amount of damage a character takes is always considered the specific number of clicks applied before stopping. If a character is KO'd or has a game effect that causes the clicking to stop, the damage taken is determined accordingly.

Event Dials

- Event dials included as part of your force are still subject to having the approval of your opponents.

Free Actions

- If a game effect allows you to perform a specific power or ability as a free action, then that effect is not considered to be the type of action which would normally be given. (For example, when Zoom uses Flurry during Hypersonic Speed, there is no close combat action given.)
- Free actions may be used during the beginning of turn and during the end of turn.

Ignoring

- A character which ignores a game effect may still be targeted with that game effect. Any special attributes of that effect will be ignored. For example, a character with the Repulsor Shield feat that is hit with an attack using Ranged Combat Expert would not ignore the attack, it would ignore the +2 damage dealt provided by the Ranged Combat Expert power.
- Game effects which alter the way a figure is KO'd or otherwise defeated cannot be ignored.
- Game effects which have you make a choice at a specific occurrence may be ignored, but if the power is being ignored when the choice would be made, this choice is made immediately after the effect is no longer ignored.
- When a game effect says that a character ignores a power or ability, it only ignores that power or ability on other characters unless otherwise noted.

Initiative

- There are many mechanics which require player(s) to select things at the beginning of the game. The initial roll-off between players to determine who goes first is used to determine which player performs all of their “start of game” decisions first.

Keywords

- Diacritics (such as the dots above an ü) are the same as their standard letter counterpart. For example, Blüdhaven is the same as Bludhaven
- Hyphens do not alter a keyword. For example, Legion of Super Heroes is the same as Legion of Super-Heroes.

Knock Back

- Powers and abilities that would prevent knock back are checked for before damage from the attack is applied.
- Knock back is not considered to be movement.

Lines of Fire

- When a character has the ability to ignore the effects of other characters for line of fire purposes, it refers only to the fact that character bases do not affect the line of fire. This ability alone would not allow the character drawing a line of fire to ignore powers or abilities by other characters.
- When a character draws a line of fire to an object held by a character, they do not need to draw a line of fire to the character

holding the object, only the square itself. Therefore, abilities like Stealth would not prevent the line of fire from being drawn.

- Some special powers allow a character to use a standard power against one or more adjacent characters. When adjacency is specified in this way, the character using the special power does not need to have line of fire on the target(s).
- Any game effect that has a line of fire drawn to it is considered a target.

Modifiers

- Modifiers can always be applied to a character. However, if another game effect causes the character to be unable to have its values modified, then the modifiers are ignored.
- When a modifier during an attack is based on a figure meeting a particular criteria (usually the targeted character), then that modifier only applies to the targeted character(s) but would not apply to any targeted characters that did not meet the criteria.

Movement

- A character which “cannot be moved” may not be given an action to move 0 squares as that is movement.
- A character with Super Strength cannot pick up an object as it moves into a square adjacent to an opposing character unless the moving character has another power or ability that allows it to ignore the effects of other opposing characters on movement.

Multi-Based Characters

- When a multi-based character moves between walls and/or blocking terrain, the character’s narrowest edge must be able to fit between the two terrain features.

Naming

- Abbreviated titles are considered the same as their long forms for determining a character’s name. For example, Dr. Octopus and Doctor Octopus are considered the same name.

Powers/Abilities

- When a game effect refers to “a standard {combat type} power” it is referring to a standard power in that combat type’s stat. For example, “a standard attack power” would include Quake but would not include Charge (even though there is an attack in Charge, it is not an “attack power”).
- When a character card contains descriptive text for a standard or named power, refer to the Powers and Abilities Card for the text of the power.
- Powers and abilities which allow a character to use a standard power in an altered way are still considered to be standard powers for other game effects.
- If a character is being affected by a power or ability when it is replaced for another (i.e., Alter-Ego, Morph, etc.) the new character remains affected.
- If a character has activated a long-lasting game effect when it is replaced for another (i.e., Alter-Ego, Morph, etc.) the new character continues the effect only if the new character also can use that effect.
- Game effects which grant the use or possession of another game effect have no effect if the recipient can already use the new effect.

Starting Lines

- Some characters have red, blue, and/or yellow starting lines instead of a green starting line. These characters may also have different point values and experience levels listed on their base/character card. Use the starting line that matches the color of the point value or experience level.
- If a character does not have any starting lines, the starting line is treated as if it were to the left of click 1.

Terrain

- Walls that are destroyed in the middle of an action are considered destroyed immediately within the action. The adjacent terrain does not become hindering terrain until the end of that action.
- If one type of terrain exists behind other types of terrain, each terrain type must be destroyed separately.
- An “area of terrain” is a square or group of squares that are enclosed by a single colored line. Two sets of colored lines that overlap or are adjacent are separate areas of terrain.
- Special terrain (orange squares) that require a character to occupy the square, require that the entire base must be occupying the terrain.
- Game effects which would allow a figure to relocate terrain may not be used on terrain printed on the map.
- Web Special Terrain Marker: A character occupying this square must break away for movement purposes. Immediately after the character occupying this square no longer occupies it, remove this marker from the map.
- The red border on elevated terrain is elevated terrain of that level.

Turns

- The “beginning of turn” ends with the first non-free action assigned to a character, unless that action specifically states that it can be given during the beginning of the turn.
- Effects that occur at the end of the turn may be performed in any order, but you may not give your figures actions after you have cleared tokens.

Victory Points

- At the end of the game, all figures are returned to their original controllers before determining the winner.

Walls

- All walls are assumed to stop exactly at the edges of squares. Even if it looks like a wall “sticks out” into a doorway, it doesn’t, and thus diagonal attacks can pass through without being blocked.
- A square of blocking terrain on the opposite side of the wall does not block the line of fire to that square when targeting a wall with a ranged attack.
- If blocking terrain exists on the opposite side of a wall, destroying the wall does not destroy the blocking terrain. Only place a rubble token on the side of the wall without the blocking terrain. A separate attack must be made to destroy the blocking terrain.

Section 2 Powers

Barrier

- Blocking terrain markers can be destroyed as per the rules for destroying blocking terrain. They would be replaced with rubble tokens when destroyed. The rubble tokens are removed from the game the same time that the normal blocking terrain markers are removed from the game.

Charge

- Characters using Charge still follow standard rules of movement, including break away and the ability to carry other characters. However, a carried character must be dropped before the Charging character uses the Free Action portion of Charge to attack.

Combat Reflexes

- Using this power does not prevent knock back from occurring, if doubles are rolled.
- A character that is normally immune to knock back that has Combat Reflexes can choose to take knock back when hit with a successful attack.

Energy Explosion

- When knock back occurs from this attack, all characters that take damage from this attack are knocked back normally in the direction away from the attacker starting with those farthest from the attacker. If the attacker itself takes damage, it is not knocked back.
- All damage from the Energy Explosion attack is dealt at once. If a character were hit by both an EE attack and splash damage, then that character would be dealt 2 damage. If the character had Toughness it would be dealt 2 damage, minus 1 for the Toughness for a total of 1 damage.

Flurry

- Any powers that are not in use when the first attack is made with Flurry cannot be used for the second attack. Any powers in use for the first attack are in use on the second attack unless the power has been lost.

Force Blast

- Though not an attack, this power targets the figure(s) being knocked back.

Hypersonic Speed

- All references to “Hypersonic Speed, Option 1” refer to the power Hypersonic Speed.
- If the target character is defeated by the attack, it is removed from the board immediately and the attacking character can occupy that square.
- The Hypersonic Speed character commits to the square from which the attack will be made prior to making the attack.

Leadership

- Game effects which refer to a Leadership result of 4-6 are actually referring to a successful Leadership roll, which is now a result of 5-6.

Mind Control

- If a character affected by Mind Control KO's another opposing character, or is KO'd itself, the controlling player receives the victory points.
- When a character is affected by Mind Control, any of its powers previously countered remain countered. Powers that may only be

used once per turn, round, or game may be used accordingly per Mind Controller.

- A character that is targeted with Mind Control cannot use any feats during the Mind Control action.

- Since a character targeted with Mind Control returns to its previous controller's force immediately after the free action resolves, any free actions that could be given to the targeted character “after actions resolve” can not be given.

Outwit

- When a Special Power is used to counter all powers on a character, it causes new powers to appear on the dial to also be countered, as the character's dial changes.
- If a countered power no longer shows on the dial, but then returns to the dial before the beginning of the Outwitting player's next turn, the power is still countered.

Phasing/Teleport

- A character using Phasing/Teleport that is able to carry characters can carry characters through blocking terrain and such as it uses Phasing/Teleport.
- A character using Phasing/Teleport that is able to pick an object up can do so while using Phasing/Teleport.

Penetrating/Psychic Blast

- Any reference to “Psychic Blast” refers to “Penetrating/Psychic Blast”.

Pulse Wave

- While Pulse Wave ignores powers and abilities, it does not counter them. Therefore, terrain created as a result of using a power is considered terrain and affects Pulse Wave normally, even if the character generating that terrain is within range of the Pulse Wave. Characters holding an object due to a feat or power would still be able to hold the object and even use the held object (if it helps defensively).
- The character using Pulse Wave does not have any of its powers, traits, abilities, or feats ignored during the Pulse Wave attack.

Quake

- When using Quake against multiple opposing characters and one or more of the characters becomes an illegal target (due to Shape Change, Skrull, etc), the attack is still made against all legal targets. If there are no legal targets then the attack cannot be made.

Running Shot

- Characters using Running Shot still follow standard rules of movement, including break away and the ability to carry other figures. However, a carried figure must be dropped before the character using Running Shot uses the Free Action portion of Running Shot to attack.

Steal Energy

- A character using Steal Energy while on their first click is not considered healed when an opposing character takes damage from a close combat attack.

Stealth

- Adjacency is not an issue when determining a line of fire to a character using Stealth and occupying hindering terrain. Powers like Probability Control, Perplex, and Outwit, which use a line of fire to determine if the effect can take place, cannot target a character using Stealth that occupies hindering terrain, even if the character with the ability is the character using Stealth itself.

- A giant character that uses Stealth cannot have a line of fire drawn to it when occupying hindering terrain, regardless of the elevation of an opposing attacking figure.

Telekinesis

- A character that has been placed via Telekinesis cannot use Telekinesis until the end of the turn.
- A friendly character placed via Telekinesis can still be given a non-free action the turn it was moved (though it cannot use Telekinesis).
- A figure may not target itself with Telekinesis.
- Any reference to an "option" of Telekinesis is resolved as follows. Option 1: A is an opposing character; Option 2: A is a friendly character or A is an object placed with no attack; Option 3: A is an object placed to make an attack.
- The last sentence reads: "If A is an object and B is occupied by an opposing character, this character may make a ranged combat attack targeting the character occupying B, dealing object damage and destroying the object."
- When designating an object as A and making an attack, the only line of fire required is to square B. The attacked character does not have a line of fire drawn to it and, as such, would not benefit from a hindering terrain bonus (even if the target is using Stealth while occupying hindering terrain). It is still a target of a ranged combat attack, though, so powers like Energy Shield/Deflection, Shape Change and Super Senses would still activate.

Section 3 Abilities

General

- Trait abilities are generally denoted by the ☆ symbol, but other symbols may be used to denote a trait. When a symbol appears to the left of the combat symbols on a figure's dial, that symbol denotes a trait whose description will be found on the character card with that symbol.

Capture

- The rules for Capture can be seen in Section 13~~Section 13~~ of this document.
- If a character is holding an object when captured, the object is placed in the square the character occupied when captured. If there is an object already in the square, the dropped object would be removed from play.
- If a character using this ability loses it, then any captives are rescued.

Carry

- Characters being carried are not considered to be on the map for any game effect.
- The fourth sentence reads: "If a character has any other combat symbols or is holding an object it cannot be carried."

Duo Attack

- The free actions used in this ability may activate the same effect.

Multiattack

- The Capture ability may not be used via the free action granted by Multiattack.
- The free actions used in this ability may activate the same effect.

Sharpshooter

- This ability allows the character to make a ranged combat action/attack while based. If the attack targets, then targets of the attack must be the adjacent character(s). Regardless of targets, non-adjacent characters can be affected by the attack (such as would be the case with powers like Pulse Wave and Energy Explosion).

Throw a Grenade

- This is a trait ability, not a combat ability. Only combat abilities are able to be countered.
- Your initial grenade pool is determined by summing the grenade pool values of all figures on your force at the beginning of the game. The grenade pool values are indicated under the keywords on the character cards of figures who can use the Throw a Grenade trait ability. If your grenade pool is 0, you cannot use the Throw a Grenade trait.
- This trait ability is denoted with different symbols based on the set. For example, the ⚡ symbol is used for the Gears of War 3 set while the 🔥 symbol is used for the Halo set.
- The initial square chosen does not have to contain a character, nor is there anything restricting it to being clear or hindering terrain.
- Plasma Grenades end with "...and then remove the marker."

Section 4 Characters and Special Powers

General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be functionally different from a legal WizKids-released version of the element. This policy does not apply to 3D elements, though it does apply to the cards that accompany them.
- Flight Stands – many characters have flight stands, once used as an indicator of a character being able to use Flight and Carry. Unless specified otherwise below, characters follow the rules of their speed symbol. A flight stand alone does not indicate the ability to use Flight or Carry.

#043 Molecule Man

- Molecular Destruction is an attack power, not a speed power.

(2) Reposition Batman from a square of hindering terrain to another square of hindering terrain. (3) Perform the declared action.
- Batman does not need to break away from an adjacent character in order to be placed with Out of the Shadows.

#007 Icicle

- Action tokens are only assigned when the barrier terrain tokens are placed with Copsicles, not if a character moves or is moved adjacent to them.
- 2 squares of diagonally touching barrier terrain tokens will prevent adjacency between a character and another barrier terrain token on the opposite diagonal.

- If Deadman must stop possessing a character and there is no square to which a line of fire can be drawn, Deadman is placed in the closest available unoccupied square. If Deadman chooses to stop possessing a character but has no available square, then he cannot stop possessing the character.
- Possession is not Mind Control. Characters that normally cannot be targeted with Mind Control can be targeted with Possession.
- If Possession is used on the opponent's last character, then the game would end. Each player would calculate victory points they have earned and the winner would be determined accordingly.

#036 Granny Goodness

- The keyword "Apokalips" is "Apokolips".

#041 Mr. Mxyzptlk

- When using Object Animation, the line of fire only needs to be drawn to the square(s) – not the character(s).

- Remove the first "Give" from Bring Down the House.

#040 Captain America

- The Shield object listed on the character card is only able to be played with this character.
- The second sentence of The Shield reads "When used in a ranged attack, Captain America may target up to two characters and deals 3 damage to each hit character."

#045 Fixer

- For Cobble Any Object Into a Weapon the object that Fixer brings into the game must be legal for the format of the game being played. For example, if playing a modern age game, the object he brings in must be a modern age object; if playing a sealed game, the object he brings in must have been pulled from the boosters used by Fixer's controller.

#049 Maelstrom

- Remove the period after the ~~⚡~~ (GIANT) symbol in The Rest of the Universe Stops For Me.

#051 Scorpio

- The Zodiac Key object listed on the character card is only able to be played with this character.

#056 Squirrel Girl

- The Monkey Joe bystander listed on the character card is only able to be played with this character.

#058 Human Torch

- Nova Blast's first sentence reads "Give Human Torch a double power action."

#059 Weapon X

- Once this character is clicked to click #5, it cannot be healed back above that click.
- Breaking Out of the Tank cannot be ignored.
- Breaking Out of the Tank begins "Weapon X begins the game with the Fluid Tank attached. As long as the Fluid..."

#060 Captain America

- Thawing From the Ice cannot be ignored.
- Once this character is clicked to click #5, it cannot be healed back above that click.
- The first sentence of Second Deflection reads: "When Captain America targets a character with a ranged combat attack, he may target an additional character within 3 squares and line of fire from the first character, and divide the damage between the hit characters."

Gears of War 3

#007 Locust Drone

- This power ends "This damage cannot later be dealt to Locust Drone."

#009 General RAAM

- The special power "Greande Scatter" is named "Grenade Scatter" instead.
- The second sentence of Troika Blasts and Clouds of Kryll reads: "Once per turn, if General RAAM has no action tokens he can use Smoke Cloud as a free action until the beginning of his next turn."

Halo

#001-045 All figures

- The weapons listed in parentheses are not part of the figure name.

#011 Flood Infection

- Swarm begins: "Flood Infection can use Poison."

#016 Elite

- Remove the "Anti-Armor Ammunition" from the text of Anti-Armor Ammunition.

#030 Elite Honor Guard

- Guardian Defender reads: "Elite Honor Guard can use Toughness. Once per turn, when an adjacent friendly character is hit by an opposing character's attack, after the action resolves Elite Honor Guard may deal 2 damage to the opposing character if it is adjacent to Elite Honor Guard."

#038 Master Chief

- Remove the "Bring Down the Hammer" from the text of Bring Down the Hammer.

Superman

#053 Zod

- Kneel Before Zod! Will deal the penetrating damage to figures which had 2 tokens before the power was used.

#054 Black Adam

- The keyword "The Society" is "Society".

Section 5 Special Characters

General

- When a special character's printed rules indicates that they possess an ability that is documented in the latest rulebook, the rules from the rulebook override the printed rules for the character.
- When a special character's printed rules indicate that they can only take one action per turn, it is only referring to non-free actions.
- When a special character's printed rules indicate that they have a way to be given a non-free action every turn without taking damage, these rules may be used instead of the Colossal Stamina ability.

Dark Phoenix†

- Replace the first sentence of the first paragraph under Special Rules with: "Dark Phoenix ignores the Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, and Support powers, as well as team abilities that duplicate these powers."
- Replace the second sentence under Actions and Pushing with "Dark Phoenix may be pushed each turn; it will not be dealt pushing damage while the Power Cosmic team ability is active."

Fin Fang Foom†

Part of a Force Rules

- When Fin Fang Foom uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.

Galactus†

Scenario Rules

- Under **Combat**, replace the sixth paragraph with: "Galactus can attack and be attacked by grounded and elevated characters."
- Probability Control cannot be used against Galactus' rolls, as Galactus doesn't have a turn.
- Galactus does not retaliate if damaged during its action.
- Galactus is not forced to respond with the same kind of attack that damaged him.
- If the character who dealt damage to Galactus is KO'd before Galactus retaliates, then Galactus does not retaliate.
- If Galactus retaliates against more than one character after being dealt damage and misses the character that dealt damage to Galactus but hit one or more other characters, then Galactus may divide his full damage among the characters successfully hit.
- When retaliating, Galactus may still use the Pulse Wave ability, even though it doesn't specifically target a figure, if the figure that damaged Galactus is within range of Galactus' Pulse Wave.
- Galactus' retaliation occurs immediately after the first action resolution that results in Galactus taking damage. For example, during a Hypersonic Speed attack, Galactus would retaliate immediately after the free action that resulted in Galactus taking damage resolves, before the figure using Hypersonic Speed completes its movement. If Galactus takes damage from the first free action of a Multi-attack or Cosmic Multiattack, Galactus would retaliate before the second free action occurs; if the second

free action also resulted in Galactus taking damage, he would retaliate after that action as well.

Part of a Force Rules

- Add the following to the first paragraph under **Movement**: "Galactus ignores the effects of team abilities on movement."
- Add the following to the first paragraph under **Movement**: "Galactus ignores indoor blocking terrain for movement purposes. Any indoor blocking terrain Galactus crosses is destroyed; mark blocking terrain destroyed in this manner with two rubble markers."
- Replace the first sentence of the first paragraph under **Powers and Abilities**: "Galactus ignores the Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, and Support powers, as well as team abilities that duplicate these powers."
- Feats cannot be assigned to Galactus.
- Damage carries over from one combat dial to another. In a battle against Hungry Galactus, for example, if there is 1 click left on the Hungry combat dial, and Galactus takes 2 damage, the "extra" 1 damage is applied to the Starving combat dial.
- Galactus ignores the Skrulls and Danger Girl team abilities.
- When Galactus uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.
- When Galactus moves, all parts of his base are considered to be in clear, grounded terrain.

Galactus (Coming of Galactus) †

Scenario Rules

- The sentence reading: "Galactus always uses any powers showing on his current combat dial against the target, if possible." says "Galactus always uses any powers showing on its current combat dial to his greatest advantage, and he will always first use his powers and abilities in an attempt to damage an opposing character."
- When Galactus uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.

Part of a Force Rules

- Where their powers overlap, the clarifications for Galactus apply to COG Galactus.

Jean Grey Phoenix†

- Replace the first bullet point under Special Rules with: "are not affected by Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, Support, or any team abilities that duplicate these powers;"

Sentinel†

- The Sentinel with an Infinity Challenge set symbol should use the Advanced Sentinel Rules.

Spectre†

- When Spectre uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.

Starro†

- When Starro uses Pulse Wave against multiple targets, the damage dealt per hit is equal to the experience level he started with, overriding all other restrictions on this number.

Section 6 Team Abilities

General

- Any team abilities that refer to a “team member” actually refer to “a character using this team ability.”

2000 AD†

- The choice of opposing team ability or character is made for the entire team. Once the choice is made, all characters with this team ability get the bonus against that team/character.
- If a wild card uses this team ability, they must use the same opposing team ability/character selected for the rest of the characters using this team ability.
- Designating a single character for this team ability grants the bonus only against that single character, even if more than one of that character is in play.

ARACHNOS†

- This team ability reads: “When a character using the Arachnos team ability takes damage from an attack, the attacker is dealt 1 unavoidable damage. This damage is not an attack.”

Clarifications: see *Mystics*

AVENGERS

Clarifications: see *Free Moves*

BATMAN ENEMY

Clarifications: see *Sinister Syndicate*.

BROTHERHOOD OF MUTANTS

Clarifications: see *Free Moves*

CRIME SYNDICATE

- The character using this team ability is subject to all the standard rules regarding Probability Control with the additional requirement of placing a token on a character in order to use the ability.

CROSSGEN†

- This team ability reads: “When a character using the Crossgen team ability takes damage from an attack, the attacker is dealt 1 unavoidable damage. This damage is not an attack.”

Clarifications: see *Mystics*

CRUSADE†

- The attack roll does not need to be successful in order to generate knock back.
- If a Crusade team member's Energy Explosion attack is unsuccessful against a target, but doubles are rolled, then the Crusade ability will generate knock back only for the missed target. If a Crusade team member's Energy Explosion is successful against a target, but unsuccessful against an adjacent figure, Crusade's ability will also generate knock back against the adjacent figures.

DANGER GIRL†

Clarifications: see *Skrulls*

DEFENDERS

- This team ability reads: “Characters using the Defenders team ability can replace their defense value with the unmodified defense value of an adjacent friendly character using the Defenders team ability.”
- The Defenders team ability works in the same manner as the “Defend” power, except that it can only be used with other Defenders team members.
- This team ability can be used during Support.

Free Moves

- When a character with this team ability is given a move action, that action does not get subtracted from the players action pool for that turn. The acting character is still assigned a token and would be dealt pushing damage as normal, if this is not their first token.
- This team ability does not alter what kinds of actions can be assigned to the character. If it has been carried this turn, you could not assign it a move action, as it is “free”. It is not a free action, it is an action which is free from the perspective of your action pool (the number of actions you can assign on a turn).
- If a character with this team ability is given a move action that requires break away, it may still use this ability. On a failed break away roll, it would still get a token and the action will not come from the action pool.

GUARDIANS OF THE GLOBE†

- If doubles are rolled for a no damage attack (such as Mind Control), a token would still be given to the target(s).
- If a character using this team ability rolls doubles while using Incapacitate, then the target character will get 2 tokens if they currently have 0.
- If a character using this team ability rolls doubles while using Quake, the target characters would not be knocked back, but would receive a token instead.
- If a character with this team ability rolls doubles while using Energy Explosion, the characters targeted would receive a token while character who are affected by splash damage would be knocked back normally.
- If a character with this team ability rolls doubles while using Pulse Wave, knock back would apply normally, as there are no targets in a Pulse Wave.
- If a target character would normally ignore knock back, they would still receive a token as a result of this team ability.

HYDRA

- This team ability reads: “When a friendly character making a ranged combat attack is adjacent to one or more **friendly** characters using the Hydra team ability, each opposing character targeted by the attacker modifies its defense value by -1 for each **friendly** character using the Hydra team ability if the characters using the Hydra team ability also have a clear line of fire to the target.”

HYPERTIME

- If a character fails its roll while trying to become adjacent to the Hypertime team member, it may continue its move from the current position. If there are no legal squares in which the character that failed its roll against the Hypertime team ability may move, the character must end its movement in the first available legal square along the path it took when moving adjacent to the Hypertime team member, even if that square is the square in which the character began its movement.
- This team ability only applies when a character goes from not being adjacent to a Hypertime character to becoming adjacent to a Hypertime character. If one is adjacent to a Hypertime character at the beginning of an action, for example, and rolls successfully for break away, then a Hypertime roll would not be necessary if the character moves and maintains adjacency to that Hypertime character.
- When attempting to move into adjacency with two or more opposing characters using this team ability, one roll is made.

- The character attempting to move into adjacency is the character which makes the roll.

JUSTICE LEAGUE

Clarifications: *see Free Moves*

JUSTICE SOCIETY

Clarifications: *see Defenders*

MASTERS OF EVIL

- The damage applied to a character with this team ability on the third turn it acts is not pushing damage. Willpower (or other effects that allow a character to ignore pushing damage) would not apply to the unavoidable damage this team ability generates.
- The second action a character with this team ability takes is normal pushing damage, for which Willpower and other similar effects would work fine.

MYSTICS

- As the damage from this team ability is not an attack, it would not cause retaliation damage if it were applied to another Mystics character.
- This team ability would still activate as the character is KO'd.
- If a Mystics character somehow deals damages to itself in an attack, it will still activate and damage itself.

POLICE

Clarifications: *see Hydra*

POWER COSMIC

- This team ability reads: "Characters using the Power Cosmic team ability do not take pushing damage and their powers cannot be countered. This team ability can't be used by wild cards."
- Powers that allow you to ignore other powers would still be effective against a character using this team ability. Exploit Weakness, for example, does not counter damage reducing powers, but ignores them, so it would still work against a character with this team ability.

QUINTESSENCE

Clarifications: *see Power Cosmic.*

S.H.I.E.L.D.

- Multiple S.H.I.E.L.D. characters can be used to provide multiple bonuses to a single friendly character. These bonuses are always subject to the Rule of Three.
- The action token is assigned to the S.H.I.E.L.D. characters (for power actions) when they use this team ability regardless as to whether the attack was successful or not.
- The S.H.I.E.L.D. character does not have to have a line of fire to the target in order to use this ability.
- The S.H.I.E.L.D. character's action is to be declared with the announcing of the action that includes the ranged combat attack.

SINISTER SYNDICATE

- This team ability reads: "Characters using the Sinister Syndicate team ability can replace their attack value with the unmodified attack value of an adjacent friendly character using the Sinister Syndicate team ability."
- The Sinister Syndicate team ability works in the same manner as the "Defend" power, except that it can only be used with other Sinister Syndicate team members and it applies to attack value rather than defense value.
- This team ability can be used during Support.

SKRULLS

- Other than the roll that is required, this team ability works the same as Shape Change.

SUICIDE SQUAD

- The team ability will activate for each adjacent friendly character KO'd.

SUPERMAN ENEMY

- The first sentence ends "~~...to use Outwit.~~" reads "When two friendly characters that can use the Superman Enemy team ability are adjacent to each other, the character with the higher point value may be given a free action to use Outwit."
- The second sentence reads: "That character can use Outwit until the beginning of your next turn, if it cannot use Outwit already and continues to use this ability."
- This power can be used for each set of adjacent Superman Enemy characters. For example, if you have three Superman Enemy characters all adjacent to one another, with point values 75, 60, and 44, there are three potential pairs: 1) 75/60, 2) 75/44, and 3) 60/44. 75 is higher than 60, so 75 gets to use Outwit. 75 is higher than 44, but 75 already can use Outwit—it cannot use it again. 60 is higher than 44, so 60 can use Outwit.

TITANS

Clarifications: *see X-Men*

TOP COW†

Clarifications: *see Free Moves*

ULTIMATES

- This team ability reads: "Characters using the Ultimates team ability treat hindering terrain as clear terrain for movement and line of fire purposes."

ULTIMATE X-MEN

- Each team member chooses an opposing team ability or character. This choice is made on a character by character basis, and may be different from other members of the team.
- If a wild card uses this team ability, they may select their own target team ability/figure for the bonus. Once the choice is made, the wild card may not change that selection even if they use a different team ability.
- Designating a single character for this team ability grants the bonus only against that single character, even if more than one of that character is in play.

Wild Cards

- If the last character on a force possessing a team ability is KO'd, or all instances of the team ability are lost, countered, or otherwise absent, any wild card characters that are currently using the team ability can continue to use it until the end of that action. With the start of the next action, that team ability is not able to be used.
- A wild card can only use a team ability that is possessed by a friendly character on their force. It cannot use a team ability that another character is able to use (but does not possess).
- When using another team ability, a wild card team member is considered part of that team for team ability purposes; for everything else, it is a member of the team printed on its base.
- The rule regarding using only one team ability per action refers only to the usage of the wild card team ability. If a character is a wild card and also is a member of another team, it can essentially use 2 team abilities as it can use its natural team ability as well as its wild card team ability.
- If a character is a wild card in addition to another team ability, being a wild card does not affect their ability to use that other team ability in any way.
- Wild cards cannot use a team ability if they are already using an identical mechanic through another game effect.

X-MEN

- This team ability reads: “When two friendly characters that can use the X-Men team ability are adjacent to each other, give one of them a power action and roll a d6. Heal the second character of 1 damage. If the result was 1-4, deal the character given the power action 1 unavoidable damage.”
- In order for a character to use the X-Men team ability, the adjacent character must be able to be healed.

Section 7 Additional Team Abilities

General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be functionally different from a legal WizKids-released version of the element.
- Additional Team Abilities must be used and costed for all qualified team members on your force.
- Additional Team Abilities cannot be used by a character during a free action granted by being successfully hit with Mind Control.
- Unless an Additional Team Ability says otherwise, the team ability it grants is in addition to any other team ability the character can currently use.

GUARDIANS OF THE GALAXY

- Remove the following text from this additional team ability: “All characters on your force with the Guardians of the Galaxy keyword are assigned this feat and have the following team ability instead of any other team ability:”

JUSTICE LEAGUE INTERNATIONAL

- This additional team ability includes: “(This can only be used once per damage dealt.)”

NEW MUTANTS

- The prerequisite for this additional team ability is “Generation X or New Mutants”

RUNAWAYS

- Remove the following text from this additional team ability: “All characters on your force with the Runaways keyword are assigned this feat and have the following team ability instead of any other team ability:”

SHADOWPACT

- This team ability reads: “Characters using this team ability ignore the Mystics team ability of other characters.”

THE SOCIETY

- If a character attempts to use Outwit against a Society member and the Outwit fails due to a successful roll of the team ability, the Outwit can be used against a different opposing character.
- The required keywords for this ATA are: “Secret Society of Super Villains or Society”.

THUNDERBOLTS

- A player using this ATA may change their chosen team ability with each new round of a tournament.
- The definition of a “Marvel team ability” is a team ability listed at the end of Section 15 of this document.
- The first sentence reads “Once at the beginning of the game, choose any one Marvel team ability other than an additional team ability...”

[This page is intentionally left blank.]

Section 8 Battlefield Conditions†

General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be functionally different from a legal WizKids-released version of the element.
- Battlefield condition cards are considered “unique by name”. If battlefield condition cards with the same name appear in multiple sets, a player may only use one copy of any named card in his battlefield condition hand during a tournament.
- Any Battlefield Condition cards that are published with the same name as a previous one override all of the text on the previously published card.
- Battlefield Condition cards which provide a limit on a combat values continuously check the relevant combat value.

ALPHA STRIKE

- The text of this card reads: “Before the beginning of each player’s first turn, that player chooses a team symbol possessed by an opposing character. The first opposing character with that team symbol that is defeated is worth additional victory points equal to half of that character’s point value.”
- If multiple characters with the chosen team symbol are KO’d as the result of a single action, the additional victory points are awarded for all characters KO’d by the action that have the chosen team symbol.

ARMOR WARS

- Multiple copies of Armor Wars will each affect damage dealt accordingly (so if 2 are in play, damage that is reduced is increased by 2).
- In order for Armor Wars to activate, some damage must be dealt. 0 damage will not be reduced.

ASSEMBLED

- A team must have 5 or more characters with the same team symbol in order for this BFC to activate.

ATLANTIS RISING

- Clear terrain does not become water terrain until the beginning of the first round. Objects can therefore be placed in clear grounded terrain, as it is not yet water terrain.

BLOOD CURSE

- This card does not include the phrase “or eliminated”.

CROSSWINDS

- This card says: “Character that can use the Flight ability cannot use the Flight or Carry ability.”

DAMAGE CONTROL

- Replace the last sentence on the card with: “At the beginning of each player’s turn, all destroyed walls and blocking terrain (except Barrier markers and terrain in occupied squares) are no longer destroyed.”
- Debris tokens from destroyed walls and blocking terrain are not removed at the beginning of each player’s turn.
- The restoration of walls and blocking terrain is something that happens once per turn, it is not an ongoing affect. If Wasteland was also in play, its effects are constant. Therefore, at the start of each turn, all of the destroyed walls and terrain would be repaired (from this BFC) and then they would immediately be destroyed (from the Wasteland BFC). The other effects of these BFCs would occur normally.

DARKNESS

- If a character were to use Pulse Wave under the effects of this BFC and their natural range is greater than 6, their range would be 6 for the attack. When the range is halved for the Pulse Wave attack, it would then be 3.

DEBRIS

- The text of this card reads: “Each player must place three additional standard objects in addition to those included in their force.”
- The three objects each player adds to the game must be standard objects and can be of any combination of heavy and light.

DEEP SHADOWS

- If a character were to use Pulse Wave under the effects of this BFC and their natural range is greater than 6, their range would be 6 for the attack. When the range is halved for the Pulse Wave attack, it would then be 3.

DE-FEATED

- All feats owned by that player are ignored when a 1 is rolled, even if the feat is not strictly tied to a single character (such as Rip It Up).

DISBANDED!

- Power Cosmic and Quintessence can be ignored. Certain characters, like Galactus, Spectre, and such have special rules that overlap with the effects of these team abilities. When they overlap, ignoring the team ability does not mean ignoring the characters own ability from their rules.
- Ignoring team abilities does not mean you ignore the team symbol. Many mechanics, like the Assembled BFC, require characters with the same team symbol. These effects would work the same even when Disbanded! is in play.

EARTHQUAKE

- The Probability Control power cannot be used to reroll dice rolled for the Earthquake BFC.
- Damage reducing powers still function as normal.
- Super Senses cannot be used to evade the damage as it is not from an attack.

GROUND ZERO

- The die roll that can result in damage is not rolled by the character, so it cannot be rerolled with Probability Control.

HEIGHTENED REFLEXES

~~—Replace the phrase “transporter move and attack ability” with “Move and Attack ability” in the first sentence.~~

INERTIAL INTERFERENCE FIELD

- The last sentence refers to all knock back, not just knock back from the different powers listed.

KRAKOA THE LIVING ISLAND

- The attack made because of Krakoa is a close combat attack. Combat Reflexes or the like would apply.
- Characters with Shape Change may use that power to cause the attack to not be able to be made. A different qualifying character can be selected as the target of the attack.
- Probability Control cannot be used on this roll as there is no character making the attack.

LOW GRAVITY

- Characters that are unaffected by knock back are not affected by Low Gravity.

LOYALTY

- Wild card characters retain their chosen team ability even if the character with that team ability is KO'd.
- Wild card characters would choose their team ability regardless to any feats (like Siphon Power, Saboteur, additional team abilities) assigned to either team before the game begins. They would retain that team ability for the game.

MADNESS

- When using Support and two sixes are rolled, the target would take 1 damage. When using Support and two ones are rolled, the target is healed equal to the result of one die roll (-2, as per the power).

MERCENARY

- The second sentence reads "The team ability cannot be a wild card, must be usable by wild cards and cannot be an Additional Team Ability."

PACIFICATION

- In order to be reduced, the 4 or more damage must be dealt to a single character.
- This BFC would activate any time the damage dealt reaches 4 (or more), even if another effect (like Toughness) would reduce it below 4 later.

POWER DAMPENING FIELD

- Any effect in the game that can alter the damage value of a character would still be subject to this BFC. This includes bonuses from feats (like Pounce) or powers (Enhancement, Blades/Claws/Fangs).

PROXIMITY MINES

- The first sentence reads: "At the end of a turn, if any character is in the same square as a non-held object or in a square adjacent to a non-held object, roll one six-sided die."

RADIATION LEAK

- If Radiation Leak and War Zone are in play at the same time, War Zone takes precedence over Radiation Leak when using the Support power. Radiation Leak requires a die roll but due to War Zone being in play no die is ever rolled for Support.
- The Radiation Leak BFC does not affect the Suicide Squad team ability.
- If Radiation Leak is in play when someone uses Regeneration or Support within the special object Indigo Lantern's area of effect, players would subtract 2 from their dice roll (i.e., the two effects cancel each other out).

RALLY

- This card reads "defeated" instead of "eliminated".

SHRUNK

- Any power or effect that indicates it functions based on a certain number of squares is also considered to have a range for purposes of this BFC.
- If Shrunk is in play with Deep Shadows, the range would first be limited by Deep Shadows and then halved by Shrunk.

SKYSCRAPERS

- This card cannot be played if any of the starting areas is made up exclusively of elevated terrain.

TELEKINETIC STRAIN

- This card begins: "When Telekinesis is used to place a character or object 6 or more squares away from its starting square, the character using Telekinesis is dealt 1 unavoidable damage after the action resolves."

WAR ZONE

- If Radiation Leak and War Zone are in play at the same time, War Zone takes precedence over Radiation Leak when using the Support power. Radiation Leak requires a die roll, but due to War Zone being in play no die is ever rolled for Support.

WHITE NOISE

- The Probability Control power cannot be used to force a reroll of a die roll caused by the White Noise Feat card.

Section 9 Feats†

General Clarifications

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be functionally different from a legal WizKids-released version of the element.
- While the points for feats add to the overall force build total, they do not add to a character's point value.
- A copy of each feat card that requires you to choose a character must be included on your force.
- Any Feat cards that are published with the same name as a previous one override all of the text on the previously published card.
- The following feat cards are banned as they have been replaced by an Additional Team Ability card: Alpha Flight, Amazon, Checkmate, Fantastic Four, Green Lantern Corps, Guardians of the Galaxy, Justice League International, League of Assassins, Legionnaires, Monster Society of Evil, Runaways, The Society, Squadron Supreme, and Thunderbolts

ALIAS

- The feat is considered "used" as soon as the character has rolled for Shape Change. If a player opts to use the feat, but other game effects occur such that the character is not targeted prior to rolling for Alias (e.g., the Skrulls team ability) then the feat is not considered used and is not discarded.

AMBIDEXTROUS

- The cost of this feat reads "Cost: Twice the assigned character's printed range value. (Minimum cost 12)"

AND STAY DOWN

- The feat reads: "When the character makes a close combat attack without using an object, an attack roll result of 11 or 12 is a critical hit."

AUTOMATIC REGENERATION

- Replace the text on the card with: "Once, at the beginning of your turn, this character uses Regeneration as a free action."

BRILLIANT TACTICIAN

- When affecting friendly characters with Brilliant Tactician, different combat values may be modified per each character affected.
- Wild card characters cannot use the Brilliant Tactician's team ability in order to qualify for the extra perplexing. They must share either the team symbol or a keyword.
- Any character that the Brilliant Tactician can draw a line of fire to can be the initial target of Perplex. The team symbol/keyword requirement is only for characters perplexed after that.
- Perplex can only be used once on each character by the Brilliant Tactician. A target cannot be chosen for the initial perplex as well as the follow up perplex (if the team symbol or keyword was shared)

CAMOUFLAGE

- A character against the edge of elevated terrain (a building) does not gain the benefits from Camouflage, as elevated terrain is not blocking terrain or a wall. In order for Camouflage to work, the character would also need to be adjacent to blocking terrain or a wall.
- A character using this feat would still have lines of fire to it blocked when targeted by a character that is ignoring terrain or other characters for line of fire purposes.

CANNONBALL

- The first sentence reads: "When the character is on elevated terrain, it can move to the next lowest elevation without using a ladder or stairs."

COMPEL

- The figure that is the target of the mind control must have taken a tokenable action this turn in order for it to be a target. Free actions would not qualify.
- A character with multiple targets cannot target any opposing figures when attempting to Compel a friendly figure. It may only target a single friendly character.

CONSTRUCT

- Any opposing character adjacent to the Barrier needs to roll a break away if it is moving or being moved away from the Barrier.
- Only characters that are being given an action that involves movement are given action tokens. Characters that are adjacent to the Barrier and are being moved without being given an action are not given an action token for making the break away roll.

CONTINGENCY PLAN

- When tokens are removed from this feat, only one combat value can be modified for the tokens removed.
- Contingency Tokens are only removed from the card when they are used.

DAMAGE SHIELD

- Damage from Damage Shield is not an attack, and therefore will not trigger the effects of attacks such as the Mystics team ability or the Super Senses power.
- The prerequisite ability must be something the character can use at the time of the attack in order to use Damage Shield.
- Damage dealt from Damage Shield is normal damage, so damage reducing powers would reduce this damage accordingly.

DARKNESS WITHIN

- Replace the first line of the card with: "(Optional) Once per turn immediately before this character makes an attack, deal 1 pushing damage that ignores Willpower and team abilities to a single target friendly character adjacent to the character; this is not an attack."
- The pushing damage is dealt to the adjacent friendly character after the action is declared but before the attack is made. The characters must be adjacent at the time of the attack.

DISASSEMBLE

- The last sentence reads: "...you may remove one of the target objects from the game after the action is resolved and replace it...".

DISINTEGRATE

- The text reads: "Choose a character. When the character is given a close combat action, before making the close combat attack, remove from the game an object adjacent to the character or an object held by a character adjacent to the character."

DISSENT

- If a team ability is outwitted, any wild cards that were using the team ability from the affected character may no longer use copied team ability (unless there is another friendly character from whom they can be using that team ability).

- This card does not include the phrase “as if that team ability were a power, instead of countering a power.”

DIVEBOMB

- This feat is based around the Soaring rules, which have been removed from supported HeroClix play.
- Divebomb is specific that it can only target grounded characters. Elevated characters cannot be targeted with this feat.

DRAG

- The last sentence reads: "If the target is not a flying character and occupied a square of elevated terrain, and then was placed in a square on a lower elevation, deal it 2 damage after being placed."

ELITE SNIPER

- This feat includes the line: “The character can use the Sharpshooter ability.”

ENDURANCE

- Modify the second sentence in the main paragraph to say “If there are endurance tokens on this card when the character is given a non-free action, after the action resolves, roll a d6.”
- One endurance token is placed on the card for each pushing damage dealt to the character.
- There are many feats that deal pushing damage as a cost for using it – Endurance can be used to prevent that damage as well – one token is placed on the card for each pushing damage dealt.
- If the character loses the prerequisites for this card while tokens are on the card, the character no longer needs to roll for potential damage, though the tokens are not removed.

ENTANGLE

- If a character with Charge rolls a 1 or 2 when targeting someone with this feat, the character would have moved and would remain where it is.
- If a character with Hypersonic Speed or the Move-and-Attack ability rolls a 1 or 2 when targeting someone with this feat, they would be able to complete their movement and would still not receive a token, however they would not be able to perform any other action this turn.
- If a character with Flurry rolls a 1 or 2 when targeting someone with this ability on the first attack, they would end their action with no token. They would need to roll again for the second attack (assuming they were not prevented on the first one).
- If the Entangle character also has a power or ability (Shape Change, Skrull, etc.) that can prevent the attack, Entangle goes after those powers. Shape Change, Skrulls, Danger Girl, etc all function when the character is chosen as a target. Entangle occurs before the attack.
- If a character already has a token and pushes to attack an Entangle character and rolls a 1 or 2, they would be cleared at the end of the turn (as they received no tokens this turn).
- When a character rolls a 1 or 2 against an Entangle character, although they do not get an action token, the action still counts as one assigned from the player’s action pool for the turn.

ENTRENCH

- A character ignoring a critical hit would not automatically succeed with the attack, would not add 1 to the damage dealt and, if the Critical Strike BFC was in play, would not have the option of using the tokens on the card.

EXTENDED RANGE

- Replace the text on the card with: “Before making a ranged combat attack, the character's range may be increased for the duration of the attack by a number of squares up to its unmodified damage value. For each square the range of an attack is increased,

decrease the damage value by 1 (after all other modifiers and replacements) when resolving the attack. An attack using Incapacitate does not place any action tokens on the target.”

- When this feat is used with Pulse Wave (and multiple targets) first, halve the character’s range (as per the power). Next, increase range based on the unmodified damage value (as per the feat). The damage value is then replaced to 1 (as per the power). Finally, the damage value is then decreased by 1 (as per the feat), but the locking of the damage value (as per the power) ignores this modifier making the normal damage dealt 1. Other factors can come into play (e.g., critical hits) to increase this.
- When this feat is used with Energy Explosion, range is increased based on the unmodified damage value. While the damage value is decreased by 1, when targets are hit with Energy Explosion, they are dealt damage based on the number of times they are hit (not based on the damage value), so the penalty of Extended Range would have no impact.
- When this feat is used with Mind Control, range can be increased with no penalty as there is no damage dealt from a Mind Control attack. If a character has a 0 range, this feat cannot be used to increase the 4 range granted as a default by the Mind Control power.

FASTBALL SPECIAL

- Replace the second line with: “Give both characters a power action when they are adjacent: The first character must have Super Strength and the second character must be a character without Flight, have Toughness and may not have a damage value higher than 3.”
- A figure that is carrying an object cannot be “thrown” as part of the Fastball Special.

FORCE FIELD

- This feat reads: “When this character cannot use a power or ability that reduces damage, this character may use Toughness.”
- The character that meets the prerequisites and is assigned the feat is the one that can use Toughness.
- The Toughness that can be used through Force Field cannot be used to meet the prerequisite for another feat when the force is constructed.

HEIGHTENED REFLEXES

- Replace the phrase “transporter move and attack ability” with “Move and Attack ability” in the first sentence.

HOMING DEVICE

- When assigned to a non-standard character, the character can use this feat and would not suffer the modifier penalty (as they do not have that icon on their base).

IMPROVISE

- A roll of double ones would no longer be considered a critical miss. It would automatically hit the target and the attacking character would not take one damage.

IN CONTACT WITH ORACLE

- If Oracle is removed from the battlefield and placed on the In Contact With Oracle feat card her team ability cannot be copied by figures with wildcard team abilities. It may be selected by a wild card under the effect of the Loyalty BFC.
- Free actions may not be used to give an Agent the +1 to its combat values.
- When an Agent already has a power showing on its dial that Oracle has, it may not be granted that same power from Oracle.
- Oracle causes the Agent to possess the power that is showing on her dial. If the Agent is KO'd, the effects of the power are lost.

- The power action given to an Agent to use one of Oracle's powers is given for that effect only. You cannot assign a power action for, say, Charge, and click Oracle's dial and then use Charge.
- Only one Oracle figure may be placed on the card.

INFILTRATE

- Characters using this feat would not need to roll break away because they begin to move while adjacent to an opposing character.

INSPIRING COMMAND

- Inspiring Command may only be used to prevent the push damage that occurs from placing a second token on a character. It may not be used to prevent the push damage that is given as a result of using powers, abilities, or feats.

INVIGORATE

- The last sentence reads "Characters that have action tokens removed from them can't be given power actions the same turn this feat is used." This means that a character given a power action already cannot have its token removed. It also means that a character with a token removed cannot then be given a power action.

LAZARUS PIT

- Until the character that has Lazarus Pit assigned to it is returned to the battlefield, no other character may be placed in the square with the Special marker.
- Lazarus Pit may not be assigned to colossal characters.
- When a multi-based character assigned the Lazarus Pit Feat Card is KOD, place a Special marker in each of the squares that the character occupied when it was KOD.

LIFE MODEL DECOY

- The last sentence says "Damage dealt to this character is reduced by 1 if it is not reduced or ignored by any other effect."

LOOK! UP IN THE SKY

- The part of this feat referring to soaring refers to an obsolete mechanic and has no current effect.

LUCKY BREAK

- If Lucky Break is used, the player using it cannot use Probability Control on the re-rolled die roll that resulted from Lucky Break. An opposing player may use Probability Control on that re-rolled die roll. Only that single re-rolled die would be re-rolled again with Probability Control.

LUNGE

- To use this feat: (1) Announce the action the character will take, even if it is not a legal action from its current position, as long as it can include a close combat attack for step 3. (2) Move the character from its current square to another square up to 2 squares away. (3) Perform the close combat attack.
- The word "immediately" appears before the phrase "before it makes a close combat attack".
- The 2 squares of movement is a limitation, not a requirement or an ability to move more than what the character might normally be able to move.

MANEUVER

- This feat begins "When the character makes a close combat attack against a single target opposing character."
- The prerequisites for this feat indicate that the assigned character must at some point on their dial have either the boot speed symbol, the power Combat Reflexes, or the power Close Combat Expert. Any one of the 3 would suffice.

- Knock back takes place during the attack. Therefore, a character knocked back by this attack would be knocked back first, possibly dealt damage from knock back, and then repositioned via Maneuver.

MENTAL SHIELDS

- If a character with this feat can target multiple characters, they can choose to not use the feat and try to Mind Control the multiple characters. When this is done, all effects of the feat – including the prevention of feedback damage – are not being used.

MERCENARY

- Ignore the last (repeated) sentence on the card.
- The last two sentences of this feat reads: "The team ability cannot be a wild card, must be usable by wild cards and cannot be an Additional Team Ability. The character is a wild card that can only use the chosen team ability when adjacent to a friendly character possessing that team ability and a higher point value."
- The Mercenary must be adjacent to a character that possesses the team ability – it is not enough for the Mercenary to be adjacent to a character using the team ability, like a Wildcard.
- In order to use the team ability, the Mercenary must begin its action adjacent to the higher point character.
- If a character has a special power that allows them to possess a team ability, they can count toward the number of characters on the team when determining the cost of Mercenary.
- The cost of the card must be selected as a part of building your force. Once a cost has been selected, you must choose a team that meets that point value – you cannot choose a team that is over or under the point value. If a player wants complete flexibility to choose any team ability on their team, they can choose to pay the full 25 points for the card. For example, a team with a non-TA character, one Batman Ally, one Superman Ally, and 2 Mystics, you can choose to put Mercenary on the non-TA character as
 - A 15 point cost – this would require that when you declared the Mercenary's team ability at the start of the game, you would have to select Mystics as that is the only team available for that cost.
 - A 20 point cost – this would require that when you declared the Mercenary's team ability at the start of the game, you could select either Batman Ally or Superman Ally – you would not be able to select Mystics
 - A 25 point cost – this would allow you to choose any of the three team abilities at the start of the game, but you would not get any point bonus for having members of the team on your force.

MONSTER HUNTER

- See Section 1, Modifiers

NANOARMOR

- The damage dealt to a character when an object "explodes" from Proximity Mines is not from an object and cannot be ignored by NanoArmor.
- The damage dealt from Laser Turret or Broken Drone is considered from an object and would be ignored.
- If hit with the Light Post, although the character would ignore the damage dealt, it would still be subject to the Incapacitate effect.
- If hit with a Meteorite, this character would ignore the increase to the damage value that the object supplied, however the remaining damage dealt would still become damage taken without further modification.

NANOBOTS

- Nanobots requires you give the character a free action, therefore it cannot be given in the middle of another action.
- Nanobots can be used even if the assigned character is on their starting click.
- Adjacency to an object is different from occupying the same square as an object. If a character occupies the same square as an object, they cannot use Nanobots to remove it nor would they prevent another character from using Nanobots to remove the object.
- The text reads: "Choose a character. When this character is the only character adjacent to an object not being held by a character, give the character a free action and remove the object from the game. Heal the character of 2 damage."

OPPORTUNIST

- Using tokens from this card does not change the nature of the roll. Double ones is still a critical miss. You need to roll double sixes in order to get a critical hit (making the roll 12 does not make it so). Knock back occurs if the roll is doubles, even if you need to use Opportunist tokens to make the attack hit.

OUTSMART

- If multiple characters are targeted in a single occurrence of countering, 2d6 would be rolled by each player for each character that is affected.

PASSENGER

- The second sentence reads "When this character uses Leap/Climb or Phasing/Teleport, it may use the Carry ability."

POUNCE

- If a character is adjacent to an opposing character, it must roll break away in order to Pounce.
- Objects do not alter a character's damage value until it is used in a successful attack. Therefore, objects – carried or picked up during the action that includes the attack – would not violate the prerequisite of this feat.
- Pounce requires you give the character a power action to make a close combat attack. You may therefore not use Leap/Climb during this action (which has one effect that is relevant for move actions and another effect that is relevant for close combat actions).
- Powers that require close combat actions – like Blades/Claws/Fangs – cannot be used with Pounce (which only grants a close combat attack)
- If the action has been given, the unavoidable damage will be given to the figure even if the action ends without an attack taking place.

POWER BARRAGE

- The second sentence of this feat begins: "If this character possesses Blades/Claws/Fangs, Energy Explosion, Pulse Wave, Quake, Incapacitate, Penetrating/Psychic Blast or Telekinesis and uses it as an attack, after actions resolve..."

PROTECTED

- Protected can be used to prevent the damage of a single action which results in an attack. It can be used against a successful hit from Flurry or Multiattack, but would then not be able to be used against the follow up attack (assuming that attack was successful as well).
- Protected and Impervious both function against damage dealt. They can be used in either order.

- If the damage dealt to the Protected character comes via Mastermind, Protected cannot be used to ignore the damage as it is not the result of an action.
- The first sentence of the effect reads "If the character does not already have two action tokens on it, damage dealt to the character as a result of a single attack is ignored."

REPULSOR

- This feat does not have any effect on characters immune from knock back.

RIP IT UP

- Special Object tokens and 3D objects cannot be given to a character when using Rip It Up.

SABOTEUR

- Saboteur may be assigned to characters that have a team ability that normally cannot be copied. Opposing wild cards would then be able to use that team ability.
- When a character with an ATA is assigned this feat, only the team ability granted by the character's team symbol can be copied by the opposing wild cards.
- An ATA does not meet the prerequisite for this feat card.

SHAKE OFF

- A character that automatically breaks away deals no damage with the Shake Off feat (this includes when using Phasing/Teleport). A break away roll is required to use Shake Off.
- A character that automatically breaks away but has to roll for break away due to some other condition (like Construct) can deal damage with Shake Off.

SHELLHEAD

- Shellhead cannot be used by characters with the  damage symbol.

SIDEKICK

- Replace the last line of the card with: "(Optional) The second character uses the first character's unmodified defense value instead of its own when it is attacked by an opposing character." (the carrying restriction of the card is not optional)
- The two characters assigned Sidekick may never carry one another.
- A character can only be assigned each feat once, so you cannot "chain" defense values by giving the first sidekick a sidekick of its own.

SIDESTEP

- The 4 squares of movement is a limitation, not a requirement or an ability to move more than what the character might normally be able to move.

SIPHON POWER

- A character with Siphon Power cannot use team abilities that wild cards cannot normally copy.
- If an opposing character is using the Saboteur feat card, the character with Siphon Power may only choose the team ability of the character with Saboteur. If the opposing character with Saboteur had a team ability that wild cards cannot normally copy, the character with Siphon Power will be able to use that team ability.
- A character with Siphon Power may not have the team ability it is using copied by wild card characters.
- Wild cards may not copy the rewritten team ability that Siphon Power grants.

SKULLDUGGERY

- In order for a roll to be made for a possible token, there must be a target opposing character being dealt damage. If the damage is dealt from an untargeted attack (Pulse Wave, Poison, etc.) then the roll would not take place.
- The damage dealt to the target opposing character is the final damage dealt after all modifiers have been considered, including critical hits and damage reducing powers.
- STUNNING BLOW When using this feat, the attack deals damage instead of being a “no damage” attack.

STARSTRUCK ADMIRER

- This feat includes the line: “After this feat is used, remove it from the game.”

SUBMERGED

- Water terrain is not hindering terrain. A character ignoring hindering terrain for Line of Fire purposes would not ignore Submerged.

TACTICS

- A roll of 3-4 would grant one action that must be used by a character with the same team symbol.
- A roll of 5-6 will grant two actions, one provided by Leadership and one provided by Tactics that can only be used by a friendly character that shares the same team symbol as the character with Tactics.
- If a force contains multiple characters with Leadership assigned multiple Tactics feat cards, the force may gain the extra action for the team ability provided by the feat for each copy of the feat in play.

TAUNT

- The player that controls the character affected by Taunt chooses the character’s action and when that action is given during his turn.
- If the controlling player decides to move the character affected by Taunt, the character must use as much of its full movement as possible in an attempt to reach the figure that performed the Taunt action. Any additional movement may be used (such as with HSS or the transporter move & attack ability) by the character affected by Taunt after it has become adjacent to the character with Taunt.
- Any movement made must be towards the figure that performed the Taunt action, following the shortest possible path.
- If the figure that performed the Taunt action is KO’d before the character affected by Taunt can perform its action, the Taunt is ignored (as there is no valid target for the Taunted fig to move towards or attack).
- If the character affected by Taunt is given an action, it must be one that satisfies the conditions of Taunt (either moving towards or attacking the character with Taunt).
- If the character affected by Taunt can legally be given an action that satisfies the conditions of the Feat, it must be given that action, even if that action would only result in a movement of 0.
- Colossal figures can be affected by Taunt.

TELEKINETIC REACH

- The body of this feat reads: “When using Telekinesis, if A is within 6 squares and is an object, B may be up to 10 squares from A. All other rules for Telekinesis apply normally.”

THWART

- A card is considered “assigned” if the character is (a) the character chosen for the “choose a character” feats or (b) it meets the prerequisites of a feat that is not “choose a character”

- When a power action is given to remove a thwart token, the feat will only return after the power action has completed.
- Once a feat has a Thwart token, the only way to remove that token is to (a) give a qualifying character a power action to remove it or (b) use Thwart against the character who caused the Thwart token to be placed (placing a Thwart token on their Thwart card). If the original Thwarter is KO’d or loses the prerequisites for this feat, then the Thwart token(s) remain on the target cards.
- A player can choose to Thwart their own feats.
- If a feat with a Thwart token has tokens on it from its normal affect, like with Endurance, those tokens would remain on the card while the Thwart token is on the card (and remains on it when the character takes a power action to remove the Thwart token).

TOXIC BURST

- Characters choosing to use Toxic Burst must be able to draw a line of fire to each character. Stealth and team abilities that duplicate the effects of Stealth affect line of fire normally, even if adjacent to the character using Toxic Burst.
- Toxic Burst does not give the character a “Range of 2”. Adjacency still requires figures to be at the same elevation.

TRICK SHOT

- Replace the text on the card with: “When making an attack from a square that is not adjacent to an opposing character, this character ignores Stealth and team abilities that duplicate the effects of Stealth, and it ignores characters and hindering terrain for line of fire purposes.”

VAMPIRISM

- This feat reads: “Choose a character. The character can use Steal Energy if it can’t already.”

WARBOUND

- Once a character has been given a non-free action, they cannot be given another non-free action on the same turn, even though the token was placed on someone else. Similarly, a character who has received an action token through Warbound can still be given a non-free action the same turn.
- Adjacency is required for the 2 characters when the action is given. If the characters are not adjacent at the end of the action, the token may still be assigned to the qualifying character.

[This page is intentionally left blank.]

Section 10 Objects

General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be different from a legal WizKids-released version of the element. This policy does not apply to 3D elements, though it does apply to the card that accompanies it.
- 3D objects are not legal for sealed events unless otherwise specified by the Judge running the event.
- When building a force, players may choose 0-3 objects. Based on the number of objects a player chooses they can include:
 - 1 object – any type (heavy, light, or immobile)
 - 2 objects – any two types that are not the same
 - 3 objects – one can be any type, the other two must be a heavy and a light.
- In a sealed game, players may only use objects that are drawn from a booster supplemented by any standard objects. A player's object pool must still conform to force building rules.
- All special objects are treated as Unique for force construction.
- The 3D objects from the Adventure Kits (Bookcase, Computer, Crate, Dumpster, Light Post, Mailbox, Office Desk, and Soda Machine) have the special object "gear" symbol and the keyword "continual". †
- It is possible for multiple objects to exist in the same square. When this happens, each object is treated individually.
- Blocking terrain, walls, or character bases do not block the area of effect of a Special Object but will block the line of fire to and from a Special Object per the standard line of fire rules.
- The effects of objects placed on character cards only apply until the object is returned to the map.
- ~~The phrase "This object has no effect when held." Applies only to the special properties of the object and not to the standard bonuses of an object.~~

AERIAL BAFFLER†

- A character that gains Earthbound as a result of the Aerial Baffler may be carried. However, that character will regain flight as soon as it leaves the Aerial Baffler's area of effect and must be dropped at that point.
- A character gains Earthbound as soon as it enters into the Aerial Baffler's area of effect. A character may continue its movement after entering the area of effect of the Aerial Baffler, but would do so as a non-flier.
- ~~The special properties of this object are ignored while this object is held. This object has no effect when held.~~

BLUE LANTERN

- Blue Lantern's effect only increases range values when using Barrier.
- Blue Lantern's effect ends "...if they can already use Telekinesis."

BOOKCASE†

- This object ends with "when used in an attack".

BROKEN DRONE†

- The first sentence begins: "While a character is holding this object..."

BUCKET OF WATER

- The effect of this object begins: "When not held..."

COMPUTER†

- This object ends with "when used in an attack".

CRATE†

- This object can be used for 10 squares instead of 8.

DARK CAULDRON†

- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

DYNAMOSTAT†

- Dynamostat's effect reads: "This object is considered to be blocking terrain until it is destroyed, but it may be picked up and moved normally."
- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

ELEHA'AL VINE†

- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

FING FANG FOOM'S FINGER

- This 3D object is not a special object – it is a standard heavy object.

FORCE FIELD GENERATOR†

- Once the character has used Barrier as a result of this object, adjacency to the object is no longer required in order for the Barrier tokens to remain. Only destroying the object, the terrain or the beginning of the player's turn will cause the Barrier tokens to be removed from play.
- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

FUEL TANK†

- ~~This special object should have the keyword "Continual" on it.~~
- If the Fuel Tank is used to destroy a wall or square of blocking terrain during a close combat attack, all characters adjacent to the targeted section of terrain will be dealt damage from the Fuel Tank.

KINETIC ABSORBER†

- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

KINETIC ACCELERATOR†

- This card includes the sentence: "If the roll does not allow the given action to be performed against any targets, the action ends immediately."
- If a character is given an action that would require them to replace their speed value (e.g., Charge or Running Shot) while they occupy the same square as the Kinetic Accelerator, both replacements occur at the same time and therefore the active player can choose which effect goes first. If the roll makes it so that the given action cannot be performed, the character is assigned a token for the action and not moved.

LASER TURRET†

- Replace the text on the card with: "(optional) Once during your turn (but not during another action) when a character friendly to you occupies this object's square, give this object a free action to make a ranged combat attack (8, 2, 4) against any opposing figure."
- The Laser Turret may make an attack against any opposing character within range, regardless of adjacency.

- When making an attack with the Laser Turret, any adverse effects that can normally result from the attack (such as damage from the Mystics team ability or a critical miss) are dealt to the Laser Turret and not the character using the Laser Turret.
- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

LIGHT POST†

- The Light Post object does not add an action token to a colossal figure.

MAILBOX†

- This object ends with “when used in an attack”.

METEORITE†

- Meteorite is subject to the Rule of 3. A die roll of 6 will add 3 (and not 4) to the attacker’s unmodified damage value due to the Rule of 3.
- Due to the last line of the text, powers, abilities, or other effects that reduce damage dealt cannot be used to reduce the damage dealt by Meteorite. Likewise, a critical hit will not increase the damage dealt.

MJOLNIR

- The phrase “place it on that character’s card.” is simply indicating that the object is taken off the map and placed somewhere to indicate that this is the character that has it. Players can use any acceptable method to simulate this when using a character without a character card.
- The silver version of this 3D object is not a special object – it is a standard heavy object.

OFFICE DESK†

- The first sentence reads: “May be used as a normal light object, or may increase the holding character’s defense value by 2.”

OPENED HYDRANT†

- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

SATELLITE†

- The first sentence reads: “Give a character holding this object a power action.”

SEPARATION FIELD GENERATOR†

- This object reads: “A character holding an object or carrying a character immediately drops it into an adjacent square when 3 or fewer squares from this object. The carrying or holding character may continue its move. Objects can not be picked up by characters that are 3 or fewer squares from this object.”

SHIELD DISRUPTOR†

- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

SODA MACHINE†

- This object ends with “when used in an attack”.

STEP LADDER†

- This object begins with: “When this object occupies a square adjacent to a square of higher elevation...”

STRUCTURAL INTEGRITY FIELD†

- This special object begins: “Blocking terrain (but not blocking terrain markers) and walls...”.
- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

TELEPHONE BOOTH†

- This special object should read “Once per turn per character, a character occupying the same square as this object can be dealt 1 unavoidable damage as a free action.”
- ~~Special properties of this object are ignored while it is held. This object has no effect when held.~~

TELEPORT PAD†

- A character using the Teleport Pad may pick up and hold a character or object when moving via the Teleport Pad, if they could normally do so.

TOMBSTONE†

- ~~Tombstone reads: “The defense value of a character holding a Tombstone is modified by +2. After the resolution of an unsuccessful attack against a character holding a Tombstone, remove Tombstone from the game.” The first sentence reads: “The defense value of a character carrying holding a Tombstone is modified by +2.”~~

Section 11 Maps

General

Map Type

- A map which does not have a designation of outdoor, indoor, or indoor/outdoor is an outdoor map unless it also includes the yellow lines for indoor terrain, in which case it is an indoor/outdoor map.
- A map labeled as outdoor/indoor follows the rules for an indoor/outdoor map.

Orange Squares/Circles

- Orange squares/circles are clear terrain unless anything in the special rules for that map and/or other effects change them. Placing an object in an orange square (assuming the rules for that map permit it) would make the square act as hindering, but would not remove the properties the special rules for the map provide for it.

Tournament Legality

- Official HeroClix maps without the modern color designations are retired. Official HeroClix maps with the modern color designations are never retired.

Specific Maps

Blackest Night Starter

- The last sentence of the special rules reads: “When placing objects at the beginning of the game, each player must place their first two objects (if any) on squares within an orange boundary line.”
- Missing gridlines should be considered to be printed on the map. This affects areas B3-E6, L3-O6, B11-D14, G11-J14, and M11-O16.
- Any angled door is considered open, clear terrain. There is no wall along the edge of the following squares: E2, O2, A3, K3, F6, P6, B7, L7, E18, O18, A19, K19, F22, P22, B23 and L23.
- The 2 Armories and the Control Room are surrounded by walls. The only openings are along the edges of the following squares: E12, K12, L12, E13, F13, and L13.
- The line that runs between rows 8 and 9 is a wall except for H8-J9 (which is all hindering terrain)
- The line that runs between rows 16 and 17 is a wall except for G16-I17 (which is all hindering terrain)
- This map is an Indoor map.

DC Starter Set Map A – Indoor, “The Office” †

- The elevated terrain surrounding the “car crusher” (squares M12-P12 & M13-P13) does not block the line of fire from colossal to those squares.

DC Legion of Super Heroes Map – “Central Port”

- In order to use the transmatter gates to teleport, the character given the action must end its action (including placing the token and taking push damage) occupying a square with a gate and may then be placed in a different gate.
- Only the character given the action may use the gate. Carrying another figure and placing them on the gate does not allow them to be placed in a square of a different gate.
- In the case of a character being targeted by Mind Control, its free action must be resolved before the Mind Controlling character can elect to use the gate (if that character has ended its move or power action in a square with a gate). The Mind Controller itself would only be able to use a gate when the entire Mind Control action ends.

- The range value for a character using Hypersonic Speed is one quarter (halved per the description of the power and halved again for space terrain).
- The ranges for Outwit, Perplex, Probability Control, Telekinesis, etc are not affected by space terrain as they do not rely on the character’s range value.

Section 12 Powers

Barrier

Give this character a power action; place up to four blocking terrain markers in adjacent squares of clear terrain that are all within this character's range (minimum range value 1). At least one of the terrain markers must be within line of fire when it is placed. The terrain markers remain until the beginning of your next turn.

Battle Fury

This character ignores Shape Change, can't make ranged combat attacks, can't be targeted by Mind Control or Incapacitate, and can't be carried.

Blades/Claws/Fangs

When this character is given a close combat action, you may roll a d6 after making a successful attack roll. The result replaces this character's damage value, then that damage value is locked.

Charge

Give this character a power action; halve its speed value for the action. Move this character up to its speed value and then it may be given a close combat action as a free action. A character using this power ignores knock back.

Close Combat Expert

Give this character a power action. It makes a close combat attack against a single opposing target character; modify this character's damage value by +2 for the attack.

Combat Reflexes

Modify this character's defense value by +2 against close combat attacks. When this character takes damage from an attack, it may choose to be knocked back. This character ignores knock back damage.

Defend

Any adjacent friendly character may replace its defense value with this character's unmodified defense value.

Earthbound/Neutralized

This character can't use combat abilities and possesses ,  instead of its combat symbols. This power can't be countered or ignored.

Energy Explosion

Give this character a ranged combat action to make an attack that deals no damage. For each target character successfully hit, all adjacent characters are attacked as well. Each character hit is dealt damage equal to the number of times it was hit by this attack (characters adjacent to multiple targets might be hit more than once). Critical hits deal 1 additional damage to all characters hit.

Energy Shield/Deflection

Modify this character's defense value by +2 against ranged combat attacks.

Enhancement

When an adjacent friendly character makes a ranged combat attack, this character modifies the adjacent friendly character's damage value by +1.

Exploit Weakness

Give this character a close combat action. Damage from the attack is penetrating damage.

Flurry

Give this character a close combat action. After the close combat attack resolves, it may make a second close combat attack as a free action. If this character loses Flurry before it makes the second attack, it can't make the second attack.

Force Blast

Give this character a power action and roll a d6; a single adjacent opposing character is knocked back from this character a number of squares equal to the result.

Hypersonic Speed

Give this character a power action and move it up to its speed value. It automatically breaks away and can move through squares adjacent to opposing characters. During its move, this character may as a free action make one close combat or ranged combat attack with its range value halved for the attack. This character must be in a square where it could legally end its move in order to make the attack.

Impervious

When this character is dealt damage, roll a d6. On a result of 5 or 6, the damage dealt is reduced to 0. On a result of 1–4, the damage dealt is reduced by 2.

Incapacitate

Give this character a close combat or ranged combat action to make an attack that deals no damage. If the attack hits, give the target an action token.

Invulnerability

Damage dealt to this character is reduced by 2.

Leadership

At the beginning of your turn, give this character a free action and roll a d6. On a result of 5–6, add one action to your action total for that turn and this character may remove an action token from an adjacent friendly character with a lower point value.

Leap/Climb

Give this character a move action and move it up to its speed value. It automatically breaks away, may move through squares adjacent to and occupied by opposing figures, and ignores the effects of hindering terrain, elevated terrain, and outdoor blocking terrain on movement. When you give this character a close combat action, it may target a character regardless of the target's elevation.

Mastermind

When this character would be dealt damage, you may instead choose to have all the damage be dealt to a single adjacent friendly character with a point value less than this character's. Any additional effects of the damage dealt (knock back, penetrating damage, etc.) are applied to the character taking the damage. Damage dealt by this power is not an attack.

Mind Control

Give this character a power action; it makes a close combat or ranged combat attack (minimum range value 4) as a free action that deals no damage. A successfully hit target becomes friendly to your force. Each target hit may be assigned one action as a free action, immediately after which the target becomes an opposing character again. Deal this character 1 unavoidable damage for each 100 points of the successfully hit targets' combined point value.

Outwit

Give this character a free action to counter a power or a combat ability possessed by a single target opposing character until the beginning of your next turn. Any game effects with a duration specified by the countered power or combat ability are removed. A character using this power must be within 10 squares and line of fire to the target.

Penetrating/Psychic Blast

Give this character a ranged combat action. Damage from the attack is penetrating damage.

Perplex

Give this character a free action to modify by +1 or -1 any combat value of a target character until the beginning of your next turn. A character using this power must be within 10 squares and line of fire to the target. If a target character is damaged or healed, the effect of Perplex on that character ends immediately.

Phasing/Teleport

Give this character a move action and move it up to its speed value. It ignores the effects of characters and terrain on movement.

Plasticity

This character adds 2 to its d6 roll when breaking away. Opposing characters subtract 2 from their d6 roll when breaking away from this character.

Poison

At the beginning of your turn, give this character a free action and deal 1 damage to each adjacent opposing character.

Probability Control

Once during your turn, this character allows you to reroll one of your rolls, ignoring the original roll. A character using this power must be within 10 squares and line of fire to the character for which the original roll was made. Using the same rules, once per round during an opponent's turn, this character allows you to force that opponent to reroll one of their rolls, ignoring the original roll.

Pulse Wave

Give this character a ranged combat action; halve its range value until the action has been resolved. Draw lines of fire to all characters within range in every direction; these lines of fire are only blocked by walls, blocking and elevated terrain. All game effects possessed or used by other characters with a line of fire drawn to them are ignored until the action has been resolved. At least one opposing character must have a line of fire drawn to it to activate this power. If ignoring a game effect would cause a character with a line of fire drawn to it to no longer have a line of fire drawn to it, then it is not ignored. If lines of fire can be drawn to two or more characters, this character's damage value becomes 1 and is locked. Make a single ranged combat attack (even if this character is adjacent to an opposing character) and compare the attack total to the defense value of all other characters with a line of fire drawn to it; each character hit is dealt damage.

Quake

Give this character a close combat action; this character's damage value becomes 2 and is locked. Make a close combat attack that targets all opposing characters this character can attack with a close combat attack. Each character that takes damage from this attack is knocked back.

Ranged Combat Expert

Give this character a power action. It makes a ranged combat attack against a single target character; modify its damage value by +2 for the attack.

Regeneration

Give this character a power action. Roll a d6 and subtract 2 from the result, minimum result 0. Heal this character of damage equal to the result.

Running Shot

Give this character a power action; halve its speed value for the action. Move this character up to its speed value and it may be given a ranged combat action as a free action.

Shape Change

When this character is chosen as the target of an attack, you may roll a d6. On a result of 5 or 6, the attacker can't target this character with an attack this turn and the attacker may choose another target character instead. The attacker then makes the attack unless there are no targets, in which case the action resolves without an attack.

Smoke Cloud

Give this character a power action; place up to four hindering terrain markers in distinct, adjacent squares that are all within this character's range (minimum range value 1). At least one of the terrain markers must be within line of fire when it is placed. The terrain markers remain until the beginning of your next turn.

Steal Energy

Each time an opposing character takes damage from a close combat attack made by this character, heal this character of 1 damage.

Stealth

When it is not your turn, hindered lines of fire drawn to this character are blocked.

Super Senses

When this character is hit by an attack, you may roll a d6 before damage is dealt. On a result of 5 or 6, this character evades the attack.

Super Strength

When this character moves due to its own action, it may pick up an object and hold it. The object must be either in a square the character occupies or in an adjacent square. If this power is lost or countered while this character is holding an object, immediately put the object in the square this character occupies. When this character makes a close combat attack targeting blocking terrain, a wall, or an object, modify its damage value by +2 for the attack.

Support

Give this character a power action and make an attack roll (that is not an attack) against an adjacent friendly character as though making a close combat attack. When using this power, neither this character nor the target can be adjacent to an opposing character; ignore all combat value modifiers for this action. If the attack roll succeeds, roll a d6 and subtract 2 from the result, minimum result 1. The target is healed of damage equal to the result.

Telekinesis

Give this character a power action and designate a target character or object (A) and a destination square (B). This character, A, and B must all be within 8 squares and line of fire of each other. Place A in B. If A is a character, it must be a single base character and possess the ✨ symbol. If A is an opposing

character, make a close or ranged combat attack that deals no damage against A, and only place the character in B if the target is hit. If A is an object and B is occupied by an opposing character, this character may make a ranged combat attack targeting the character occupying B, dealing object damage and destroying the object.

Toughness

Damage dealt to this character is reduced by 1.

Willpower

This character may ignore pushing damage.

[This page is intentionally left blank.]

Section 13 Abilities

Combat Abilities

Capture

Give this character a power action and make a close combat attack against a single target opposing character with the  damage symbol; targets with Phasing or Plasticity modify their defense values by +2 for the attack. If the attack succeeds, it deals no damage. The target character is captured instead, and is called a captive.

Remove all action tokens from a captive. Remove a captive from the battlefield until it is rescued (see below). While removed from the battlefield, a captive can't be dealt or take damage, and it can't be given actions.

If this character has three captives, it can't capture another character until at least one of the captives is rescued or released (see below), and it can't make close combat attacks.

If this character has any captives when it is knocked out, before removing this character from the game, the player who knocked out this character (including the player controlling this character if it was knocked out due to pushing damage or a similar effect) places each captive in an unoccupied square adjacent to this character's base and gives each an action token.

Releasing captives. When it occupies its starting area, this character can be given a power action to release one of its captives into an adjacent unoccupied square also in the starting area. A released captive is immediately defeated, and this character's player receives additional victory points for the released captive equal to 50 points or the released captive's point value, whichever is less. If the game ends and this character has captives, no player receives victory points for the captives. If this character captures the last opposing character, the game ends after that action resolves.

Rescuing captives. Characters friendly to a captive can attempt to rescue that captive. To do so, give a friendly character a power action; it makes a close combat or ranged combat attack against the target character that captured the captive. The target modifies its defense value by -1 for the attack for each of its captives. If the attack succeeds, the attack deals no damage; instead, the attacker chooses a friendly captive. The captive is rescued and put into an unoccupied square adjacent to the target of the attack. Give the rescued character an action token; it can be given an action in the same turn it is rescued, but it is pushed normally.

Countering Capture. When Capture would be countered, roll 2d6; if the result of the roll is not doubles, Capture is not countered. If Capture is countered, all captives of this character are rescued immediately.

Carry

When moving as a result of being given an action, this character may carry one friendly character. When this ability is used, modify this character's speed value by -2 until the end of the action. Only characters with a combination of the following symbols can be carried: , , , , , , , . If a character has any other combat symbols or is holding an object it cannot be carried. To be carried, the friendly character must be adjacent to this character at the beginning of this character's action. When this character ends its movement for the action, the carried character must be

placed in a square adjacent to this character. While being carried, a carried character is not adjacent to any character nor can it draw a line of fire until placed at the end of this character's movement for the action. A character which has been carried this turn can't be given an action (other than a free action) until the beginning of the next turn.

Colossal Stamina

This character automatically breaks away and can make ranged combat attacks against non-adjacent opposing characters when this character is adjacent to opposing characters. When this character has two action tokens, it can be given a non-free action. If you do, after actions resolve deal it 1 unavoidable damage and do not clear action tokens from it at the end of the turn. This ability can't be countered.

Duo Attack

Give this character a power action to make a duo attack. This character possesses  for this action. It makes a close or ranged combat attack as a free action. After the attack resolves, it may make an additional close or ranged combat attack as a free action with its damage value modified by -1 to a minimum of 1. If this character is defeated or loses Duo Attack as a result of the first attack, the second attack is not made.

Flight

This character ignores the effects of hindering terrain, elevated terrain, and outdoor blocking terrain on movement. A character using this ability can move through squares adjacent to and occupied by opposing characters without stopping, but must break away normally. An elevated character using this ability ignores knock back damage if its knock back path crosses the boundary to a lower level.

Giant Reach

This character ignores opposing characters' Plasticity and adds 1 to its d6 roll when breaking away. When this character is given a move action it can use the Carry ability. When this character is given an action that includes a close combat attack, all squares within a range of 2 and line of fire are considered adjacent. This ability can't be countered.

Great Size

This character can't be knocked back. When this character makes a close combat attack, it may target characters on higher elevations. This character ignores the effects of hindering terrain, elevated, and outdoor blocking terrain on movement and can move through squares adjacent to and occupied by smaller opposing characters. Smaller characters do not block line of fire to or from this character. This character may draw lines of fire (and have lines of fire drawn to it) as if the character occupied the elevation equal to or greater than the elevation it occupies, using the elevation level with the least restrictive line of fire. Characters with the  combat symbol are smaller than those with the  combat symbol who are smaller than ones with the  symbol. This ability can't be countered.

Indomitable

This character can use Willpower.

Move and Attack

This character can use Hypersonic Speed if it is not adjacent to an opposing character when given the power action, but its attack value is modified by -2.

Multiattack

Once per turn, give this character a power action. It can be given any two actions as free actions. Resolve the first free action before giving it the second. Modify this character's damage value by -1 to a minimum of 1. This ability can't be countered.

Sharpshooter

This character can make ranged combat attacks against adjacent opposing characters. When this character makes a ranged combat attack, it can ignore the effects of opposing characters on line of fire.

Swim

This character treats water terrain as clear terrain for movement purposes.

Trait Abilities

Throw a Grenade

Give the character a power action, decrease the number of grenades in your grenade pool by 1 (if greater than 0), and choose a type of grenade listed on this card. Choose a target square within 5 squares and line of fire (ignoring characters for line of fire purposes). Make a ranged combat attack targeting all characters occupying or adjacent to the target square. Deal damage to each character hit based only on the type of grenade chosen.

-  Flashbang (no damage): The target square for this grenade can be within 8 squares. Place an action token on all hit characters that have zero action tokens.
-  Frag (2 damage): A hit character in the target square is dealt 1 additional damage. Each other hit character is knocked back from the target square.
-  Ink (1 penetrating damage): Place a hindering terrain marker in the target square. At the beginning of your next turn, deal 1 additional penetrating damage to each character occupying the target or adjacent squares, then remove the marker.
-  Plasma (no damage): Mark a hit character in the target square. At the beginning of your next turn, deal 2 damage to the character marked in this way and 1 damage to all adjacent characters that are friendly to that character, then remove the marker.
-  Smoke (1 damage): Place a hindering terrain marker in the target square and up to two adjacent squares. Remove them at the beginning of your next turn. Characters occupying squares with these markers can't make ranged attacks.
-  Thermite (1 damage): Destroy up to 3 squares of blocking terrain or walls adjacent to the target square.

Legion of Super Heroes†

#002 Saturn Girl

✦ **Telepathic Coordination:** Once during your turn (but not during another action), as a free action Saturn Girl modifies by +2 the attack value or defense value of any other target friendly character for the duration of an action. Saturn Girl must be within 10 squares of and have a clear line of fire to the target.

#005 Phantom Girl

✦ **Disruption:** If Phantom Girl moves through or occupies the same square as an object, or at the end of a move action is adjacent to an object or an opposing character holding an object, you may remove that object from the game.

Avengers†

#001 Captain America

✦ **Followthrough:** When an attack by Captain America KOs an opposing character, he may immediately make a close combat attack against another adjacent opposing character as a free action.

#002 Iron Man

✦ **Full Power:** When Iron Man is given a ranged combat action targeting a single character, roll one d6 if the attack succeeds. The result replaces Iron Man's damage value for the attack. After the attack is resolved, Iron Man is dealt 2 unavoidable damage.

#006 Moon Knight

✦ **Multiple Personalities:** Moon Knight can use Close Combat Expert, Perplex (targeting only himself), or Ranged Combat

Expert. After resolving an action in which he uses one of these powers, deal Moon Knight 1 penetrating damage.

#007 Crossbones

✦ **Brainwash:** Crossbones can use Mind Control, but can target only an opposing character that has the same team symbol as a friendly character.

#013 Piledriver

✦ **Busting Heads:** Piledriver can use Flurry. If he successfully hits two different targets using Flurry, deal 1 damage to each target after the attacks are resolved.

#021 Toro

✦ **Firewall:** Toro can use Smoke Cloud. If all four hindering terrain markers placed by Toro using Smoke Cloud are placed adjacent to an opposing character, deal that character 1 damage.

#027 Vision

✦ **Self-Programming:** The Vision can use Perplex, but can target only itself.

#029 Taskmaster

✦ **Photographic Reflexes:** Before any attack roll, Taskmaster can replace his attack value or defense value with the unmodified value of the same type from an target character within 6 squares to which he has a clear line of fire. After the resolution of an action in which Taskmaster uses this power, roll one d6; if the result is less than or equal to the difference between Taskmaster's printed combat value and the replaced value, Taskmaster is dealt 1 unavoidable damage for each 100 points (or fraction thereof) of the target's point value.

✦ **Punch Like Cap, Shoot Like Hawkeye:** Taskmaster can use Close Combat Expert and Ranged Combat Expert.

#032 Red Skull

✦ **Cosmic Cube:** The Red Skull can use Outwit, Perplex, and Probability Control. When this power is used, roll one d6 (after the action resolves, when applicable). On a result of 1-3 deal 1 unavoidable damage to Red Skull.

#036 Falcon

Section 20 Maps

Airport Terminal

Orange squares are moving walkways. This placement starts with the character closest to the thick orange line.

Orange circles designate Monitor Room squares. Whenever a friendly character occupies a Monitor Room square, all friendly characters can ignore the effect of hindering terrain and other characters on line of fire. A character occupying a Monitor Room square can't be given ranged combat actions or make ranged combat attacks.

Squares inside the orange boundary line designate Armory Squares. When placing objects at the beginning of the game, each player must place their first two objects (if any) on squares within an orange boundary line.

Castle Doom Gardens

Thick orange lines along the grid of this map are force fields. The effects of this terrain cannot be ignored.

When determining if a line of fire is blocked, treat force fields as walls. However, force fields are not walls or blocking terrain; they can't be destroyed and characters can't move over or through them using any power, ability, or effect (such as Phasing/Teleport or the Flight ability). Characters on opposite sides of force fields are not adjacent.

When counting squares to determine the range or area of any effect, you can't count beyond a force field. (To determine if you are counting beyond a force field, draw a line from the center of the square where the effect originates to the square you are attempting to count; if the line goes through a force field or through a diagonal bordered on the grid by a force field, the square can't be counted.)

Players must choose starting areas diagonally opposite each other, whenever possible.

When this map is played, beginning with the first player, each player can take a Time Zone (a smaller map section with TIME ZONE in its name) anywhere within the boundaries of the orange line on this map. Place Time Zones until up to four Time Zones

have been placed, or until all players agree that no more should be placed, whichever comes first.

When Time Zones are placed, they may be laid over previously placed Time Zones, provided that all parts of all Time Zones are within the boundaries of the orange line. Time Zones must be aligned with the grid of this map, but may be rotated in any direction before placement. Once placed, a Time Zone may not be moved.

Once Time Zones have been placed, a square on the map is the type of terrain indicated by the topmost map occupying that square, whether it be this map of a Time Zone. If an area of terrain on any map is interrupted by a map overlaid upon it, its boundaries are assumed to move to the nearest adjacent square or squares of that type of terrain so that all squares are contained within a continuous boundary; in some cases this may result in multiple separate areas of terrain.

Deep Space

Squares inside the boundary of an orange line on this map are space terrain. Space terrain is clear terrain modified by the following rules:

Characters given move actions when they occupy space terrain modify their speed values by +2 for the action. Halve the range values of all characters occupying space terrain and all characters drawing a line of fire to a character occupying space terrain.

A successful attack that does not otherwise knock back a character occupying space terrain knocks back that character a number of squares equal to damage dealt -2, to a minimum of 0. When targeting a character occupying space terrain with Force Blast, roll two six-sided dice instead of one. All knock back ends immediately when a character enters the first square that is not space terrain. Characters occupying space terrain are not dealt knock back damage if their knock back paths are ended by the edge of the map.
