# Cartes de conditions

## Fatigue

Choix par défaut des conditions.  
Pour les souris qui ne se reposent pas, ou comme résultat d'échec après un défi physique.

|                                        |                                        |                                        |
