THE MSPE CHARACTER FOLDER

is designed to make it easy for you to keep your player character's statistics all together in an easy-to-use folder which can also hold clues, notes, pictures, and additional material. Photocopy the drawings on the inside cover, then choose the one that looks most like your character. Cut it out along the indicated lines and paste it in place on the front of the MSPE Character Folder. (If you use photocopies instead of the original booklet, you can re-use the cover as long as you play the game). If none of these drawings quite match, look in newspapers or magazines until you find a picture that is closer, or draw your own!
