PAWN PACK I

Far Away Land Pawn Instructions

Somehow you have obtained some Far Away Land Pawns. These instructions will walk you through the steps to make the pawns usable in your Far Away Land adventures.

Let's get started...

Step 1

Print the sheets you want to use. It's best to print on cardstock or some other type of heavy paper as it will make your pawns more rigid and give them longer life.

Step 2

Cut around the sheet. You can use scissors to do this. Make sure you don't cut the white bases that fold underneath as these will be glued later to make the pawns stand.

Step 3

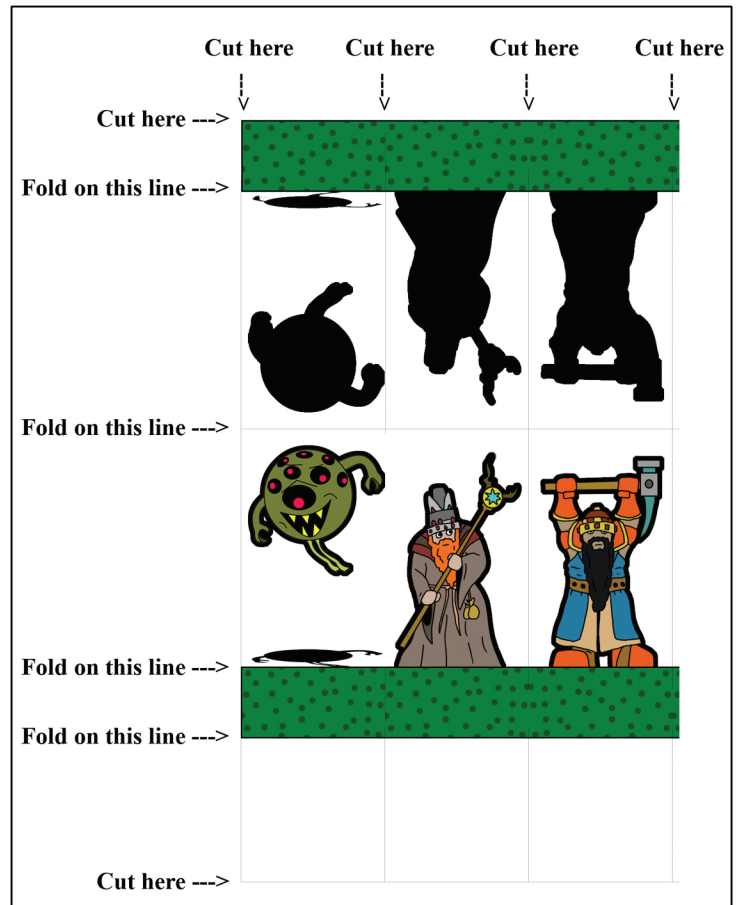

Cut out each individual pawn. Each pawn consists of a front and back, two bases and the white piece that folds under.

Step 4

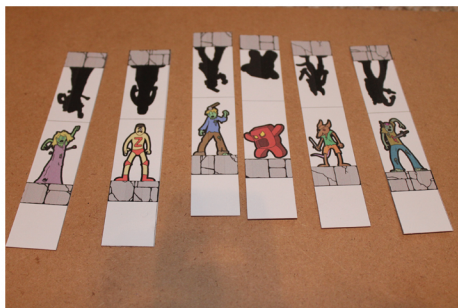

Use the guide and images to show you where to fold each pawn.

Step 5

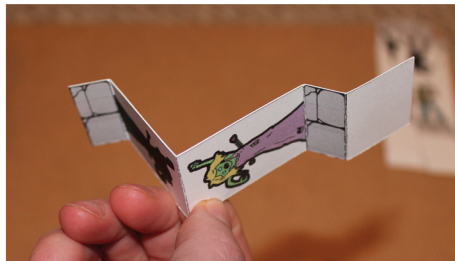

Apply glue to the back of each pawn as well as the bases.

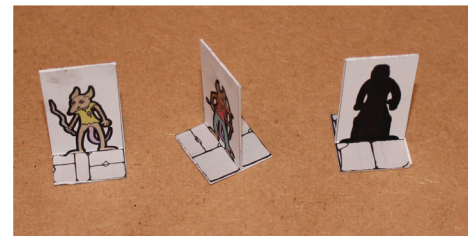

Step 3

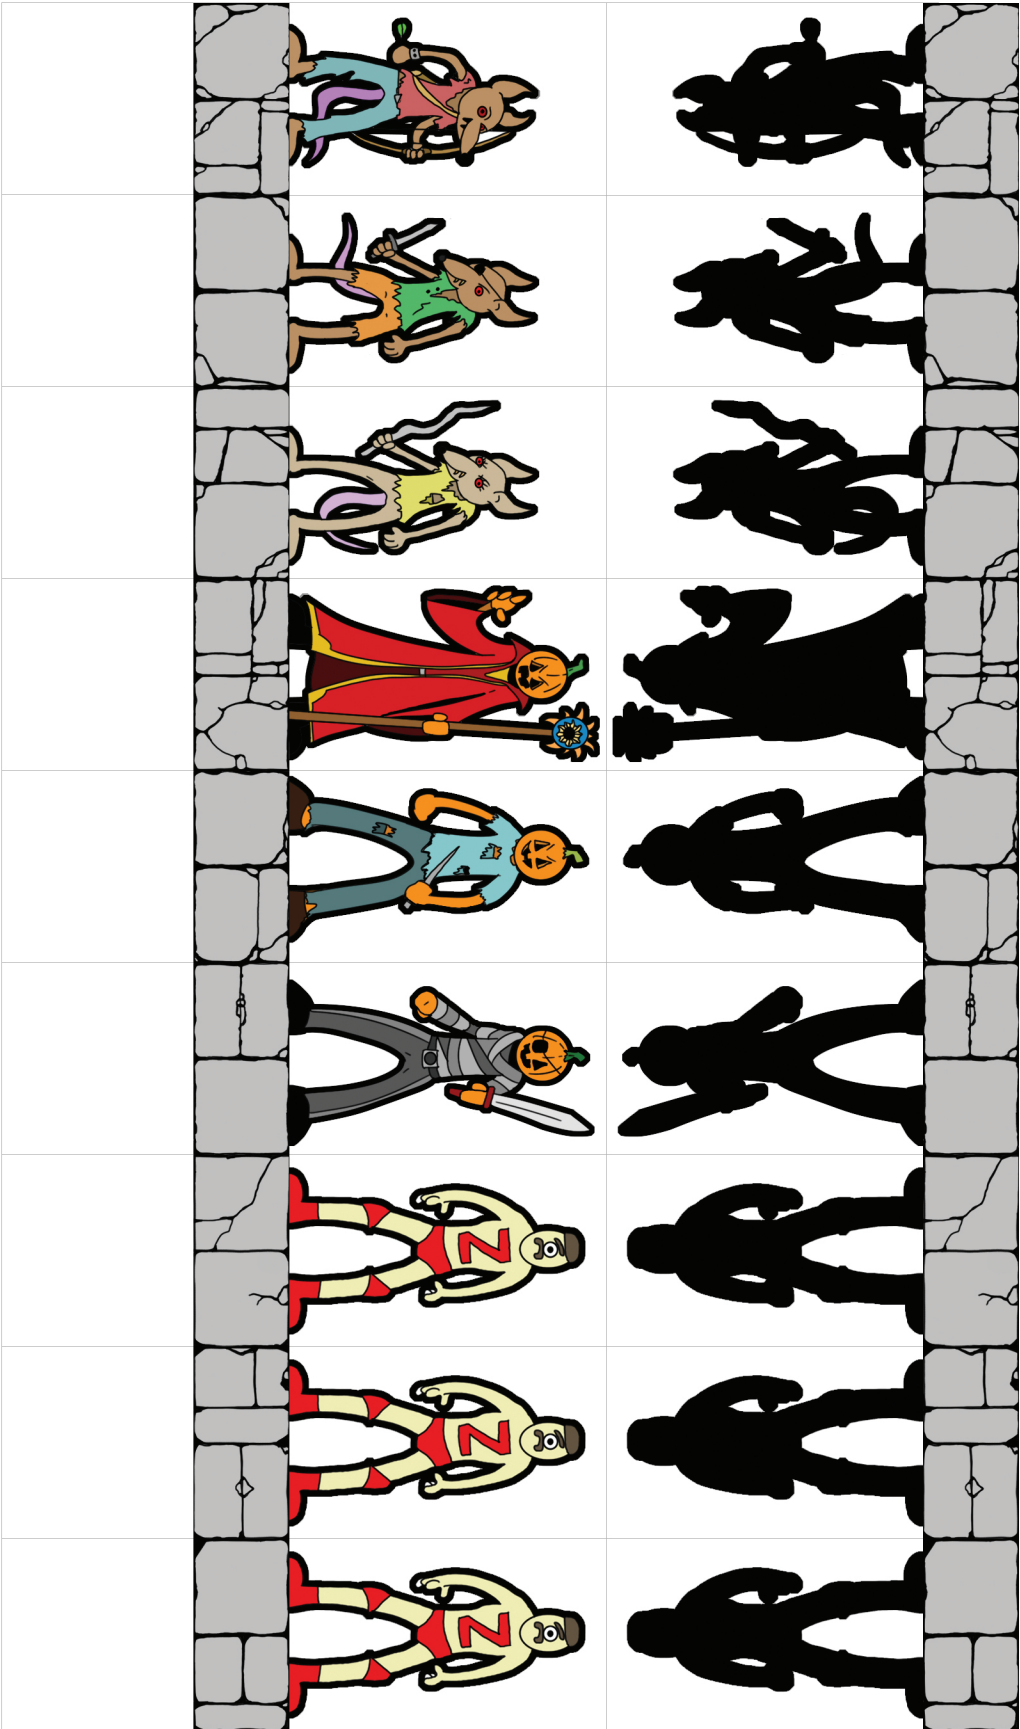

Step 4

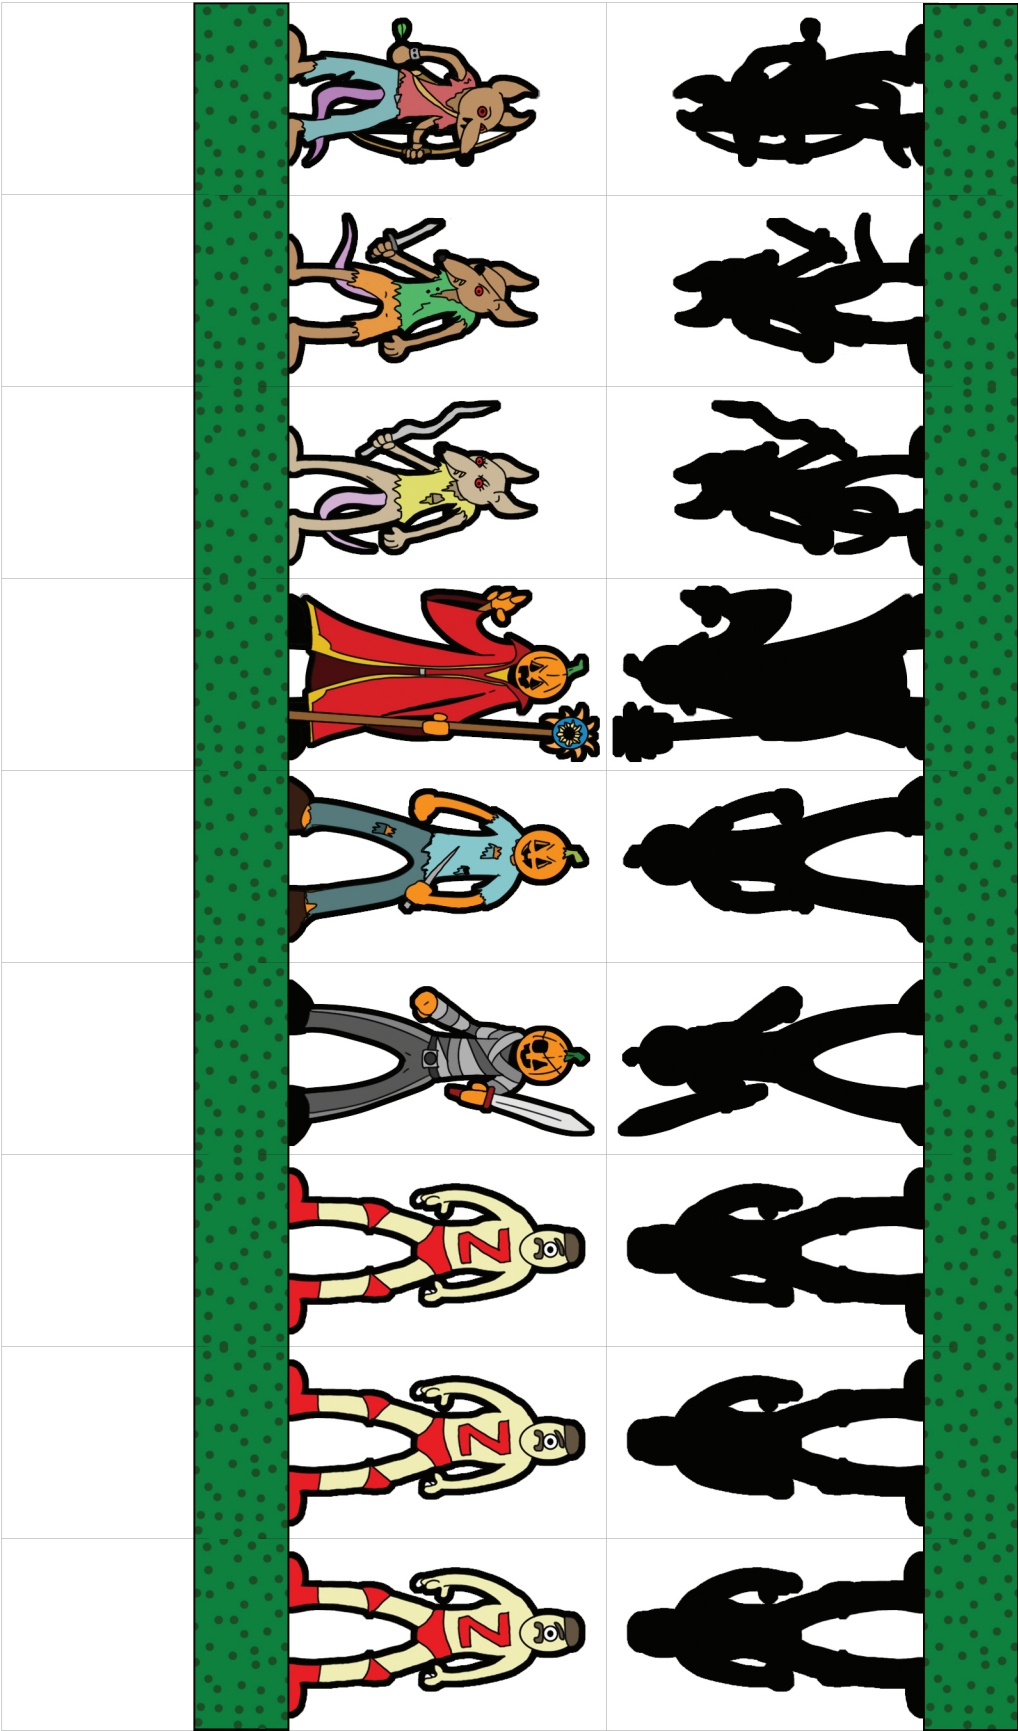

Finished Pawns

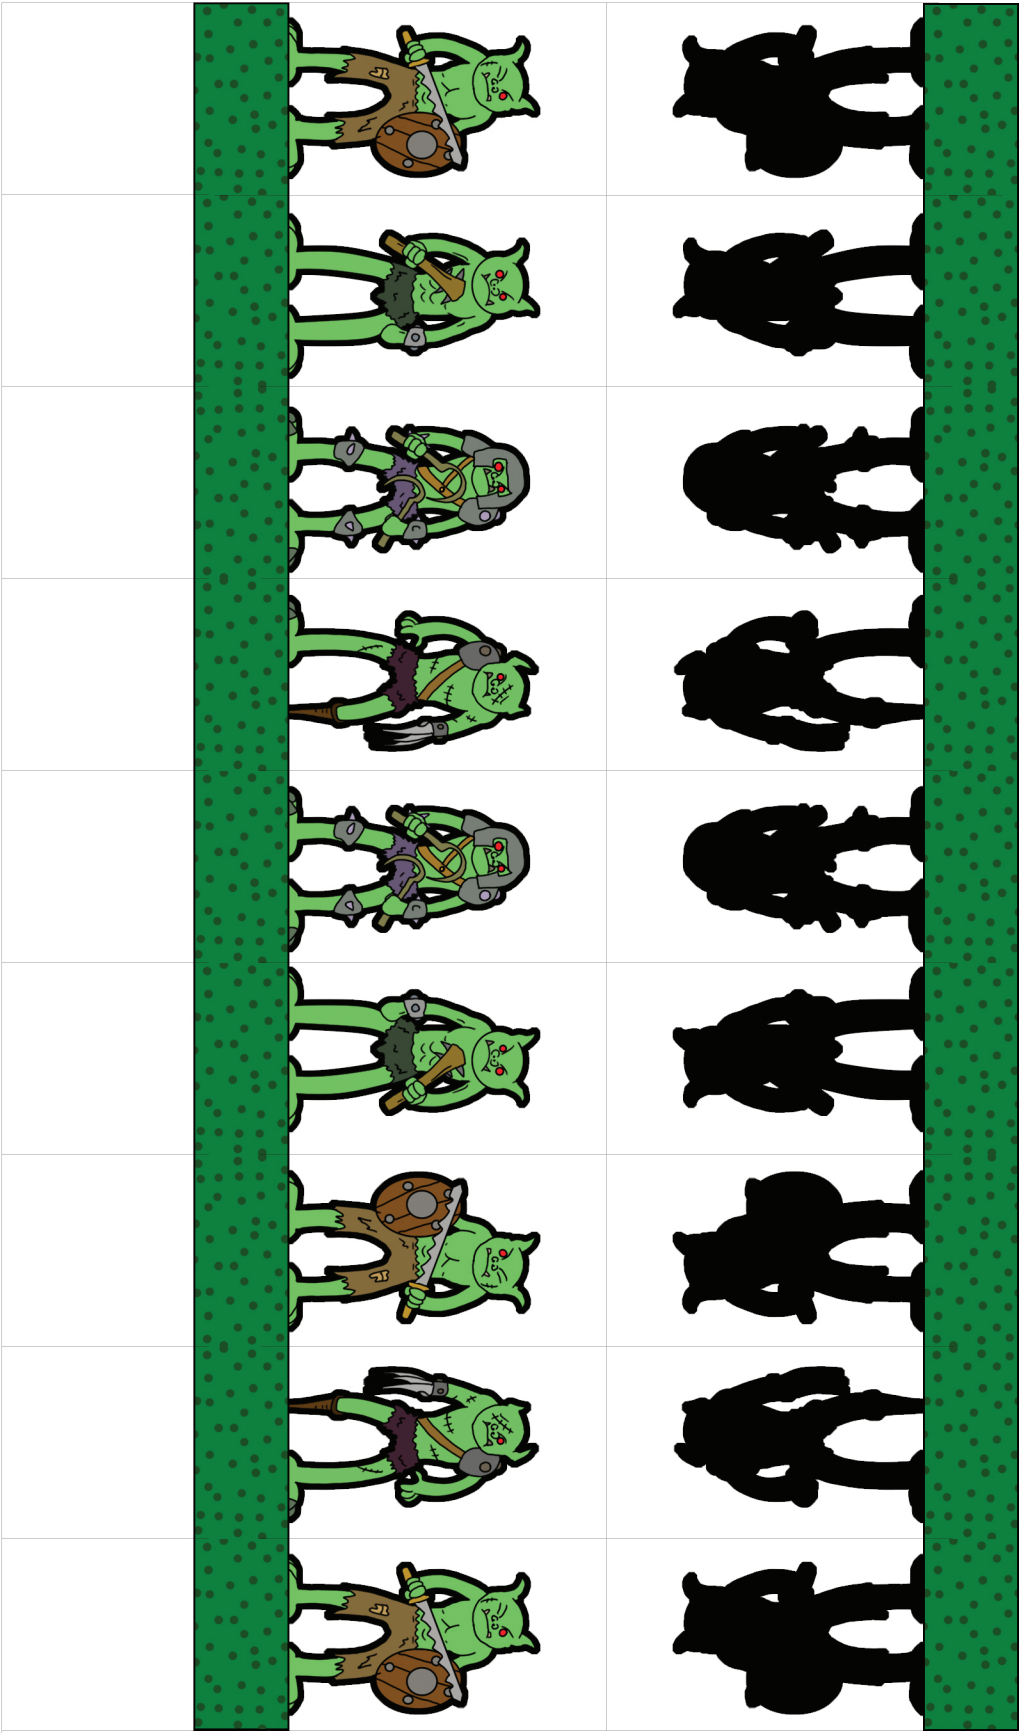

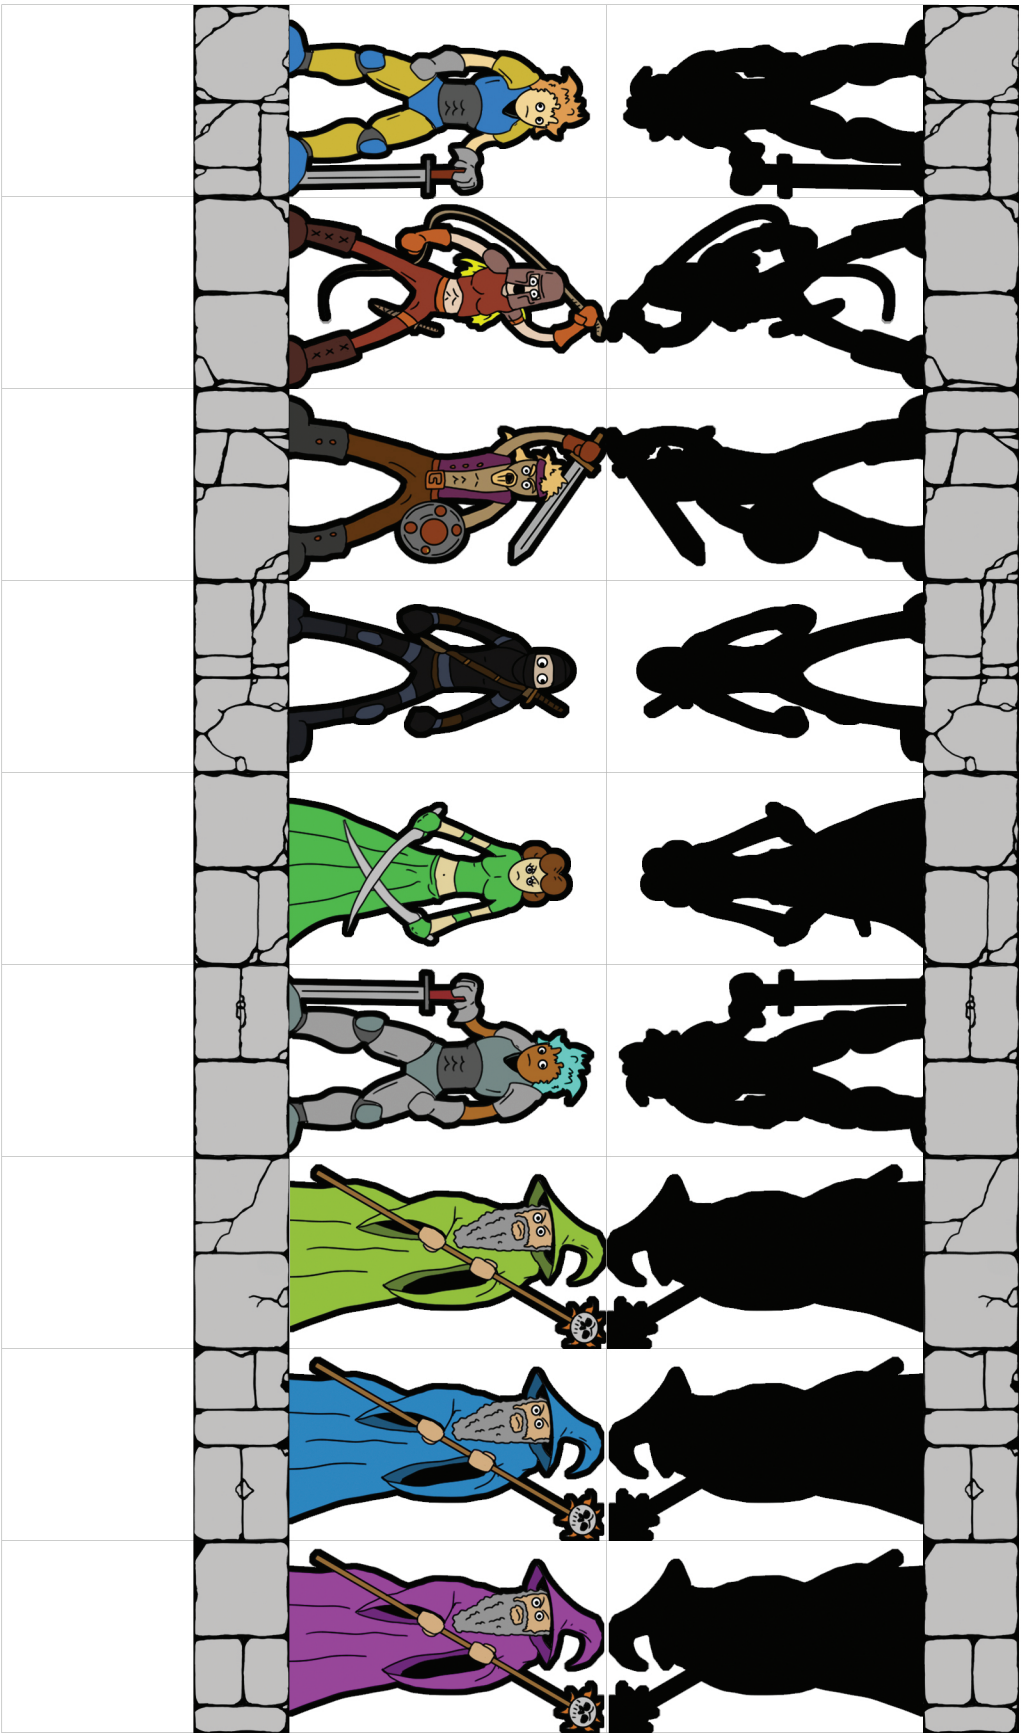

If you aren't old enough to know how to safely use scissors, ask an adult for help.
Only use scissors to cut out your pawns, never run with them.
