Introduction

The Goetia is part of the Lesser Key of Solomon, an historical grimoire dating from the 17th Century. It is amongst the most notorious and influential books of western ceremonial magick and derives in part from earlier ideas from the century before. It was most famously transcribed, translated and presented by Aleister Crowley at the beginning of the 21st Century and much of what is found in it - demonic ranks, the appearance of demons, their summoning and binding - has become part of the more common understanding of what a demon is and does.

As such, and as a 'real' book of magick, The Goetia makes a perfect fit for the deadlier end of the Old School gaming renaissance and, in particular, Lamentations of the Flame Princess whose position at the darker, nastier end of adventuring fits The Goetia well.

Those who consider magick to be real are often wary of the spirits and demons of Goetia, considering them to be dangerous, hard to control and hard to use.

We do not believe in 'real magick' and present this material in truncated and gamified form, for use in your campaigns as a different flavour of magick from whiz-bang fireballs, magic missiles, or the manifested miracles of the gods. This is a form of magick with great risk and great reward, which takes place between dungeons - not within them.

Unusual Symbols

This book uses various old English symbols for the sake of immersion and replicating the look and feel of old grimoires.

ſ: The long 's' symbol is simply another version of the 's' and not - as it appears - an 'f'. It occurred at the beginning or middle of words, mostly the middle, and is often found on gravestones. In this book it is used in the middle of words.

ß: This symbol is ‘the sharp s’, or the ‘eszett’ in German, is the long ‘s’ found when there is a double ‘s’ in a word. It was used - inconsistently - in old English for a very long time, phased out only much later.

Þ: This symbol, the ‘thorn’, is pronounced as ‘th’ and appears at the beginning of words. It survives today as the ‘Y’ in ‘Ye’ as in ‘Ye olde Taverne’ - though it should still be pronounced ‘th’ as in ‘the’.

Lamentations of the Flame Princeß

LotFP: Weird Fantasy Role-Playing presents a sinister and horrific twist on traditional fantasy gaming and provides you with all **Þe** tools needed to create and run a long-lasting campaign tailored to your specific vision. Simple enough for a beginner - with material intended for those that have never before played a role-playing game - yet meaty enough for the veteran, this is a complete game in one (virtual) box.

Pe Ritual Magician

Pe basis of Fauft's Footsteps is a new character claß/enemy pe Ritual Magician.

Pe Ritual Magician, unlike exifting magic-ufing claßes, is devoted to ritual magick and through that ritual magick to binding spirits and demons into peir service, or demanding gifts from þem. Þese gifts manifest as items, familiars, knowledge, special abilities and boosts to exifting abilities.

Ritual Magicians are not trusted, at all, by pe common folk and are treated like witches and demons þemselves. Þey muft often hide þeir workings and þeir results and masquerade as alchemifts or more conventional magicians, priests or other roles in order to preserve þeir lives and þeir work.

Ritualist: Ritual Magicians start with the unique 'Ritual' skill at 1 and gain 1 skill point per level - which may be placed in any skill, including 'Ritual'.

Summoning and Binding: Ritual Magicians gain their power by summoning and binding spirits and demons to them in complex magical circles and with complex magical sigils. This is a long-winded and dangerous process that the Games Master should roll out of their sight before applying the effects. A Ritual Magician can summon one power from one demon within their power level, each level they gain. The summoning, binding and its effects should be applied between games, perhaps as a little roleplay between the Games Master and the player. The process of summoning and binding is explained later.

Demonic Familiars: You may have multiple familiars and when one is killed it will be replaced by the next session with a new one. You can use the senses of a familiar and use your other powers through them. They can travel any distance and still be directed by you and connected to you.

For each familiar you gain you grow an additional nipple, from which the familiar will suckle blood. Demonic familiars vary in power according to the power level of the demon that granted them.

Demonic Buildings: Various demonic powers allow for the construction - out of thin air - of demonically summoned buildings. As with familiars, these will be replaced if they are destroyed, but only so long as the magician survives. These buildings are made of igneous rocks such as granite and basalt, perhaps including obsidian. They are unsettling to live in and give off a 'bad vibe' to anyone of good alignment or magical sensitivity.

The Future: Some powers allow the Ritual Magician to see into the future. The Games Master should answer these as the possible future, the future that will happen if nothing significant changes in the present.

Familiars

Familiars are little demonic creatures through which you can use your effects, speak and use your senses. A familiar might be as small as a mouse or as big as a horse. Familiars will be replaced - should they die - by your demonic accomplices, but when one dies you take $d6$ hit points of damage as psychic feedback. Your Games Master may allow you to choose different forms than those listed below for your familiar, in which case these should be taken as guidelines of the size and capabilities of the familiar. Familiars can be tougher and more dangerous than their forms would suggest.

Summoning & Binding

The binding and summoning of demons is a lengthy process requiring an investment in equipment and a great deal of time spent over doing it. The Games Master will need to preside over each step and a failure at any step will result in problems - even fatal problems, for the caster.

Equipment

The casting of ritual magic requires the following items at the following (Lamentations of the Flame Princess) costs.

- **Anointing Oil:** To purify and perfume the body. 10 silver pieces.
- **Cap:** Covering the head is respectful. 1 silver piece.
- **Coloured Chalks:** For the inscribing of magical circles and triangles. 3 copper pieces.
- **Calfkin:** To be inscribed with the Hexagram of Solomon. 1 silver piece.
- **Golden Pentagram:** The pentagram has complex inscriptions. It can also be made of silver. 50 silver pieces for gold, 25 silver pieces for silver. A golden pentagram adds +1 to your Ritual Magic skill.
- **Linen Robe:** White, clean and purified linen. 5 silver pieces.
- **Lion Skin Girdle:** Inscribed with holy names upon its inner surface. 10 silver pieces.
- **Mitre:** A priestly hat. 2 silver pieces.
- **Perfumes & Incense:** To cast into the braziers when making summonings. 10 silver pieces.
- **Ring of Solomon:** More of a disc, this golden (or silver) form protects the magician from the breath and presence of the spirits. It is covered in complex inscriptions. 100 silver pieces for gold, 50 silver pieces for silver. A golden ring adds +1 to your Ritual Magic skill.
- **Sceptre:** A fancy rod and symbol of authority. 10 silver pieces.

- **Sword:** A weapon, symbolising strength, force and justice. 20 silver pieces.
- **Pe Seal of Solomon:** Inscribed according to all pe necessary rules. 1 silver piece.
- **Vessel of Brass:** An inscribed brass container, as Solomon once used to trap spirits. 20 silver pieces.

Pe Proceß

Summoning, binding and taking powers from demonic spirits is a protracted and dangerous proceß that places pe Ritual Magician at great risk for pe mind, body and soul. Each and every step is important and pe rolls should be made by pe Games Master in secret, to determine what goes wrong and when.

Pe preparations and prayers before a summoning take so much time and preparation that pey can only be attempted between levels. At each level you can bind one power from one demon (within pe scope of your power) and take pe name of pe most powerful demon you have bound as your magus title.

You may make as many attempts as you wish to summon a demon, but you must take pe consequences each time that you fail. If you choose not to summon a demon between levels, you can summon twice between your next levels. You can always choose to summon a demon weaker than pe ones you are capable of summoning (donated by peir title and pe metal that makes up peir seal).

Making pe Circle

Inscribing pe summoning circle requires you to make a roll on your Ritual Magic skill to correctly inscribe every symbol, to apply pe colours properly and to ensure that pe names and symbols are placed and spelled correctly. This roll assumes you are working from memory and you can adjust your skill level according to pe following circumstances:

- Reference Grimoire: +1
- Plenty of time: +1
- Rushed: -1
- Improper or missing materials: -2

If you fail to inscribe the circle properly, the demonic spirit that is summoned will escape the bounds of the inscriptions and you will take the consequences of failure. If you succeed then you can proceed to donning the garments.

Donning the Garments

For further protection the Ritual Magician must don particular vestments in a particular order and with the appropriate prayers and ritualistic gestures. These clothes protect the ritual magician from the presence of the demonic spirits which can otherwise corrupt, twist and poison a person by their mere presence. Donning the garments requires a Ritual Magic roll.

- Reference Grimoire: +1
- Plenty of time: +1
- Rushed: -1
- Improper Clothing: -2

If you fail you can still complete your summoning and the rest of the steps, but you will also still take the consequences of summoning and binding a demon. If you succeed you can proceed to the invocation and summoning.

Invocation & Summoning

Once the vestments are donned and the circle is complete, the demon must be summoned forth into the circle from the bounds of whatever hell it resides in. Failure at this stage brings no demon forth and the ritual must be begun again from the start.

- Alloy Seal Demon: +1
- Mercury Seal Demon: +0
- Silver Seal Demon: -1
- Tin Seal Demon: -2
- Copper Seal Demon: -3
- Gold Seal Demon: -4

Binding

Once a demon has been summoned, it must be bound and forced to give up its secrets into the seal, so that the Ritual Magician can then use that power at their will via their link to the demonic spirit. This is done by making another Ritual Magic roll. If successful the power from the demon is bound and the Ritual Magician has their power for that level.

If the binding fails the Ritual Magician must take their consequences and the demon departs without granting them power.

Bidding the Demon to Depart

The final step - and the final roll on the Ritual Magic skill - is to bid the demon to depart, safely, back to hell. Success dispels the demon back from whence it came.

Failure allows it to give you consequences before it leaves.
