ONLY THE FINEST WORKS OF FANTASY

~

O S R

**Eh, who goes there? Journeyman old school Game Masters?**

**Hoi, hoi, little mortal morsels ... let us see, let us see ... mortal distractions ...**

**Ah, yes. And what do we find here? Why, the dark harlequin of the underworld neath Castle Oldskull, Groohlz-Drakha, has brought you his cruelest and most luscious map of the nether: Herein you will find 1,000 Rooms of Chaos, direct from the most secret lore of Darkseraphim's own Castle Oldskull. But here in this codex, which I now grant you, lieth only the *names* of the rooms, mind.**

**What lurks in each chamber within? You as Game Master will imagine up the descriptions, the tricks, the treasures, the traps, and the monsters lairing within each Room of Chaos on your own.**

**And why is that? Because you are the Game Master, and I merely the jester who leers over your creations. For this resource is intended to spark your imagination when you run out of ideas to fuel the horrors which rise to mind, which your bold adventures must face as they brave the deeps.**

**Using my blank map, time and again, you will conjure up with something STRANGER, something ever more riddling and DISTRUBING, something that will make your players sit up and think and say, WHAT FRESH EVERLASTING \$#@% IS THIS. Are you weary of crafting room keys which read "10 orcs, 100 gp," "10'x10' room, no special features," "stairs, locked treasure chest, map to level 2," or the ever-dreaded "stone statue in middle of room, animates when approached"?**

**Bah. You can do better than that. And five minutes from now, you *will*.**

**For this is the secret lore of Groohlz-Drahka. All hail Groohlz-Drahka the Immortal Troll King, the Ever-Replenishing Jester, Devourer of Maiden Flesh. Welcome to the 1,000 rooms of Chaos ever immortal, in excelsis.**

**I depart. What? Something about the Old Guard Kobolds taking over level 3B south. Salute me not, mortal. Though you may laugh.**

\* \* \* \* \*

So. The adventurers open the door at last, into the dread reach of the dungeon which you have not had time to design yet. And there, to their ultimate bafflement, they discover ... what?

Roll D1000 to find out.

This resource will always help you, and energize your own ideas, whenever you need a new room concept for any dungeon, enchanted stronghold, or subterranean locale.

You can also use this compendium to create an entire dungeon in just a few minutes. Keep rolling to key any existing map (whether it be online, of your own design, whatever), or just pick a room name that appeals to you and design an encounter concept around it. If any of the details provided here don't seem to fit, drop a word and substitute one of your own. It's really that fast, and that simple.

(You may want to utilize resources such as dictionary.com, or Wikipedia, to track down the meanings of obscure words and room types. Google Books can be helpful as well, due to a fair selection of old architectural dictionaries that I used.)

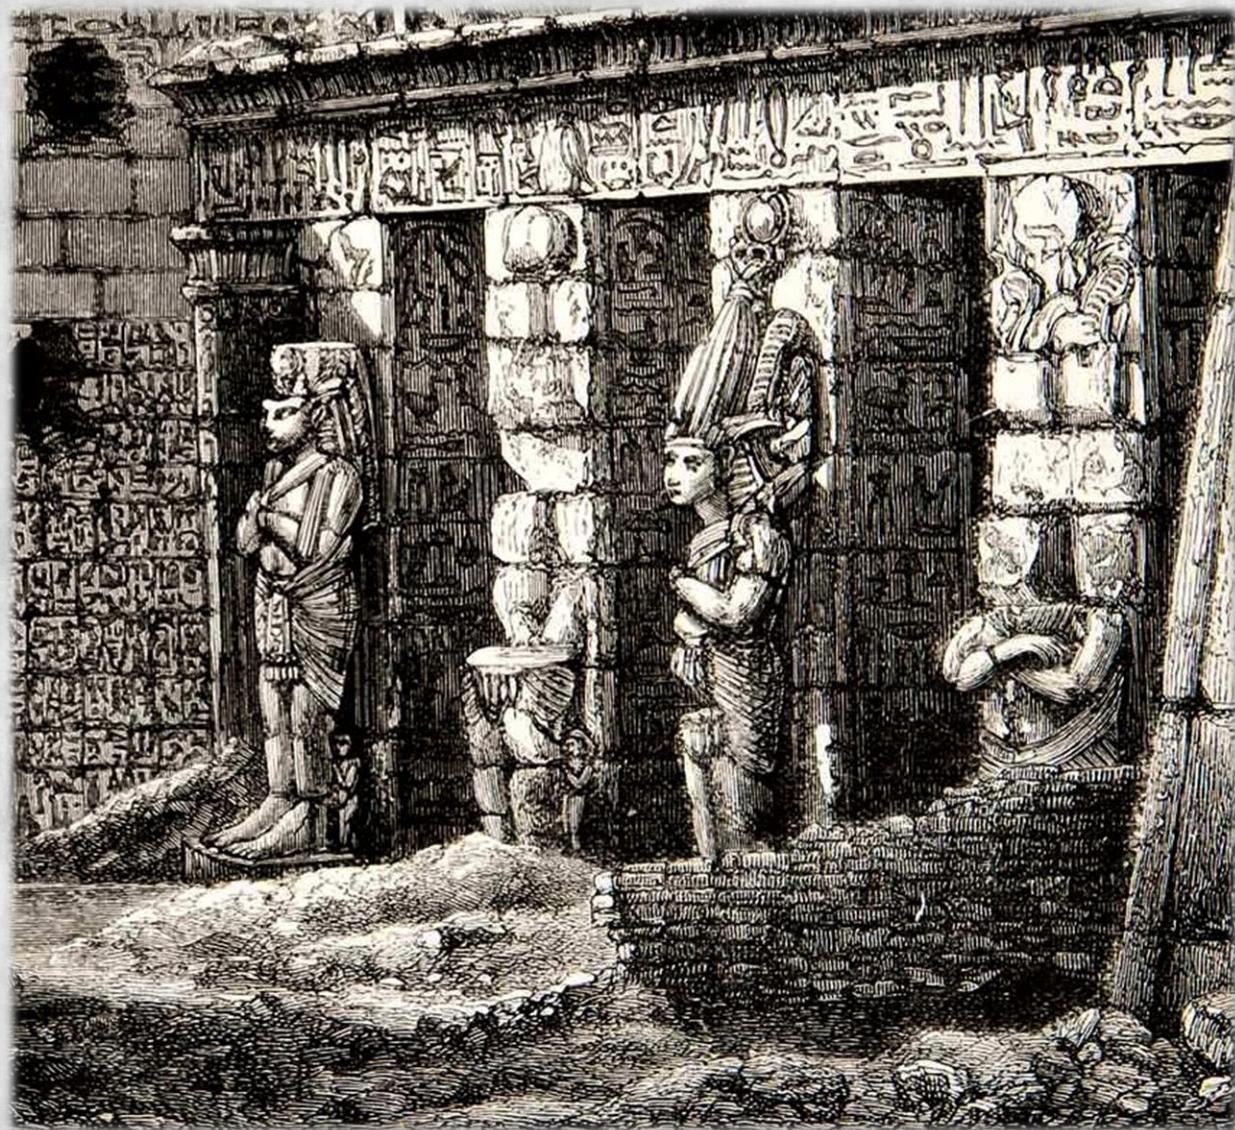

Happy gaming! Have fun with your next (and completely unpredictable) dungeon design. And remember: If you blithely decide that any one entry herein makes 100% sense, right off the bat and without any creative thought or input of your own? Then you're not doing it right. ☺ Use these entries to spark your own ideas, and then improve the initial concept with imagination.

Have fun. May you give these ideas dark wings of your own design!
