| 9-11      | -2 dice          | -3 dice      | Cannot score a critical hit fighting two-handed                                                                  |

| 16-17     | -1 die           | -1 die       | Primary hand scores a critical hit on a max die roll (16 on 1d16) that also beats target's AC (no automatic hit) |

\* Warriors and others with improved crit threat ranges (i.e., those who can crit on 19-20 or better) lose that ability when fighting two-handed.

## Table 4-2: Fumbles

### Roll Result

|     |                                                                                                                                                                                                                 |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 0   | You miss wildly but miraculously cause no other damage.                                                                                                                                                         |
| 1   | Your incompetent blow makes you the laughingstock of the party but otherwise causes no damage.                                                                                                                  |
| 2   | You trip but may recover with a DC 10 Ref save; otherwise, you must spend the next round prone.                                                                                                                 |
| 3   | Your weapon comes loose in your hand. You quickly grab it, but your grip is disrupted. You take a -2 penalty on your next attack roll.                                                                          |
| 4   | Your weapon is damaged: a bowstring breaks, a sword hilt falls off, or a crossbow firing mechanism jams. The weapon can be repaired with 10 minutes of work but is useless for now.                             |
| 5   | You trip and fall, wasting this action. You are prone and must use an action to stand next round.                                                                                                               |
| 6   | Your weapon becomes entangled in your armor. You must spend your next round untangling them. In addition, your armor bonus is reduced by 1 until you spend 10 minutes refitting the tangled buckles and straps. |
| 7   | You drop your weapon. You must retrieve it or draw a new one on your next action.                                                                                                                               |
| 8   | You accidentally smash your weapon against a solid, unyielding object (a rock, a wall, even the ground). Mundane weapons are ruined; magical weapons are not affected.                                          |
| 9   | You stumble and leave yourself wide open to attack. The next enemy that attacks you receives a +2 bonus on its attack roll.                                                                                     |
| 10  | You should have maintained your armor! The joints of your armor seize up, freezing you in place. You cannot move or make an attack for 1d3 rounds. Unarmored characters are not affected.                       |
| 11  | Your wild swing leaves you off balance. You take a -4 penalty to your next attack roll.                                                                                                                         |
| 12  | You inadvertently swing at one randomly determined ally within range. Make an attack roll against that ally using the same attack die you just attempted to use.                                                |
| 13  | You trip badly. You fall hard, suffering 1d3 damage in the process. You are prone and must use your next round to stand.                                                                                        |
| 14  | Like a turtle on its back, you slip and land upside down, flailing about and unable to right yourself. You must fight from a prone position for the next round before you can recover your balance and rise.    |
| 15  | You somehow manage to wound yourself, taking normal damage.                                                                                                                                                     |
| 16+ | You accidentally strike yourself for normal damage plus an extra 1 point. In addition, you fall on your back and are unable to right yourself until you make a DC 16 Agility check.                             |

\* Two-handed weapon (d16 on initiative checks).

\*\* Strength modifier applies to damage with this weapon at close range only.

\*\*\* Damage dealt is always subdual damage.

† These weapons are particularly effective when used with the element of surprise. A thief who succeeds in a backstab attempt with one of these weapons uses the second damage value listed. All other classes and all other thief attacks use the first value.

# These weapons inflict double damage on a mounted charge. A lance can only be used when mounted.

### Morale

A morale check is made at these times:

- With a group of monsters: when the first creature is slain and when half the creatures have been killed or incapacitated.
- With a single monster: when it has lost half its hit points.
- With a retainer: when he first encounters combat or danger (e.g., a trap) in each adventure and at the end of each adventure.

### Difficulty Levels

**DC 5 tasks are child's play.** These minor challenges aren't rolled unless there is a consequence for failure. Example: walking on a four-foot-wide castle wall requires no check, but walking a four-foot-wide bridge across a yawning chasm does, as there is a significant consequence to failure for this easy task.

**DC 10 tasks are a man's deed.** The weak and unskilled could not likely achieve these tasks. Example: kicking down a door, scaling a stone wall, or hearing the approach of a cautious footpad.

**DC 15 tasks are feats of derring-do.** It takes someone special to accomplish them. Examples: leaping the gap between two city roofs, hurling a log at an oncoming bear, or grabbing a pouch lashed to the saddle of a galloping stallion.

**DC 20 tasks are a hero's work.** Only the most super-human characters attempt and succeed at these tasks.
