Monster Wheelies For Labyrinth Lord Volume 2 v.1

Wheelies are round charts that contain the following bits of information. Their to help players of the Labyrinth Lord game who want the information the Wheelies contain in front of them. These Wheelies are for the monsters in the Advanced Edition Companion book. The Wheelies are divided into many different parts:

On top of the circle: monster name

The inner circle:

This is filled with information about the monster. AC is armor class, HD is Hit Dice, #AT is number of attacks and DG is the damage these attacks do. Sometimes you see "See Book" printed. This indicates that the Advanced Edition Companion book should be referenced for the monster.

The outer rings:

First circle: AC

Second circle: The 20 sided dice roll to hit that AC based off of monster's HD.

Beneath the ring from left to right. MV is movement, NE is number encountered, HC is hoard class, ML is morale, AL is alignment and SV is save as. Beneath SV are the saving throws for the monster(based off of what its supposed to save as).

The following pages contains Monster Wheelies. 1 page for each monster. All the monsters are based off of what's in the book.
