Wheelies For Labyrinth Lord Players v.1

Wheelies are round charts that contain game information a Labyrinth Lord player, or even the Labyrinth Lord, might like in front of him/her. Usually this information is in an attack chart, saving throw matrix or written on a character sheet. Now you can just print up a Wheelie that matches your character's class and level. Forget about writing that stuff down! The Wheelies are divided into 3 parts: the outer ring, the first inner ring and the center circle.

The center circle:

Top: Class

Middle: Saving throws based on the class level.

Bottom: Class level

The first two rings from outside in:

The outer ring: AC

First inner ring: the 20 sided dice roll needed to hit the AC in the cell adjacent to it. This corresponds to the class level in the combat matrix of the Labyrinth Lord book.

The following pages contains Wheelies for Cleric, Thief, Elf, Dwarf, Halfling, Magic-User and Fighter. 1 page for each level. Dwarf, Elf and Halfling races stop where the Labyrinth Lord game stops them. All the numbers are based off of what's in that book.

Enjoy!
