FOREWORD

Welcome to this month's Pointless Classic titles. Here we present to you 100 low rent crappy paperback titles that your players could discover whilst they are rooting around on dusty shelves, cupboards and drawers in any modern environment.

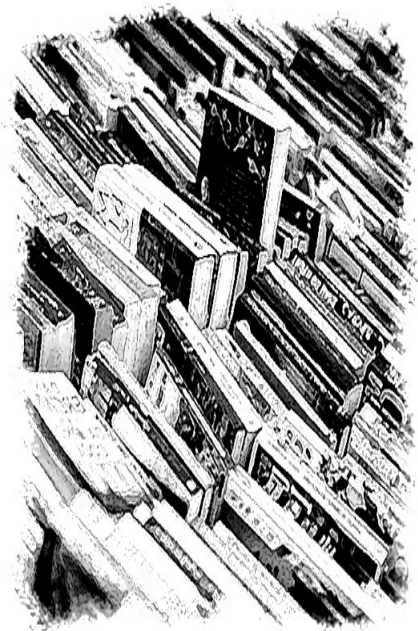

Lets remember, not every searched location will yield an expensive or useful item for your players to make use of. (For more useless modern items check out our 100 Useless items for all Modern RPGs.) This D100 table should serve you well and help generate small details such as these, that will aid game flavour during your sessions. Whilst not being the most useful list, These could be used for such things like Video/DVD movie titles or TV shows in your game world too, so you could say, not so pointless after all eh?

To add more details, why not download last months pointless classics title: 100 Stupid, Silly or Offensive Names to add an author, Mind you, they are rather rude so you could use any of our other name titles (all available from our publisher page where you acquired this title!)
