Foreword

Welcome to this sci-fi edition of "Grim's Amazing D100 Tables", here you will find 100 named star ship crew and their respective professions to add easily to your game.

Suggestions for use of this booklet are that of simply rolling a D100 and voila!

Istant ships crew member for your players to hire, or even to flesh out an existing star ship with many faceless members of staff.

Another way to mix it up even more, is to first roll D100 to discover the named crew member, then roll again, but this time apply the profession. To add the skill level of said random NPC crew member, roll a D6 and refer to this small chart.

- 1. Novice Level. (No idea!)**
- 2. Trainee. (Some idea)**
- 3. Low level. (Some skill, albeit low)**
- 4. Competent. (average level of skill)**
- 5. Highly skilled (Very competent)**
- 6. Expert (Very, very Skilled)**

Of course, you are free to determine what skill level and other aspects of the NPC, or indeed simply choose from the table if you prefer.

This is simply an aid to GM's to flesh out the various NPC crew that either are looking to be hired to work on board a ship, those who might be already there, or just as various crew on shore leave or relaxation time etc.

Whatever you choose to use this information for, as ever, enjoy!!
