Foreword

Where would any stock fantasy RPG be without the humble dragon? well, maybe not so humble, but rather the ferocious, intimidating and majestic beast, that many scores of brave and noble adventurer types have faced, won and lost over many long campaigns and adventures, Indeed where would this theme mainstay of the genre be without the other? There would be no D&D, but rather just a D, and somehow I can't see it having caught on as much without the other "D"! Use these names here to add to your Draconic PCs & NPCs and so on. After all, even dragons need names! Enjoy!!
