Foreword

A typical Goblin is a thing you will find in most generic fantasy games and media, but that's mostly what they are, a thing, and not the evil malicious and characterful creature it should be, bursting with bags of wonderful opportunity to really role play some brilliant scenes in a game.

Here you will find 100 original goblin names that just by adding one (or more) to a routine gobbo encounter, will add so much to the scene and get your GM's creative juices flowing. Roll twice to give both first and last names, or even interchange with the 100 Orc inspired names for more variety for your greenskins. most of all, have fun!

Enjoy!!
