Large Suite (3 meals)	-	-	-	10gp	20gp

Note: ***Star = 3 Star Tavern or Inn.

Taverns and Inns with more stars generally have higher quality, better selection and a higher price.

Meal = full meal with drinks included.

We don't use copper pieces....nobody uses copper pieces.

How to use these tables:

The purpose of these tables is to provide you with an instant tavern or inn. You simply decide how many inns and taverns are in the area and assign them the number of stars that corresponds to the details of your campaign. A small village may have a single 1 star inn; a town may have multiple inns and taverns...you decide.

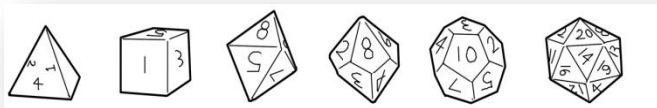

These tables are designed to provide you with more details, more than just the generic "you stay at the inn and it costs you 1gp per day"....instead players can order specific meals and services at a range of different prices.

I hope you enjoy

Steve Jensen
