

CONDITIONS

CORE 618

BLINDED You can't see. All normal terrain is difficult terrain. You can't detect anything using vision. Automatically critically fail Perception checks that require you to see; if vision is your only precise sense, you take a –4 status penalty to Perception checks. You are immune to visual effects. Blinded overrides dazzled.

BROKEN A broken object can't be used, nor does it grant bonuses. Broken armor grants its item bonus to AC, but gives a status penalty to AC (–1 light, –2 medium, –3 heavy). An effect that makes an item broken reduces the item's HP to its Broken Threshold.

CLUMSY Take a status penalty equal to your clumsy value on Dexterity-based checks and DCs, including AC, Reflex saves, ranged attacks, and skill checks using Acrobatics, Stealth, and Thievery.

CONFUSED You are flat-footed, don't treat anyone as your ally, and can't Delay, Ready, or use reactions. Use all your actions to Strike or cast offensive cantrips. The GM determines targets randomly. If you have no other option, target yourself, automatically hitting. If it's impossible for you to attack or cast spells, you babble incoherently, wasting your actions. Each time you take damage from an attack or spell, attempt a DC 11 flat check to end the condition.

CONTROLLED Your controller dictates how you act.

DAZZLED All creatures and objects are concealed from you.

DEAFENED Automatically critically fail Perception checks that require hearing. Take a –2 status penalty to Perception checks for initiative and checks that involve sound but also rely on other senses. If you perform an action that has the auditory trait, you must succeed at a DC 5 flat check or the action is lost. You are immune to auditory effects.

DRAINED Take a status penalty equal to your drained value on Constitution-based checks, such as Fortitude saves. Lose Hit Points equal to your level times the drained value, and your maximum Hit Points are reduced by the same amount. When you regain Hit Points by resting for 8 hours, your drained value is reduced by 1, but you don't immediately recover the lost Hit Points.

ENCUMBERED You're clumsy 1 and take a –10-foot penalty to all your Speeds.

ENFEEBLED Take a status penalty equal to your enfeebled

value to Strength-based rolls and DCs, including Strength-based melee attack rolls, Strength-based damage rolls, and Athletics checks.

FASCINATED Take a –2 status penalty to Perception and skill checks, and you can't use actions with the concentrate trait unless they are related to the subject of your fascination. This condition ends if a creature takes hostile actions toward you or any of your allies.

FATIGUED Take a –1 status penalty to AC and saving throws. During exploration, you can't choose an exploration activity. Recover from fatigue after a full night's rest.

FLAT-FOOTED Take a –2 circumstance penalty to AC.

FLEEING On your turn, spend each action trying to escape the source of the condition as expediently as possible. You can't Delay or Ready.

FRIGHTENED Take a status penalty equal to the value to all checks and DCs. At the end of each of your turns, the value decreases by 1.

GRABBED You're immobilized and flat-footed. If you attempt a manipulate action, you must succeed at a DC 5 flat check or it is lost.

IMMOBILIZED You can't take any action with the move trait. If you're immobilized by something holding you in place and an external force would move you, the force must succeed at a check against the DC of the effect holding you in place you or the relevant defense (usually Fortitude DC) of the creature holding you in place.

PARALYZED You're flat-footed and can't take actions except Recall Knowledge and others that require only your mind. You can't Seek.

PERSISTENT DAMAGE Instead of taking persistent damage immediately, take it at the end of each of your turns, rolling any damage dice each time. After you take persistent damage, roll a DC 15 flat check to see if you recover. If you succeed, the condition ends.

You or an ally can help you recover, allowing an additional flat check. This usually takes 2 actions, and must be something that would reasonably help against the source of the damage. The GM can reduce the DC to 10, have the damage end automatically, or change the number of actions.

PETRIFIED You can't act, nor can you sense anything. You're an object with double your normal Bulk (typically 12 if Medium or 6 if Small), AC 9, Hardness 8, and the same current HP you had when alive.

PRONE You're flat-footed with a –2 circumstance penalty to

attack rolls. The only move actions you can take are Crawl and Stand. Standing ends the prone condition. You can Take Cover while prone, gaining greater cover against ranged attacks (but remain flat-footed).

QUICKENED You gain 1 additional action at the start of your turn each round. Many effects that make you quickened specify the types of additional actions you can use. Because quickened has its effect at the start of your turn, you don't gain actions immediately if you become quickened during your turn.

RESTRAINED You're tied up and can barely move, or a creature has you pinned. You are immobilized and flat-footed, and you can't use any actions with the attack or manipulate traits except to attempt to Escape or Force Open your bonds. Restrained overrides grabbed.

SICKENED Take a status penalty equal to the value on all checks and DCs. You can't willingly ingest anything. You can spend an action retching to attempt a Fortitude save against the DC of the sickening effect. On a success, reduce the value by 1 (2 on a critical success).

SLOWED When you regain your actions at the start of your turn, reduce the number of actions by your slowed value. You don't lose actions immediately if slowed during your turn.

STUNNED You can't act. A stunned value indicates how many total actions you lose. Each time you regain actions, reduce the number by your stunned value, then reduce your stunned value by the number of actions lost. If stunned has a duration, lose all your actions for the listed duration. Stunned overrides slowed. Actions lost to stunned count toward those lost to slowed.

STUPEFIED Take a status penalty equal to the value to checks and DCs based on Intelligence, Wisdom, or Charisma, including Will saves, spell attack rolls and DCs, and appropriate skill checks. If you Cast a Spell, it's disrupted unless you succeed at a flat check (DC = 5 + value).

DEATH AND DYINGCORE 459

KNOCKED OUT When reduced to 0 HP, move your initiative to directly before the creature or effect that reduced you to 0 HP. Gain dying 1, or dying 2 if the damage came from a critical hit or your critical failure on a save. A nonlethal effect makes you unconscious at 0 HP and doesn’t give you the dying condition.

DYING You are unconscious. If you ever reach dying 4, you die. Attempt a recovery check at the start of your turn to determine whether you get better or worse. If you ever have 1 HP or more, you lose the dying condition. Any time you lose the dying condition, increase your wounded value by 1. If you take damage while dying, increase the dying value by 1 (or 2 on an enemy’s critical success or your critical failure).

RECOVERY CHECKS At the start of your turn when you’re dying, attempt a flat check (DC 10 + your dying value).

Critical Success Your dying value is reduced by 2.

Success Your dying value is reduced by 1.

Failure Your dying value increases by 1.

Critical Failure Your dying value increases by 2.

WOUNDED Any time you gain the dying condition or increase it for any reason, add your wounded value to the amount you gain or increase your dying value. The wounded condition ends if you receive HP from Treat Wounds, or if you’re restored to full HP and rest for 10 minutes.

DOOMED The maximum dying value at which you die is reduced by your doomed value. If your maximum dying value is reduced to 0, you instantly die. Your doomed value decreases by 1 each time you get a full night’s rest.

UNCONSCIOUSCORE 459

You can’t wake up from unconsciousness while you have 0 Hit Points. If you’re unconscious and have 1 or more Hit Points, you wake up in one of five ways.

- You take damage, provided the damage doesn’t drop you to 0 HP.
- You receive healing, other than natural healing from resting.
- Someone nudges or shakes you awake with an Interact action.
- If there’s loud noise, at the start of your turn attempt a Perception check against the noise’s DC, waking up if you succeed. If creatures are attempting to stay quiet, this uses their Stealth DC.
- The GM decides you wake up either because you have had a restful night’s sleep or something disrupted that restful sleep.

FALLING DAMAGECORE 463

When you fall more than 5 feet, take bludgeoning damage equal to half the distance you fell. If you take any damage, you land prone. If you fall into water or a soft substance, calculate damage as though the fall were 20 feet shorter, 30 if you intentionally dove in (up to the depth of the substance).

TERRAINCORE 475

DIFFICULT TERRAIN Each square costs 5 extra feet of movement.

GREATER DIFFICULT TERRAIN Each square costs 10 extra feet of movement.

HAZARDOUS TERRAIN Moving through hazardous terrain deals damage.

NARROW SURFACE Flat-footed and must Balance to cross. When you’re hit or fail a save, succeed at a Reflex save or fall.

UNEVEN GROUND Flat-footed and might need to Balance or fall prone. When you’re hit or fail a save, succeed at a Reflex save or fall.

INCLINE You need to Climb to ascend an incline. You’re flat-footed while Climbing.

COVERCORE 477

Draw a line from the center of the attacker’s space or burst to the center of the target’s space.

LESSER COVER +1 circumstance bonus to AC if line passes through creatures but no objects.

COVER +2 circumstance bonus to AC, Reflex saves against area effects, and Stealth checks to Hide or Sneak. You can use Take Cover (Core 471) to increase this to greater cover.

GREATER COVER As cover, but a +4 bonus.

CREATURE IDENTIFICATIONCORE 506

Use the creature’s level, adjusted for rarity and fame. Success recalls a well-known attribute; critical success adds something more subtle.
