

Hardlight Hazwear

It's dangerous to go alone, slugblasters! Don't leave Null without your modified Hardecker™ personal protective hardlight equipment and turn those hazards into opportunities. Cover your body in a cozy extra skin of pure fortified light with Hardlight Hazwear!

TURBO

Describe how your device helps you with an action, then boost or kick as needed.

MODS

- Energy Aegis (1 coil, 1 gem).** Roll to create a personal hardlight barrier. Also nope slams from falls, crushing, hits, and other kinetic damage for only 1 trouble.
- Hardlight Upscaling (1 coil, 1 lens).** Roll to temporarily augment your body armour with useful hardlight tools such as blades, pitons, lockpicks, or magnificent cat ears.
- Photonic Hololens (1 coil, 1 lens).** Make minor changes to your face with an array of holographic lights, add IRL filters, hide it altogether, or roll to mimic a specific person's appearance.
- Proximity Defense Matrix (1 gem, 1 lens).** When you activate another hardlight hazwear ability you can choose to affect up to a room-sized area instead.
- Hyperlight Relay (1 coil, 2 gems, 1 lens).** Mark turbo to place an anchor at your current point in spacetime. While you're still in the same dimension you can teleport back to that location at the speed of light, maintaining any momentum you had.

FUNCTION

Counts as logic binders, hazwear, and a mask. Nope slams from gases, sensory overload, and poisons for 1 trouble.

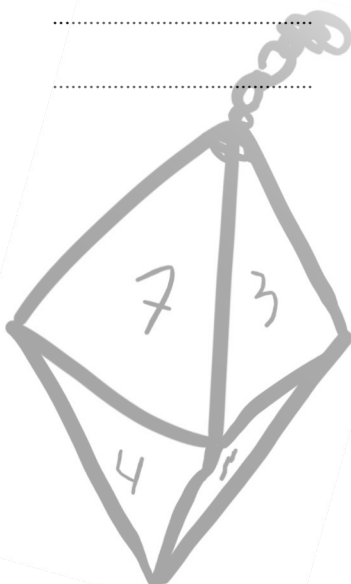

LOOK

earring, toque, necklace, ballcap, choker, amulet, nose ring, ushanka, etc...

COMPONENTS

LENSES	COILS

- Power Cell (2 gems).** Turbo gains 1 kick.
- Stabilizer (1 coil, 1 disc).** Turbo gains 1 boost.
- Kitbashed.** Buy a mod from another device.

Gravlux 3000

What started as a handy household item—a vacuum that never needs emptying—took a turn for the awesome when the kids got their grubby mitts on them. Some might question the wisdom of letting teenagers carry around a micro black hole generator, but one thing's clear: slugblasting has never sucked so hard since the Gravlux 3000 entered the scene!

TURBO

Describe how your device helps you with an action, then boost or kick as needed.

MODS

- Polarity Reversal Switch (1 coil, 1 disc).** Jet dust and debris from your vacuum in a billowing cloud or roll to fire an item you previously put there.
- Projection Scope (1 disc, 1 lens).** Roll to suck up objects from distance or a specific part of something from nearby targets.
- Concept Absorption Module (2 gems).** Roll to temporarily remove qualities from a target, such as red, hardness, or fear.
- Bidimensional Diverter (1 coil, 1 gem).** Your vacuum has two pocket dimensions. One collects dust and junk, the other serves as your extra-dimensional lavish suite for 6.
- Property Facsimilator (2 gems, 2 lens).** When you suck up an item, spend turbo to temporarily mimic one of its abilities. Gain the hardness of rock, the heat of flame, or the ability of another signature device.

FUNCTION

Suck up person-sized objects and banish them to your personal pocket dust realm.

LOOK

handheld, glove, ghost trap, shopvac, thermos, backpack, hair dryer...
