PIZZA GEAR

Infinite Pizza Heavy Duty Delivery Bag™

Essential for deliveries through rough terrain, hostile environments, and unstable physics. Internal gravity, inertia, and temp regulation ensures the pizza is delivered like it just came out of the oven! The inside can expand to hold multiple pizza boxes without changing the outside volume. *Note, more boxes still equals more mass/weight.*

Platonic Paper Plate

Looks like a normal paper plate. Supremely absorbent, no matter how much oil and grease is thrown at it. Once you are done eating, don't throw it away. Fold it up and stick it in your pocket. Next time you need a plate, unfold it and it looks like new!

PIZZA RUNS

Exponential Pizza

One day, an unexpected pizza is delivered to your house. *Cool! Free pizza!* The next day, two pizzas arrive. *Rad!* The third day, four... The fourth, eight... The fifth, sixteen... *Ok this is get'n weird!* Oh no! Your parents got the bill and blame you! Alright, time to figure out who is behind this and put a stop to it, even though you don't really want to.

NPCS. **Bip**, Infinite Pizza worker (speedy delivery, too cool for this, chews gum, *"Enjoy pizza or whatever."*). **Trudy True**, newbie worker (gets lost easily, apologetic, enthusiastic, *"Knock! Knock! It's pizza!!!"*).

The Pizza Dimension

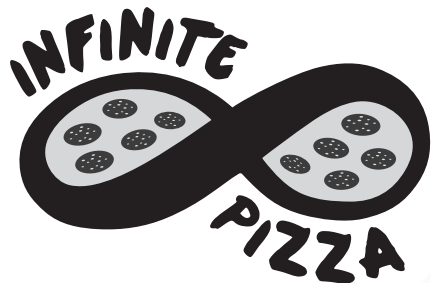

Rumor has it there is a secret multidimensional map in a safe at Infinite Pizza HQ, with directions to a Pizza Dimension! A dimension that is just one giant pizza—grind the crust, skate rolling hills of melted cheese, and ollie up onto a slice of pepperoni the size of a small island! *So rad! We gotta steal—I mean borrow—that map!*

NPCS. **Frog**, laid off Infinite Pizza worker (conspiratorial, slacker, *"Yeah I know about the map. Whattaya do for me?"*). **Stanley**, Infinite Pizza security (bored, distracted by phone, startles easy).

Pizza Wars

Rival pizza chain Positronic Pizza has an all robot workforce: sentient pizza ovens cook the algorithmically perfect pie; speedy delivery bots with built in pizza warmers. Suddenly, something went haywire. Now, the bots are attacking Infinite Pizza delivery kids with laser pizza cutters, raiding rival shops and destroying all their pizza!

NPCS. **CH3Z**, Positronic delivery bot (robotic, *"Exterminate all pizza!"*). **91ZZ4**, Positronic oven (analytical, strategic, *"Our pizza pies are 99.999% delicious. Your pizza pies will be terminated!"*).
