

KLINGON RANK INSIGNIA

FLEET ENLISTED GRADES

Klingon naval enlisted rank insignia follow the pattern of the other services, with one large triangle for junior personnel and two for senior personnel. Unlike the Army, there is no distinction between Tech Masters and Technicians. Unlike the Army and Marines, there is no “branch” color and all technicians have double yellow triangles. Technicians are divided into types: engineering, operations (weapons, communications, navigation), pilots, and medical.
