

Introduction to the Traveller Hero CD:

This **Traveller HERO** project has been a labor of love since 2004, and seeing it available again is fantastic.

With this reissue, I especially want to express appreciation for absent friends: people who made substantial contributions to this project and who deserve to be remembered.

Dedications:

Donald McKinney. Don had a driven personality and it was he who originally took charge of putting this reissue together. I really wish he could have seen this project through to its conclusion. Rest In Peace Don.

Dave Sering. Dave was the long-time Production Manager and **Traveller** Line Editor at Judges Guild, as well as an old and dear friend. Dave created a lot of things for Traveller over the years. Rest In Peace Dave.

Randy Hollingsworth: Randy was the third co-author on the original **Traveller HERO** books. His contributions were foundational; I really wish you could have seen where it all went. Rest In Peace Randy.
