

The cover art features a central figure of a Mechanicus, a member of the Adeptus Mechanicus, depicted in a dynamic, action-oriented pose. The figure is clad in intricate, dark-colored armor with prominent mechanical details, including gears and pistons. A vibrant red cloak is draped over the figure's shoulders, adding a striking contrast to the dark palette. The figure's head is encased in a helmet with glowing blue visors. In the right hand, the figure holds a massive, complex mechanical weapon, possibly a power fist or a specialized tool, which is emitting bright blue energy and sparks. The background is a hazy, industrial landscape with tall, metallic structures and a sky filled with swirling smoke and lightning bolts, creating a sense of a war-torn, mechanical environment. The overall color scheme is dominated by dark greys, blues, and the bright red of the cloak, with high-contrast lighting that emphasizes the metallic textures and the energy of the weapon.

Additional heresies unveiled! The STC patterns describing the forces of our own Cult Mechanicus and Skitarii Legions have been desecrated. Excised from this document are all non-combat related passages. The remaining technical scriptures have been updated to the latest specifications.

All material presented here was created by Games Workshop. This document contains no original content and serves only to update and consolidate the core rules of Warhammer 40,000 Matched Play into a single electronic document for use by players who have purchased the Adeptus Mechanicus Codex, Datacards, Imperium Nihilus: Vigilus Defiant and Chapter Approved 2018.

CONGREGATIONS OF WAR

In this section you'll find rules for Battle-forged armies that include ADEPTUS MECHANICUS Detachments. This section also includes the Adeptus Mechanicus' unique Warlord Traits and Relics. Together, these rules reflect the character and fighting style of the Omnissiah's warriors in your games of Warhammer 40,000.

SOLDIERS OF THE MACHINE GOD

The warriors, cybernetic wonders, priests and arcane engines of the Adeptus Mechanicus have sworn allegiance to the Machine God. Each is utterly dedicated to enacting the will of the Omnissiah at any cost.

If your army is Battle-forged, all Troops units in ADEPTUS MECHANICUS Detachments gain this ability. Such a unit that is within range of an objective marker (as specified in the mission) controls that objective marker even if there are more enemy models within range of it. If an enemy unit within range of the same objective marker has a similar ability, then the objective marker is controlled by the player who has the most models within range of it as normal.

'The universe is not like a puzzle-box that you can take apart and put back together and so solve its secrets. It is a shifting, uncertain thing which changes as you consider it, which is changed by the very act of observation. A powerful man is not a man who dissects the universe like a puzzle-box, examining it piece-by-piece and measuring each with scientific precision. A powerful man has only to look upon the universe to change it.'

- Technomagos Gaelos

FORGE WORLD DOGMA

There are many forge worlds spread across the galaxy. It is not surprising that over the long millennia a great number of them have diverged, each developing their own unique character, battle tactics, specialisations and technologies. Such knowledge is powerful, and each forge world guards it jealously, keeping their secrets even from each other.

If your army is Battle-forged, units with the appropriate keyword will receive the corresponding forge world dogma, detailed opposite, so long as every other unit in their Detachment is from the same forge world. If you have chosen a forge world that does not feature on this list, you can choose the dogma that best suits the fighting style and battlefield strategies of the warriors that hail from it.

FORGE WORLD DOGMA

MARS:

GLORY TO THE OMNISSIAH

In all the Cult Mechanicus, there are no forge worlds more holy or more blessed than Mars. The favour of the Machine God can be seen in the powerful optimisation granted by every static-ridden psalm incanted by his most faithful followers.

Each time you randomly determine which Canticle of the Omnisiah (pg 73) is being canted, roll two dice instead of one. All units with this dogma receive the benefit of both results, instead of just the result of the first dice (if a duplicate is rolled, no additional Canticle is canted this turn).

GRAIA:

REFUSAL TO YIELD

Steely minded tenacity and the refusal to retreat are more than just character traits of those who serve Graia. Indeed, such qualities are hardwired into all who bear the forge world's symbol.

Roll a D6 each time a model with this dogma is slain or flees – on a 6 that model refuses to yield; either the model is not slain (and has 1 wound remaining) or that model does not flee. However, <FORGE WORLD> units with this dogma cannot Fall Back unless there is a friendly <FORGE WORLD> CHARACTER on the battlefield.

METALICA:

RELENTLESS MARCH

Those of Forge World Metalica seek nothing less than to completely obliterate their foes and to re-order the galaxy according to their own dictates. They will let nothing sway their appointed task.

If a unit with this dogma Advances, it can ignore the penalty for firing Assault weapons and treats all Rapid Fire weapons it is armed with as Assault weapons until the end of the turn (e.g. a Rapid Fire 1 weapon is treated as an Assault 1 weapon).

LUCIUS:

THE SOLAR BLESSING

Lucius is renowned for its craftsmanship and its unique solar-blessed ores. Those clad in such raiment consider themselves armoured in their faith of the Omnisiah.

When making saving throws, units with this dogma treat enemy attacks with an Armour Penetration characteristic of -1 as having an Armour Penetration of 0 instead.

AGRIPINAA:

STAUNCH DEFENDERS

Battle-hardened by constant clashes with the horrors that issue out of the Eye of Terror, those from Forge World Agripinaa have learned the lessons of defensive warfare well.

When firing Overwatch, units with this dogma hit on a roll on 5+, instead of only 6, irrespective of modifiers.

STYGIES VIII:

SHROUD PROTOCOLS

When the armies of Stygies VIII march to war, they do so beneath stealth screen projectors and target-befouling apparatus. That the Tech-Priests of this forge world deny owning such technology only reinforces their untrustworthy reputation.

Your opponent must subtract 1 from their hit rolls when shooting at units with this dogma if they are more than 12" away.

RYZA:

RED IN COG AND CLAW

Tech-Priests of Ryza point to aggressive combat doctrines and zealous training protocols to explain the exceptional hand-to-hand prowess of their troops. Sceptics, however, counter that such designs do not explain why Ryza troops seem to revel in close-quarters violence.

You can re-roll wound rolls of 1 in the Fight phase for units with this dogma.

DEFENDERS OF THE FORGE WORLDS

This section contains all of the datasheets that you will need to fight battles with your Adeptus Mechanicus miniatures, and the rules for all of the weapons they can wield in battle. Each datasheet includes the characteristics profiles of the unit it describes, as well as any wargear and special abilities it may have. Any abilities that are common to several units are described below and referenced on the datasheets themselves.

KEYWORDS

Throughout this section you will come across keywords that are within angular brackets, specifically <FORGE WORLD> or <HOUSEHOLD>. These are shorthand for keywords of your own choosing, as described below.

<FORGE WORLD>

Most of the forces of the Adeptus Mechanicus belong to a forge world. Some datasheets specify what forge world the unit is drawn from (e.g. Belisarius Cawl has the **MARS** keyword, so is from the forge world of Mars). If an **ADEPTUS MECHANICUS** datasheet does not specify which forge world it is from, it will have the <FORGE WORLD> keyword. When you include such a unit in your army,

you must nominate which forge world that unit is from. There are many different forge worlds to choose from; you can use any of the forge worlds described in our books, or make up your own forge world if you prefer. You then simply replace the <FORGE WORLD> keyword in every instance on that unit's datasheet with the name of your chosen forge world.

For example, if you were to include a Tech-Priest Dominus in your army, and you decided they were from Lucius, then their <FORGE WORLD> keyword is changed to **LUCIUS**, and their 'Lord of the Machine Cult' ability would say 'You can re-roll hit rolls of 1 in the Shooting phase for friendly **LUCIUS** units within 6".'

"There can be but one protocol to follow when faced with those who blaspheme against the Machine God. Begin the Canticles and send forth the Legions. The doom which we deliver must be absolute. All must fall before the Omnissiah's might."

- Aurgreus Osmium
Tech-Priest Dominus

<HOUSEHOLD>

With the exception of Freeblades, all Imperial Knights belong to a household – a noble house which owes its allegiance to the Adeptus Mechanicus.

Imperial Knights datasheets have the <HOUSEHOLD> keyword. When you include such a unit in your army, you must nominate which household that unit is from. You then simply replace the <HOUSEHOLD> keyword in every instance on that unit's datasheet with the name of your chosen household. You can use any of the households that you have read about, or make up your own.

For example, if you were to include a Knight Errant your army, and you decided it was from House Raven, its <HOUSEHOLD> Faction keyword is changed to **HOUSE RAVEN**.

You can instead nominate any Imperial Knight to be a Freeblade. If you do so, replace the <HOUSEHOLD> keyword in every instance on that unit's datasheet with the **FREEBLADE** keyword.

ABILITIES

The following ability is common to several Adeptus Mechanicus units:

CANTICLES OF THE OMNISSIAH

The disciples of the Ommissiah incant complex war-blessings, as much optimisation subroutines as they are expressions of faith in the Machine God.

All units with this ability gain a bonus during the battle depending on the Canticle of the Ommissiah currently being canted.

At the start of each battle round, pick which Canticle of the Ommissiah from the table below is in effect for the duration of the battle round. The same Canticle may not be picked twice during the same battle.

Alternatively, you can randomly determine which Canticle of the Ommissiah is in effect by rolling a D6 and consulting the table below. Note that if you randomly determine a Canticle, it takes effect even if the same Canticle has been in effect earlier in the battle.

If you have a Battle-forged army, units only receive the bonus if every model in their Detachment has this ability.

CANTICLES OF THE OMNISSIAH TABLE

D6 CANTICLE

- | | |
|---|--|
| 1 | Incantation of the Iron Soul
<i>Raising their voices in binharic praise, the Disciples of the Machine God bolster their spirits with the surety of iron.</i>
You can re-roll failed Morale tests for affected units. |
| 2 | Litany of the Electromancer
<i>Summoning the spark of the Machine God's divinity that burns within them, the Ommissiah's faithful manifest blazing auras of energy that lay low the unbeliever.</i>
Roll a D6 for each enemy unit that is within 1" of any affected units; on a roll of 6, the unit being rolled for suffers D3 mortal wounds. |
| 3 | Chant of the Remorseless Fist
<i>In spitting out a staccato chant to the Motive Force, the faithful warriors of the Cult Mechanicus are filled with merciless surety as well as intent.</i>
You can re-roll any hit rolls of 1 for affected units in the Fight phase. |
| 4 | Shroudpsalm
<i>Robot, servitor and priest shift their binharic emissions into visible spectra, the static pouring from their vox-grilles manifesting as an electromagnetic storm that hides them from the foe.</i>
Affected units gain the bonus to their armour saving throws as if they were in cover. Units already in cover are unaffected. |
| 5 | Invocation of Machine Might
<i>The Tech-Priests lead their flock in a hexadecimic prayer that sends miraculous strength surging through tendons, wires and pistons.</i>
Affected units have +1 Strength. |
| 6 | Benediction of the Ommissiah
<i>Those blessed enough to comprehend this blaring vox-prayer find their targeting reticules guided by the Ommissiah's own vigilance.</i>
You can re-roll failed hit rolls of 1 for affected units in the Shooting phase. |

CYBERNETICA COHORT

The Legio Cybernetica is one of the oldest institutions in the Adeptus Mechanicus, and it has endured for a reason. Each Kastelan Robot is a mighty idol of war – when gathered in maniples and brought to full lethality by the correct doctrina wafers, they can be unstoppable.

SPECIALIST DETACHMENT

If your army is Battle-forged, you can use the Specialist Detachment Stratagem below:

1CP

CYBERNETICA COHORT

Specialist Detachment Stratagem

Marching into battle with inhuman synchronisation come the maniples of the Legio Cybernetica, ready to wage war in their pursuit of arcane knowledge.

Use this Stratagem when choosing your army. Pick an ADEPTUS MECHANICUS Detachment from your army to be a Cybernetica Cohort Specialist Detachment. TECH-PRIESTS DOMINUS, ENGINEERS, CYBERNETICA DATASMITHS and KASTELAN ROBOTS in that Detachment gain the CYBERNETICA COHORT keyword.

WARLORD TRAIT

If a CYBERNETICA COHORT CHARACTER is your Warlord, you can give them the following Warlord Trait.

ADEPT OF THE LEGIO CYBERNETICA

A veteran of battle and trusted overseer of many of the Legio Cybernetica's most treasured relic robots, this warlord is especially skilled at repairing the battle damage sustained by his charges.

Once per battle, when your Warlord uses their Master of Machines ability to repair a friendly unit of CYBERNETICA COHORT KASTELAN ROBOTS, that unit regains D6 lost wounds instead of D3.

STRATAGEMS

If your army includes any Cybernetica Cohort Specialist Detachments, you can use Command Points (CPs) to use the following Stratagems:

1CP

POWER SURGE

Adeptus Mechanicus Stratagem

The datasmith delivers a burst of energy to the Kastelan Robots allowing them to cross the battlefield at an accelerated pace.

Use this Stratagem at the start of your Charge phase. Pick a unit of CYBERNETICA COHORT KASTELAN ROBOTS from your army within 3" of a friendly CYBERNETICA COHORT CYBERNETICA DATASMITH. Add 3 to charge rolls made for that unit of Kastelan Robots until the end of that phase.

1CP

STRAFING FIRE RUN

Adeptus Mechanicus Stratagem

Modifying the doctrina wafers of these Kastelan Robots grants them greater manoeuvrability and firepower – a devastating combination.

Use this Stratagem at the start of your Movement phase. Pick a unit of CYBERNETICA COHORT KASTELAN ROBOTS from your army that has the Aegis Protocol in effect. Until the end of that turn, treat Heavy weapons that unit is armed with as Assault weapons for all rules purposes.

ARCANA MECHANICUM

If your army includes any Cybernetica Cohort Specialist Detachments, you can give the following relic to a CYBERNETICA COHORT CHARACTER from your army:

DOCTRINA FOREAS SERVO-SKULL

Fitted with archeotech grav-boosters, this servo-skull has been adapted to quickly dispense sanctified doctrina wafers to Kastelan Robots. This allows Datasmiths or other adepts of the Legio Cybernetica to extend their control over a wider net of robots and command greater numbers in battle.

Friendly units of CYBERNETICA COHORT KASTELAN ROBOTS can attempt to change their battle protocols at start of each of your Movement phases if they are within 9" of the bearer.

SERVITOR MANIPLE

A Servitor Maniple will trundle and crunch its way to war, driven by its Tech-Priest's inhuman obsession with knowledge claimed at any cost. These mindless cyborgs fight in uncanny unison, their humanity secondary to the destructive power of the weapons sutured to their limbs.

SPECIALIST DETACHMENT

If your army is Battle-forged, you can use the Specialist Detachment Stratagem below:

1CP

SERVITOR MANIPLE

Specialist Detachment Stratagem

Like a coming storm, the rhythmic whirl of Kataphron tracked motive units and the ponderous crump of marching battle servitors signal the coming of a Servitor Maniple, a legion of lobotomised slaves serving only the will of the Omnissiah.

Use this Stratagem when choosing your army. Pick an ADEPTUS MECHANICUS Detachment from your army to be a Servitor Maniple Specialist Detachment. TECH-PRIESTS DOMINUS, ENGINEERS, KATAPHRON BREACHERS, KATAPHRON DESTROYERS and SERVITORS in that Detachment gain the SERVITOR MANIPLE keyword.

WARLORD TRAIT

If a SERVITOR MANIPLE CHARACTER is your Warlord, you can give them the following Warlord Trait.

MASTER OF BIOSPLICING

This Tech-Priest has no qualms about sacrificing one specimen to preserve another.

At the end of your Movement phase, you can pick a unit of SERVITORS from your army within 6" of your Warlord and a unit of KATAPHRON BREACHERS or KATAPHRON DESTROYERS from your army within 6" of your Warlord. 1 model from that unit of SERVITORS is immediately slain. A model in that unit of KATAPHRON BREACHERS or KATAPHRON DESTROYERS then regains D3 lost wounds, or, if there are no wounded models in the unit and any models in the unit have been slain, you can return one slain model to the unit with 1 wound remaining (this model is set up in unit coherency and cannot be set up within 1" of any enemy models – if it is not possible to place this model, it is not returned to the unit).

STRATAGEMS

If your army includes any Servitor Maniple Specialist Detachments, you can use Command Points (CPs) to use the following Stratagems:

1CP

ENHANCED BIONICS

Adeptus Mechanicus Stratagem

These Kataphron servitors have had their bionics reinforced and augmented to offer greater protection in battle.

Use this Stratagem before the battle begins. Pick a unit of SERVITOR MANIPLE KATAPHRON BREACHERS or SERVITOR MANIPLE KATAPHRON DESTROYERS from your army. That unit has a 5+ invulnerable save for the duration of this battle.

1CP

NOOSPHERIC MINDLOCK

Adeptus Mechanicus Stratagem

The Tech-Priests that lead Servitor Maniples have advanced targeting systems hardwired into each of their Kataphron servitors that allow updated protocols to override defaults in the heat of battle.

Use this Stratagem at the start of your Shooting phase. Pick a unit of SERVITOR MANIPLE KATAPHRON BREACHERS or SERVITOR MANIPLE KATAPHRON DESTROYERS within 6" of a friendly Servitor Maniple TECH-PRIEST DOMINUS. Add 1 to hit rolls for attacks made by that unit until the end of the phase.

ARCANA MECHANICUM

If your army includes any Servitor Maniple Specialist Detachments, you can give the following relic to a SERVITOR MANIPLE CHARACTER from your army.

THE GENECOG CORPUS

This axe samples genetic data as it hacks into its foe, growing deadlier with each swing.

Model with omnissian axe only. The Genecog Corpus replaces the bearer's omnissian axe and has the following profile:

WEAPON	RANGE	TYPE	S	AP	D
The Genecog Corpus	Melee	Melee	+1	-2	2
Abilities: If the wound roll for an attack made by this weapon is an unmodified 6, the target model suffers D3 mortal wounds instead of any normal damage.					

ARCANA MECHANICUM

Relics of the Machine God are items of incredible rarity, be they masterwork weapons forged by Tech-Adepts of unrivalled skill, or ancient artefacts from the Dark Age of Technology. When not being carried to war by the zealous Tech-Adepts of the Cult Mechanicus, these hallowed artefacts are secured within the impregnable reliquary-vaults of their native forge world.

If your army is led by an ADEPTUS MECHANICUS Warlord, then before the battle you may give one of the following Arcana Mechanicum to an ADEPTUS MECHANICUS CHARACTER. Named characters such as Belisarius Cawl already have one or more artefacts and cannot be given any of the following relics.

Note that some weapons replace one of the character's existing weapons. Where this is the case, if you are playing a matched play game or are otherwise using points values, you must still pay the cost of the weapon that is being replaced. Write down any Arcana Mechanicum your characters have on your army roster.

PATER COG-TOOTH

Legends told in binharic code claim that his axe is the first of its kind. Built upon Mars, the Pater Cog-Tooth is a venerable weapon that seems to glow with an aura of power, although perhaps that is simply rad-emanations dating from the Great Cataclysm of Mars.

Model with an Ommissian axe only. Pater Cog-tooth replaces the bearer's Ommissian axe and has the following profile:

WEAPON	RANGE	TYPE	S	AP	D
Pater Cog-tooth	Melee	Melee	+2	-2	3

ANZION'S PSEUDOGENETOR

Appearing as a nest of mechadendrites, this unsettling device can be set to dissect a nearby alien organism with startling speed and efficiency even in the midst of battle. Blood flies, paralytic elixirs are administered, skin is peeled from muscle and muscle parted from endoskeleton. The wearer watches with scientific interest as his device swiftly concludes its autopsy, filing away observations upon the biomechanics of the foe until the specimen collapses in a mess of laser-sliced viscera and drilled bone.

Each time the bearer fights, they can make D6 additional attacks using the following profile:

WEAPON	RANGE	TYPE	S	AP	D
Anzion's Pseudogenetor	Melee	Melee	4	-1	1
Abilities: You can re-roll failed wound rolls for this weapon when attacking INFANTRY units.					

AUTOCADUCEUS OF ARKHAN LAND

This rod's runic tip can impart blessed energy to anything metallic that the wielder strikes with sufficient vigour. Those cyborgs and engines so struck will stitch themselves back together as if repaired by the hands of the Technoarcheologist himself.

At the start of each of your turns, the bearer of this relic heals 1 wound. In addition, when the bearer uses an ability to repair a friendly ADEPTUS MECHANICUS model (such as Master of Machines), you may re-roll the dice to determine how many wounds are regained.

THE UNCREATOR GAUNTLET

The Uncreator Gauntlet was originally devised to reverse-engineer lost technologies. When laid upon a machine, xenotech fields are released that cause the construct's chronology to be wound back. If the timing is accurate to the picosecond, the temporal anomaly can rejuvenate the machine to the prime of its operative lifespan – or go on to reduce it to a neatly arrayed pile of component parts, each ready for the Tech-Priest's inspection.

Model with a power fist only. The Uncreator Gauntlet replaces the model's power fist and has the following profile:

WEAPON	RANGE	TYPE	S	AP	D
Uncreator Gauntlet	Melee	Melee	x2	-3	D3
Abilities: When attacking with this weapon, you must subtract 1 from the hit roll. Each time you successfully wound an enemy VEHICLE with this weapon, the target suffers 1 mortal wound in addition to any other damage.					

PHOSPHOENIX

The blasphemous Tech-Priest Veriliad essentially destroyed the Adeptus Mechanicus' ability to make phosphex weaponry. Having seen the horror of the living, blue-white flame, Veriliad destroyed the lone STC for the substance's creation. Efforts to recreate it have been unsuccessful ever since. Decried as Heretic Technis by the rest of his order, Veriliad was tied to a stake and shot with the pistol known as Phosphoenix, the finest such weapon ever produced. Perhaps fittingly, he was burnt alive by the very flame he had tried to extinguish.

Model with a phosphor serpenta only. Phosphoenix replaces the model's phosphor serpenta and has the following profile:

WEAPON	RANGE	TYPE	S	AP	D
Phosphoenix	18"	Assault 3	5	-3	1
Abilities: Units attacked by this weapon do not gain any bonus to their saving throws for being in cover.					

RAIMENT OF THE TECHNOMARTYR

This baroque suit of armour contains dozens of eager, life-sustaining machine spirits that buzz within its fibre bundles like stinging insects. The Tech-Priests consider the resultant discomfort of little import, for at a simple conjuration, these spirits swarm out to inhabit the weapons of those nearby. Guns that have been graced by one of these excitable animas can pour volleys of fire into the enemy even when their wielders falter.

Roll a dice each time the bearer of the Raiment of the Technomartyr loses a wound. On a 6 that model does not lose a wound. In addition, Each time a friendly <FORGE WORLD> model within 6" of the bearer fires Overwatch and you roll a 6 to hit, you can make one bonus attack for the same weapon against the charging unit (these attacks cannot generate further attacks).

THE SKULL OF ELDER NIKOLA

This yellowed, multi-lacquered servo-skull is perhaps the most ancient of its kind. It has been ghostdated to the early days of Mankind, when primitive Terrans had barely evolved the ability to conjure light. Should the correct praise-psalm be sung to it, the halo of electrical power that surrounds its bony circumference will explode outwards in a ring of crackling force, scrambling the unnatural workings of enemy war engines.

Once per game, in your Shooting phase, the bearer can unleash the power bound within the Skull of Elder Nikola. Should the bearer do so, roll a dice for each enemy **VEHICLE** unit within 2D6" of them; on a roll of 2+, that unit suffers a mortal wound.

THE OMNISCIENT MASK

Legend has it that the wearer of the Omniscient Mask can read the souls of men, each rendered as legible as the binharic calligraphy of the Illuminatoria. An object of great veneration amongst the Skitarii, those under its gaze fight all the harder, fearing they will be found wanting in the eyes of the Omnissiah's chosen.

You can re-roll failed hit rolls in the Fight phase for friendly **SKITARII** units that are within 6" of the bearer of the Omniscient Mask.

THE CEREBRAL TECHNO-MITRE

Perhaps the most famous of all cogitator engines is the Cerebral Techno-Mitre, a secondary brain that uses synaptic links to directly assist the bearer's own mental capacities. Even amidst the maelstrom of battle, the device runs complex algorithms to suggest the best course of action.

GRAIA Tech-Priest Dominus only. If your army is Battle-forged and includes the bearer of the Cerebral Techno-Mitre, you start the battle with 1 additional Command Point.

THE RED AXE

The appropriately named Red Axe is a colossal cog-bladed axe edged in priceless starmetal that emits a crimson glow. The supply of this unique ore is so limited that only one such weapon has ever been created. It is claimed that few foes can withstand a blow from the Red Axe, a fabled treasure from the war vaults of Mars.

MARS model with an Omnissian axe only. The Red Axe replaces the bearer's Omnissian axe and has the following profile:

WEAPON	RANGE	TYPE	S	AP	D
The Red Axe	Melee	Melee	+1	-5	2

THE SOLAR FLARE

The Solar Flare is a unique Lucius invention that combines that forge world's knowledge of solar fusion and teleportation. It is a personal teleportation device that, when triggered, causes the bearer to burst from the warp in a flash of blinding white light. The highly coveted item has never been successfully replicated.

LUCIUS model only. Once per game, at the end of any of your Movement phases, the bearer of the Solar Flare can teleport instead of moving normally. When they do so, remove them from the battlefield and then replace them anywhere that is within 30" of their starting position and more than 9" from any enemy models.

THE ADAMANTINE ARM

Bionic arms are standard issue enhancements on every forge world, but it was a Tech-Priest of Metalica that saw room for improvement. Powered by batteries of micro servo-engines, the entire arm has been sheathed in nigh impenetrable adamantine, making an appendage that is mightier and harder hitting than any yet invented. Long live efficiency!

METALICA model only. This weapon has the following profile:

WEAPON	RANGE	TYPE	S	AP	D
The Adamantine Arm	Melee	Melee	x3	-3	3
Abilities: This weapon can only be used to make one attack each time this model fights.					

THE OMNISSIAH'S HAND

The device known as the Omnissiah's Hand is a gauntlet lined with a concealed array of digital lasers, believed to be of Jokaero origin. Such items might be techno-heresy to other forge worlds, but many a Tech-Adept of Stygies VIII has become obsessed in their quest to replicate its technology. Thus far their best efforts have been to no avail.

STYGIES VIII model only. Roll a dice at the end of each Fight phase for each enemy unit that is within 1" of the bearer of the Omnissiah's Hand; on a 4+ that unit suffers a mortal wound.

WEAPON XCIX

Ryza is the rare forge world that believes in innovation, and their top Tech-Priests all have their own experimental weapons under development. Such devices often never reach the battlefield, but the up-volted volkite blaster known only as Weapon XCIX has proved its incredible prowess in battle on numerous occasions.

RYZA model with volkite blaster only. Weapon XCIX replaces the model's volkite blaster and has the following profile:

WEAPON	RANGE	TYPE	S	AP	D
Weapon XCIX	24"	Heavy 3	7	-1	2
Abilities: Each time you make a wound roll of 6+ for this weapon, the target suffers a mortal wound in addition to any other damage.					

THE EYE OF XI-LEXUM

Xi-Lexum was a legend of Agripinaa, and none could match the acquisitional triumphs of his macroclades. Even after his death, Xi-Lexum serves his forge world still. A servo-skull has been made from the cranium of the fallen Tech-Priest, who was slain in battle by an agent of the Dark Mechanicum. Even in death, Xi-Lexum's withering gaze can reveal the weaknesses of every foe, and is especially effective in its judgements of those twisted by Chaos.

AGRIPINAA model only. At the start of each of your Shooting phases, pick one enemy **VEHICLE** unit within 18" of the bearer. You can re-roll wound rolls of 1 for friendly **AGRIPINAA** units that target the unit you picked for the rest of the phase. If the unit you picked is a **CHAOS VEHICLE**, you can instead re-roll failed wound rolls for friendly **AGRIPINAA** units that target the unit.

WARLORD TRAITS

The Tech-Adepts of the Adeptus Mechanicus, though often perceived as cold and inhumanly detached, are nonetheless capable leaders. They are able to calculate complex tactical algorithms to overcome battlefield challenges in a matter of nanoseconds, allowing them to claim their objective in the most efficient manner possible.

If an ADEPTUS MECHANICUS CHARACTER is your Warlord, they can generate a Warlord Trait from the following table instead of the one in the *Warhammer 40,000* rulebook. You can either roll on the table below to randomly generate a Warlord Trait, or you can select the one that best suits your general's battlefield imperatives.

D6 RESULT

1 MONITOR MALEVOLUS

Knowledge is power, and it behoves the wise adept to have an endless array of sensors trained on the enemy.

Once per battle, you can re-roll a single hit roll, wound roll or damage roll made for your Warlord. In addition, if your army is Battle-forged and your Warlord is on the battlefield, roll a D6 each time you or your opponent use a Stratagem; on a 6, you gain a Command Point.

2 MAGOS BIOLOGIS

To study a beast is to know a beast – and also to know how to kill it. Know Thine Foe...

You can re-roll failed wound rolls when attacking enemy INFANTRY, BEAST or MONSTER units with your Warlord.

3 MECHADOMINATOR

The most able of Tech-Priests can cause enemy machine spirits to quail through sheer force of willpower.

Your opponent must subtract 1 from hit rolls they make for any of their VEHICLES that target your Warlord.

4 NECROMECHANIC

The blessed healing of machinery is the sign of a true shepherd of the Omnissiah's flock.

Each time your Warlord uses an ability to repair a friendly model, that model regains 1 additional wound.

5 CHORISTER TECHNIS

Through cogitator assistance and auspexial training, it is possible to gain critical thinking that is akin to prescience.

Whilst your Warlord is on the battlefield, you can re-roll the dice whenever you randomly select which Canticle of the Omnissiah (pg 73) is being canted. If your Warlord has the Glory to the Omnissiah dogma (pg 95), you can only re-roll the first dice, not both.

6 PRIME HERMETICON

Let none doubt the cold and logistical hatred of the Machine God and its power to invigorate the faithful.

Friendly <FORGE WORLD> INFANTRY units within 6" of your Warlord can re-roll failed hit rolls in the Fight phase.

FORGE WORLD WARLORD TRAITS

If you wish, you can pick a Forge World Warlord Trait from the list below instead of from the Adeptus Mechanicus Warlord Traits, but only if your Warlord is from that forge world. If Belisarius Cawl is your Warlord, he always has the Static Psalm-code trait.

FORGE WORLD	TRAIT
Mars	Static Psalm-code: Using ancient hymn-code cant, the Warlord broadcasts with increased power. Blessed is he that walks with the Omnissiah. Add 3" to the range of any aura abilities on your Warlord's datasheet (such as Lord of the Machine Cult).
Graia	Emotionless Clarity: With a mind blissfully unsullied by the passions common to flesh, the Warlord can take perfect aim even under the most intense pressures. Models in friendly GRAIA units within 6" of your Warlord can shoot with Assault and Rapid Fire weapons even if there are enemy units within 1" of their own unit, but only if they target the closest enemy unit. In such circumstances, the model can shoot even if other friendly units are within 1" of the same enemy unit.
Metalica	Ordered Efficiency: For this Warlord, it is not enough to do a task, for it must be done with machine-like precision and perfection of purpose. If a friendly METALICA unit is within 6" of your Warlord when it Falls Back, it can still shoot during its turn but you must subtract 1 from that unit's hit rolls in that Shooting phase.
Lucius	Masterwork Bionics: Human flesh is an anachronism, a sad legacy of a civilisation whose time has come and gone. Perfection is in crafting. Add 1 to invulnerable saving throws made for your Warlord.
Agripinaa	Reinforced Exoskeleton: Seeking a sham immortality, the Tech-Priest has installed layers of nigh-impenetrable fleximetal in his armour plates. All damage suffered by your Warlord is reduced by 1 (to a minimum of 1).
Stygies VIII	Xenarite Studies: One who has studied the alien for many lifespans knows best how to kill it. Add 1 to any wound rolls made for your Warlord against units that do not have the CHAOS, IMPERIUM or UNALIGNED Faction keywords.
Ryza	First-hand Field Testing: True innovation is rare amongst Tech-Priests, but that is not so on Ryza. When setting up your Warlord, choose one of their weapons (this cannot be an Arcana Mechanicum); increase the Strength and Damage characteristics of that weapon by 1.
