

Squickcut, the Sword of Moonlight

Many people think that Mordheim has been overrun by Evil after the comet destroyed most of that once proud city. The lure of nyrdstone attracted many people and unfortunately most of them weren't what one would call decent lads. On top of that monsters flocked to the City of the Damned, some after nyrdstone just as the humans, others just after food and prey, mostly humans.

So it seems that indeed Evil has taken over the city. But there are persons who has taken a stand against it. Persons who fight the good fight and try to stop the threat of Evil in Mordheim. One of these is the well-known legendary character Aerun, the Sword of Twilight, but there are many not so well-known persons fighting this good fight. And one is more feared then all the others combined. His nickname is Moonlight and this is his story.

Moonlight is a snotling and on top of that an ex-pitfighter. Some might think this is a strange combination. But these people have never encountered Moonlight when he prowls the streets of Mordheim. He is a good friend of Aerun and sometimes they team up to fight against a particular strong or dangerous opponent. Moonlight's real snotling name is Squickcut and he has been trained in all martial-arts disciplines known to man (and snotling).
